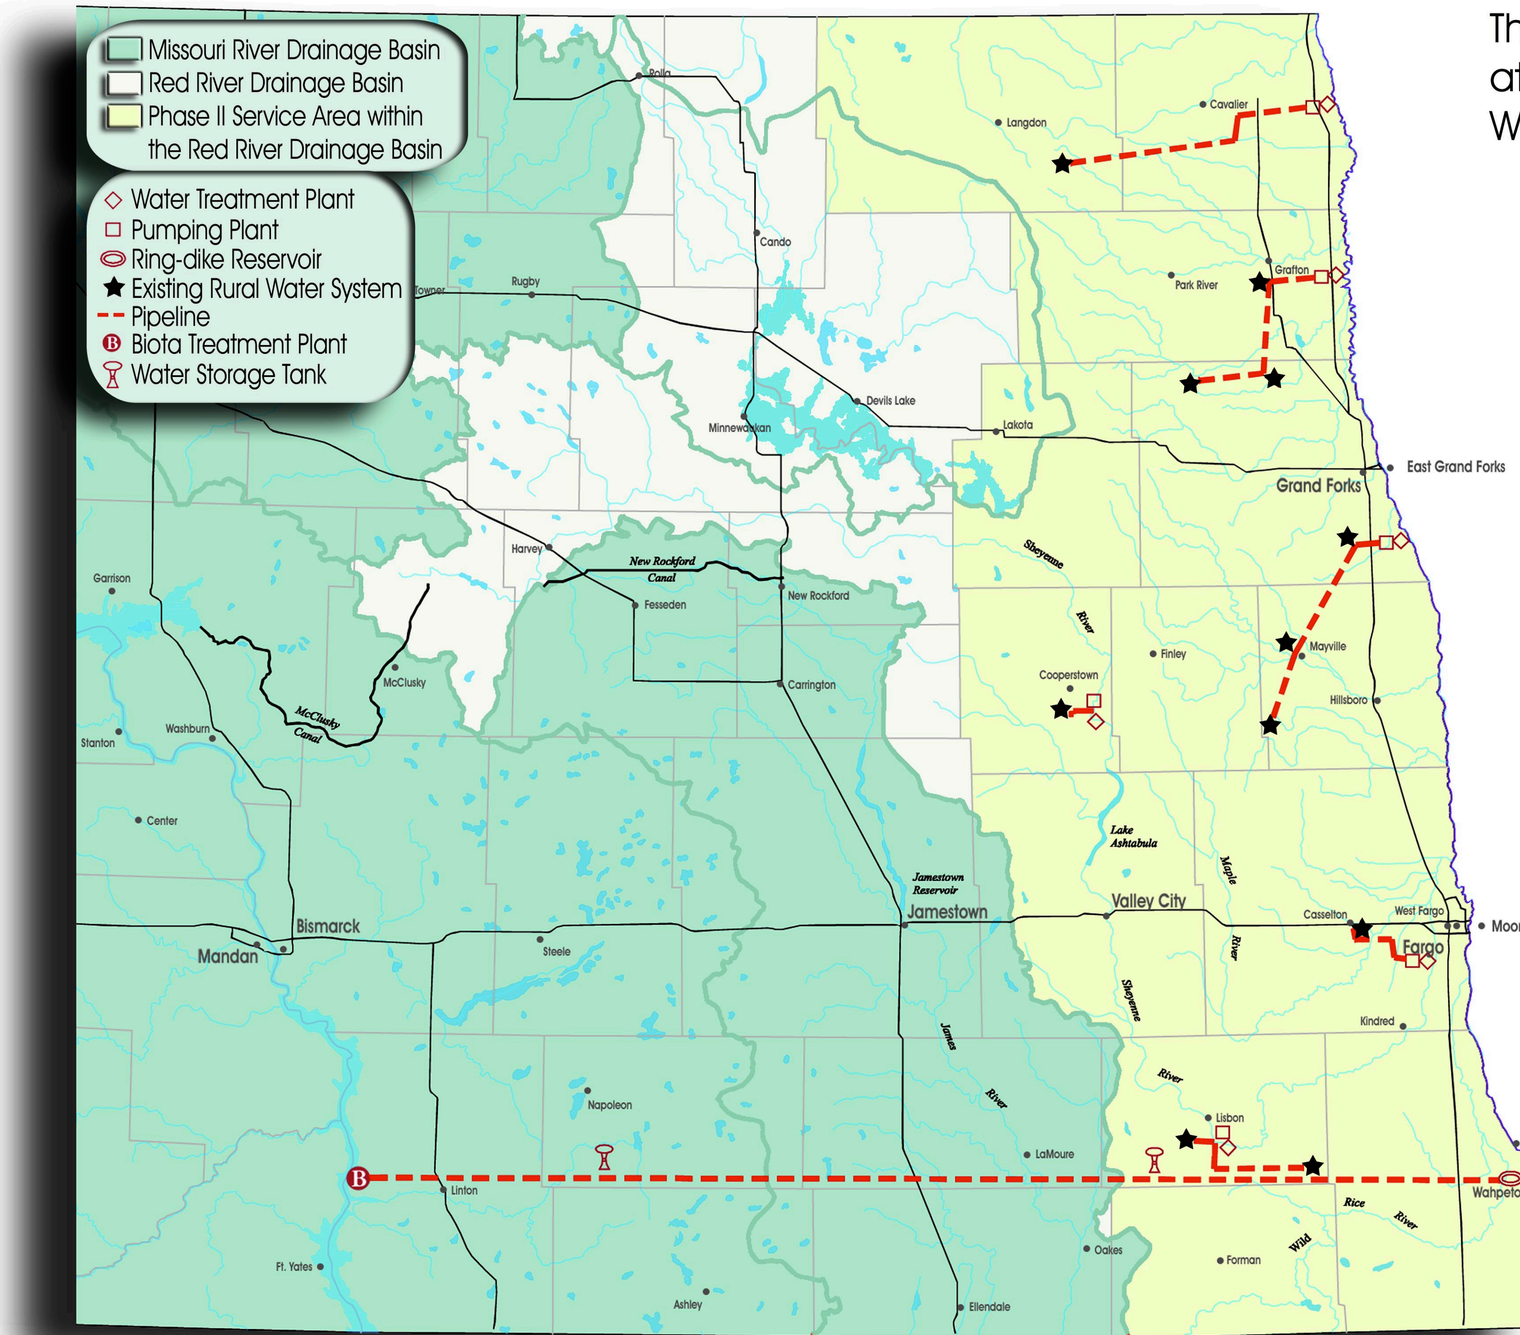
# ALTERNATIVE 6: Import, Lake Oahe to Wahpeton Pipeline



This alternative brings water from the Missouri River at Lake Oahe and delivers it to the vicinity of Wahpeton.

**Features:**

1. Build biota treatment plant located at the pipeline intake on Lake Oahe.
2. Construct pipeline conveyance system to transport water from Lake Oahe to Wahpeton.
3. Add ring-dike reservoir near Wahpeton to regulate the flow of water from the main pipeline.
4. Deliver treated surface-water from the Red River to rural water systems throughout the valley.
5. Incorporate water conservation measures.
