

RE: DRAFT EIS/EIR

I WOULD AND DO STRONGLY SUPPORT ANY ACTION TO RETURN THE NORTH FORK OF THE AMERICAN RIVER TO ITS NATURAL PATH. IT SEEMS LOGICAL TO PLAN AND BUILD A BRIDGE OVER THE RIVER SOONER THAN LATER. MYSELF AND MANY OF MY FRIENDS FREQUENTLY ENJOY LONG HIKE THROUGH THE AMERICAN RIVER CANYON, AND WE WOULD APPRECIATE A WAY TO CROSS THE RIVER WITHOUT GETTING WET, ESPECIALLY IN WINTER MONTHS. ALSO, I STRONGLY BELIEVE THAT A DAM AT THIS LOCATION WOULD BE A VERY BAD IDEA.

THANK YOU

12/9/01 We strongly support a bridge to keep the Coffin Dam trail open. We moved to Auburn because of the trail system in the AR canyon. We are dual trail riders and recreational facilities are in the best interest of the state.

I have been running, biking, hiking through-out this area for 20+ years. So please build a good bridge to accommodate all of us that use these trails every week. There are a lot of us, and more each year. It is a great area to train in, just don't forget us. Thank-you. 12/9/01

Having lived in other parts of the country, I support a pedestrian bridge with the closing of the tunnel. Among its benefits:  
• Pedestrian (multi-use) access to this recreation area.  
• Mitigate impact on the "No Hands" Bridge, which has already received substantial local, state, & federal investment.

L-328 → Please refer to Master Response 3.1.1, Auburn-to-Cool Trail.

Biking is important and a trail  
should be included for all  
people to access. Keeping the  
trail open and building a  
bridge would be essential.

CONCERN FOR MARINA OPERATION

6-10' LOWER NOS NEGATIVE IMPACTS:

- ON MARINA OPERATION: MORE WORK
- IMPACT ON BOATERS' ABILITY TO ACCESS & ENJOY LAKE
- MORE HAZARDS APPEARING MORE RAPIDLY AS LAKE DROPS
- POTENTIAL FOR LAKE TO NOT RECOVER IN DRY YEARS FORCING PRODUCE CONDITION QUIN WIDE SPEED AREA
- FISHING NOT AS GOOD DURING LOW LEVELS
- NEGATIVE IMPACT TO STATE PARK REVENUE
- SIGNIFICANT IMPACT ON REVENUE TO FOLSOM LAKE MARINA
