Subject: RE: Draft M&I water shortage Policy

Betty and John, just a first quick comment. I was surprised that the M&I contractors in the Friant Division are not included on the chart. I understand that the expectation is that Friant will operate under its class 1 and 2 system, somewhat independent of the remainder of the CVP. However, this is purported to be a CVP-wide policy. It is appropriate to include all CVP M&I contractors, even if they individually opt out of the program. For example, right now the City of Fresno operates under a contract that does not include the detailed Class 1 and 2 shortage provision of the new contracts. Until the City's contract is renewed/amended, it would seem appropriate to include them in the CVP policy.

Thanks. I may have more based on a more detailed review, which I will supply to you by Jan 10.

Happy holidays, and have a safe and enjoyable new year.

Subject: Draft M&I water shortage Policy

all,

Attached is the draft M&I water shortage policy. We agreed to put this out one last time for the M&I water shortage group to review and provide comments. Your comments are due on January 10, 2001. After we review your comments, we will then put this policy out for a 30 day public review and comment period.

Please send your Comments to:
