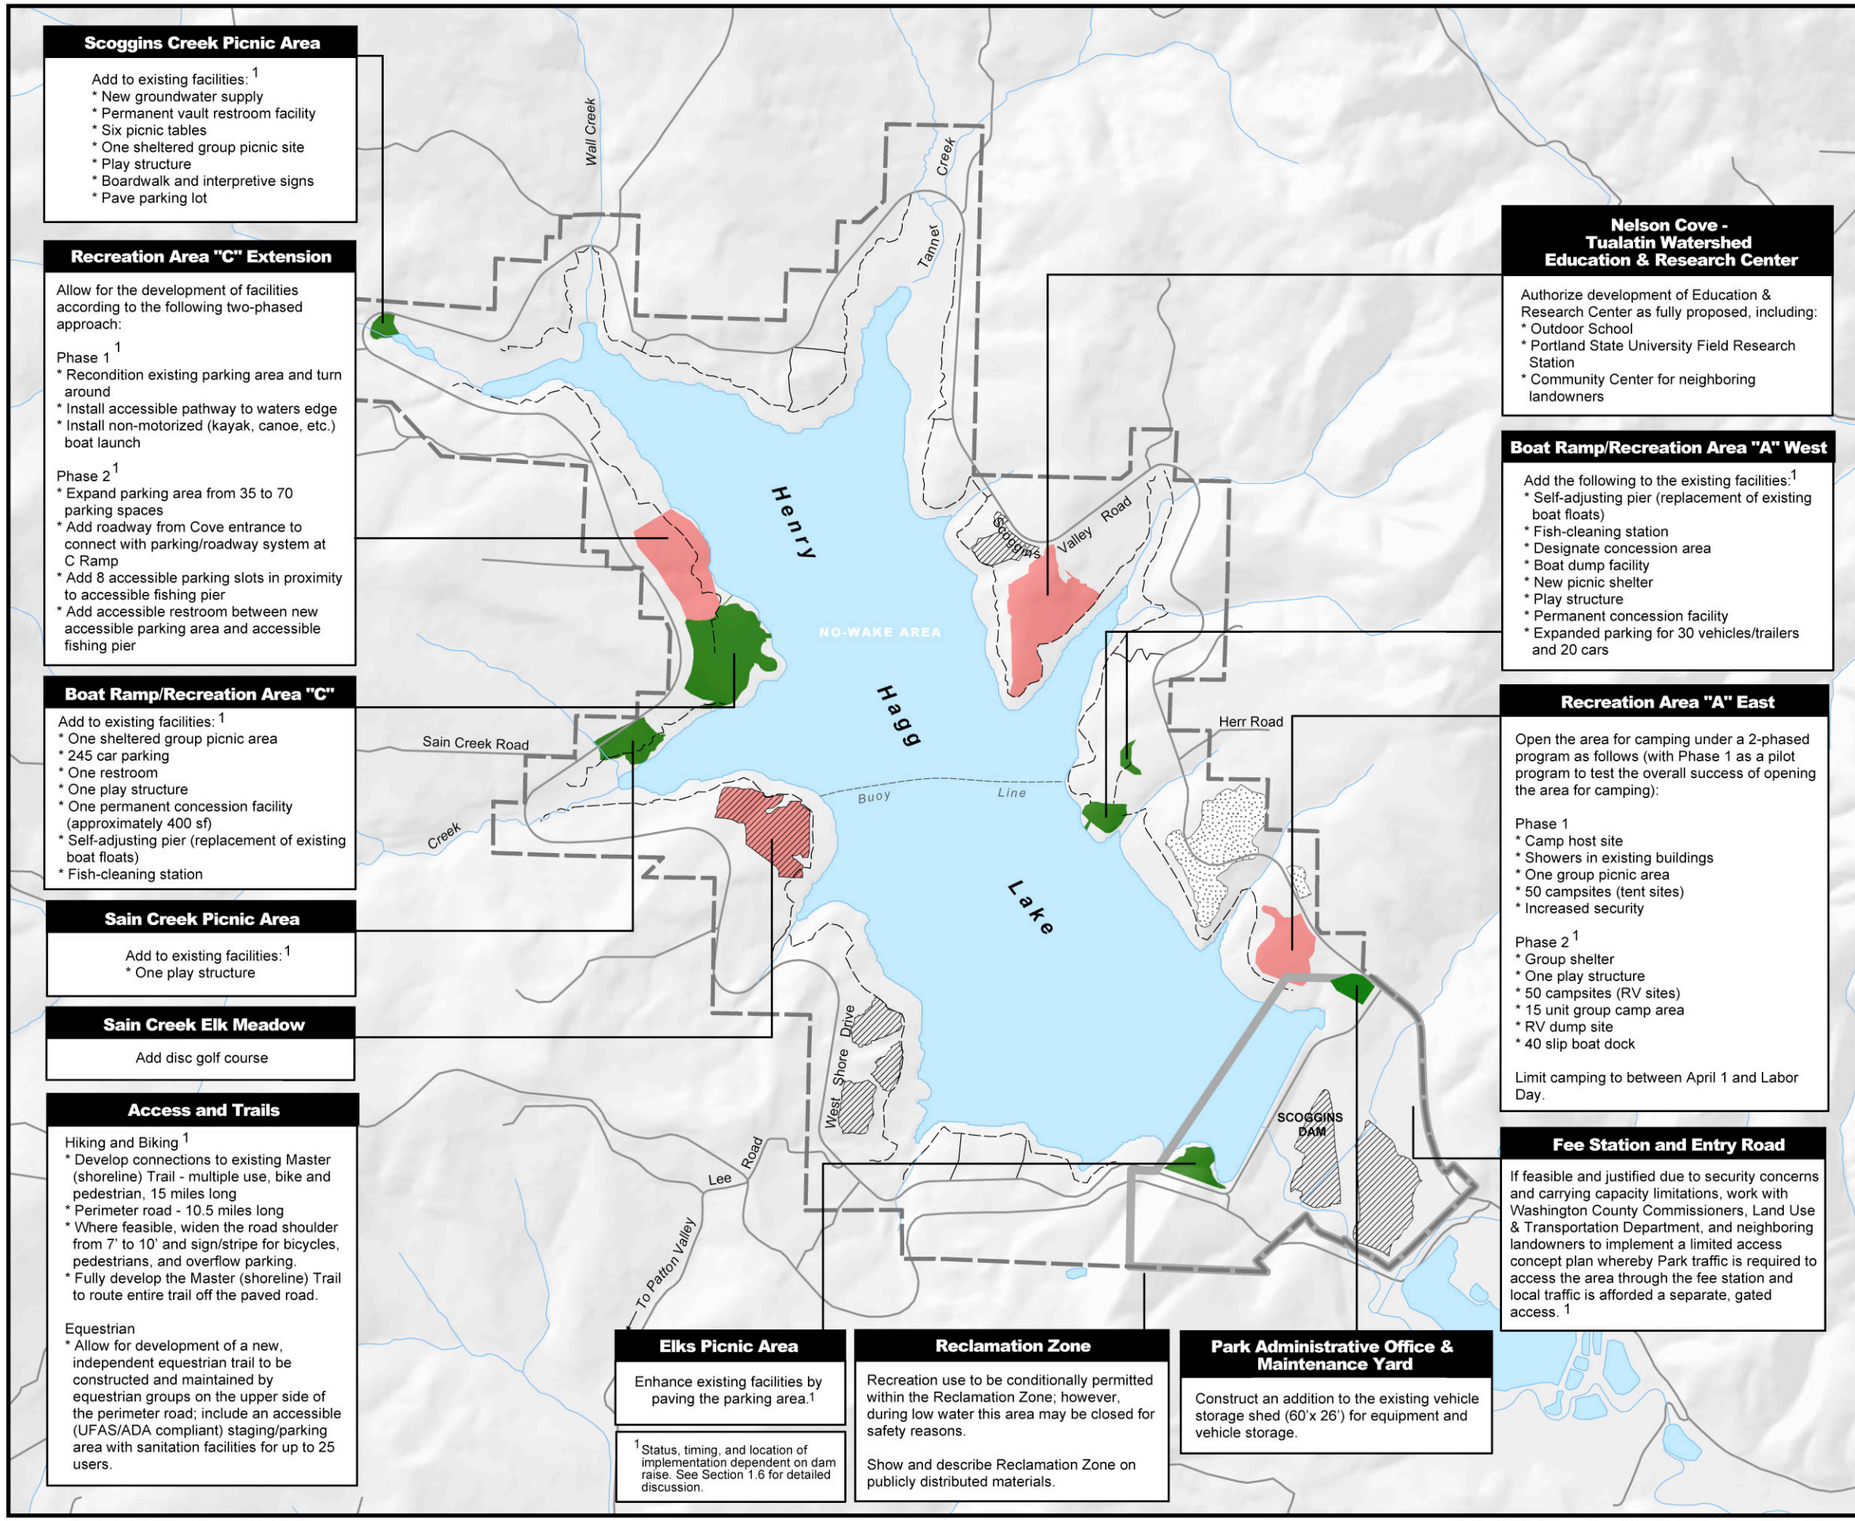
Figure 2.2-3

Alternative C: Moderate Recreation Development with Resource Enhancement (Preferred Alternative)



Scoggins Creek Picnic Area

Add to existing facilities: [1]
* New groundwater supply
* Permanent vault restroom facility
* Six picnic tables
* One sheltered group picnic site
* Play structure
* Boardwalk and interpretive signs
* Pave parking lot

Recreation Area "C" Extension

Allow for the development of facilities according to the following two-phased approach:

Phase 1 [1]
* Recondition existing parking area and turn around
* Install accessible pathway to waters edge
* Install non-motorized (kayak, canoe, etc.) boat launch

Phase 2 [1]
* Expand parking area from 35 to 70 parking spaces
* Add roadway from Cove entrance to connect with parking/roadway system at C Ramp
* Add 8 accessible parking slots in proximity to accessible fishing pier
* Add accessible restroom between new accessible parking area and accessible fishing pier

Boat Ramp/Recreation Area "C"

Add to existing facilities: [1]
* One sheltered group picnic area
* 245 car parking
* One restroom
* One play structure
* One permanent concession facility (approximately 400 sf)
* Self-adjusting pier (replacement of existing boat floats)
* Fish-cleaning station

Sain Creek Picnic Area

Add to existing facilities: [1]
* One play structure

Sain Creek Elk Meadow

Add disc golf course

Access and Trails

Hiking and Biking [1]
* Develop connections to existing Master (shoreline) Trail - multiple use, bike and pedestrian, 15 miles long
* Perimeter road - 10.5 miles long
* Where feasible, widen the road shoulder from 7' to 10' and sign/stripe for bicycles, pedestrians, and overflow parking.
* Fully develop the Master (shoreline) Trail to route entire trail off the paved road.

Equestrian
* Allow for development of a new, independent equestrian trail to be constructed and maintained by equestrian groups on the upper side of the perimeter road; include an accessible (UFAS/ADA compliant) staging/parking area with sanitation facilities for up to 25 users.

Nelson Cove - Tualatin Watershed Education & Research Center

Authorize development of Education & Research Center as fully proposed, including:
* Outdoor School
* Portland State University Field Research Station
* Community Center for neighboring landowners

Boat Ramp/Recreation Area "A" West

Add the following to the existing facilities: [1]
* Self-adjusting pier (replacement of existing boat floats)
* Fish-cleaning station
* Designate concession area
* Boat dump facility
* New picnic shelter
* Play structure
* Permanent concession facility
* Expanded parking for 30 vehicles/trailers and 20 cars

Recreation Area "A" East

Open the area for camping under a 2-phased program as follows (with Phase 1 as a pilot program to test the overall success of opening the area for camping):

Phase 1
* Camp host site
* Showers in existing buildings
* One group picnic area
* 50 campsites (tent sites)
* Increased security

Phase 2 [1]
* Group shelter
* One play structure
* 50 campsites (RV sites)
* 15 unit group camp area
* RV dump site
* 40 slip boat dock

Limit camping to between April 1 and Labor Day.

Fee Station and Entry Road

If feasible and justified due to security concerns and carrying capacity limitations, work with Washington County Commissioners, Land Use & Transportation Department, and neighboring landowners to implement a limited access concept plan whereby Park traffic is required to access the area through the fee station and local traffic is afforded a separate, gated access. [1]

Elks Picnic Area

Enhance existing facilities by paving the parking area.[1]

[1] Status, timing, and location of implementation dependent on dam raise. See Section 1.6 for detailed discussion.

Reclamation Zone

Recreation use to be conditionally permitted within the Reclamation Zone; however, during low water this area may be closed for safety reasons.

Show and describe Reclamation Zone on publicly distributed materials.

Park Administrative Office & Maintenance Yard

Construct an addition to the existing vehicle storage shed (60'x 26') for equipment and vehicle storage.

- Park Facility or Recreation Site
- Proposed New Use
- Existing Elk Meadow
- Future Elk Meadow
- Reclamation Zone
- Reclamation Lands
- Recreation Trail
- Recreation Trail Access
- Road
- Stream
