

1 UNITED STATES
2 DEPARTMENT OF THE INTERIOR
3 BUREAU OF RECLAMATION
4 Central Valley Project, California

5 LONG-TERM RENEWAL CONTRACT BETWEEN THE UNITED STATES
6 AND
7 EXETER IRRIGATION DISTRICT
8 PROVIDING FOR PROJECT WATER SERVICE
9 FROM FRIANT DIVISION

10 THIS CONTRACT, made this ____ day of _____, 2001, in pursuance
11 generally of the Act of June 17, 1902 (32 Stat. 388), and acts amendatory or supplementary thereto,
12 including, but not limited to, the Acts of August 26, 1937 (50 Stat. 844), as amended and supplemented,
13 August 4, 1939 (53 Stat. 1187), as amended and supplemented, July 2, 1956 (70 Stat. 483), June 21,
14 1963 (77 Stat. 68), October 12, 1982 (96 Stat. 1262), October 27, 1986 (100 Stat. 3050), as amended,
15 and Title XXXIV of the Act of October 30, 1992 (106 Stat. 4706), all collectively hereinafter referred to as
16 Federal Reclamation law, between THE UNITED STATES OF AMERICA, hereinafter referred to as the
17 United States, and EXETER IRRIGATION DISTRICT, hereinafter referred to as the Contractor, a public
18 agency of the State of California, duly organized, existing, and acting pursuant to the laws thereof, with its
19 principal place of business in California;

20 WITNESSETH, That:

21 EXPLANATORY RECITALS

22 [1st] WHEREAS, the United States has constructed and is operating the Central Valley Project,

23 California, for diversion, storage, carriage, distribution and beneficial use, for flood control, irrigation,
24 municipal, domestic, industrial, fish and wildlife mitigation, protection and restoration, generation and
25 distribution of electric energy, salinity control, navigation and other beneficial uses, of waters of the
26 Sacramento River, the American River, the Trinity River, and the San Joaquin River and their tributaries; and

27 [2nd] WHEREAS, the United States constructed Friant Dam (thereby creating Millerton Lake)
28 and the Friant-Kern and Madera Canals, hereinafter collectively referred to as the Friant Division,
29 hereinafter collectively referred to as the Friant Division facilities, which will be used in part for the furnishing
30 of water to the Contractor pursuant to the terms of this Contract; and

31 [3rd] WHEREAS, pursuant to Section 8 of the Act of June 17, 1902(32 Stat. 388), the United
32 States has acquired water rights and other rights to the flows of the San Joaquin River, including without
33 limitation the permits issued as the result of Decision 935 by the California State Water Resource Control
34 Board and the contracts described in subdivision (n) of Article 3 of this Contract, pursuant to which the
35 Contracting Officer develops, diverts, stores and delivers Project Water stored or flowing through Millerton
36 Lake in accordance with State and Federal law for the benefit of Project Contractors in the Friant Division;
37 and

38 [3.1] WHEREAS, the water supplied to the Contractor pursuant to this Contract is Project Water
39 developed through the exercise of the rights described in the third (3rd) Explanatory Recital of this Contract;
40 and

41 [4th] WHEREAS, the Contractor and the United States entered into Contract No. I75r-2508 ,
42 as amended, which established terms for the delivery to the Contractor of Project Water from the Friant

43 Division from March 23, 1951, through February 28, 1991; and

44 [5th] WHEREAS, the Contractor and the United States entered into Renewal Contract No. I75r-
45 2508R, which provided for continued water service to the Contractor from the Friant Division from March
46 1, 1991, through February 28, 2029, but, in light of the Ninth Circuit Court of Appeals Opinion in the
47 lawsuit entitled Natural Resources Defense Council, et al. v. Roger Patterson, et al., that contract was
48 replaced by Interim Renewal Contract No. I75r-2508-IR1, dated July 10, 1998, which provides for
49 continued water service to the Contractor from the Friant Division from September 14, 1998, through
50 February 28, 2001; and

51 [6th] WHEREAS, Section 3404(c) of the CVPIA provides for long-term renewal of interim and
52 existing long-term Project Water service contracts following completion of appropriate environmental
53 documentation, including a programmatic environmental impact statement (PEIS) pursuant to the National
54 Environmental Policy Act analyzing the direct and indirect impacts and benefits of implementing the CVPIA
55 and the potential renewal of all existing contracts for Project Water; and

56 [7th] WHEREAS, the United States has completed the PEIS and all other appropriate
57 environmental review necessary to provide for long-term renewal of the Existing Contract; and

58 [8th] WHEREAS, the Contractor has requested the long-term renewal of the Existing Contract,
59 pursuant to the terms of the Existing Contract, Federal Reclamation law, and the laws of the State of
60 California, for water service from the Central Valley Project; and

61 [9th] WHEREAS, the United States has determined that the Contractor has fulfilled all of its
62 obligations under the Existing Contract; and

63 [10th] WHEREAS, the Contractor has demonstrated to the satisfaction of the Contracting Officer
64 that the Contractor has utilized the Central Valley Project Water supplies available to it for reasonable and
65 beneficial use and/or has demonstrated projected future demand for water use such that the Contractor has
66 the capability and expects to utilize fully for reasonable and beneficial use the quantity of Project Water to be
67 made available to it pursuant to this Contract; and

68 [11th] WHEREAS, water obtained from the Central Valley Project has been relied upon by urban
69 and agricultural areas within California for more than fifty (50) years, and is considered by the Contractor as
70 an essential portion of its water supply; and

71 [12th] WHEREAS, the economies of regions within the Central Valley Project, including the
72 Contractor's, depend upon the continued availability of water, including water service from the Central
73 Valley Project; and

74 [13th] WHEREAS, the Secretary intends through coordination, cooperation, and partnerships to
75 pursue measures to improve water supply, water quality, and reliability of the Project for all Project
76 purposes; and

77 [14th] WHEREAS, the mutual goals of the United States and the Contractor include: to provide
78 for reliable Project Water supplies; to control costs of those supplies; to achieve repayment of the Central
79 Valley Project as required by law; to guard reasonably against Project Water shortages; to achieve a
80 reasonable balance among competing demands for use of Project Water; and to comply with all applicable
81 environmental statutes, all consistent with the legal obligations of the United States relative to the Central
82 Valley Project; and

83 [15th] WHEREAS, Omitted; and

84 [15.1] WHEREAS, during Uncontrolled Seasons, Friant Division Project Contractors utilize
85 undependable Class 2 Water in their service areas to, among other things, assist in the management and
86 alleviation of groundwater overdraft in the Friant Division service area, provide opportunities for
87 environmental enhancement, including restoration of the San Joaquin River below Friant Dam, minimize
88 flooding along the San Joaquin River, encourage optimal water management, and maximize the reasonable
89 and beneficial use of the water; and

90 [15.2] WHEREAS, the parties desire and intend that this Contract not provide a disincentive to
91 the Friant Division Project Contractors continuing to carry out the beneficial activities set out in the
92 Explanatory Recital immediately above; and

93 [16th] WHEREAS, the United States and the Contractor are willing to enter into this Contract
94 pursuant to Federal Reclamation law on the terms and conditions set forth below;

95 NOW, THEREFORE, in consideration of the mutual and dependent covenants herein contained, it
96 is hereby mutually agreed by the parties hereto as follows:

97 DEFINITIONS

98 1. When used herein unless otherwise distinctly expressed, or manifestly incompatible with the
99 intent of the parties as expressed in this Contract, the term:

100 (a) "Calendar Year" shall mean the period January 1 through December 31, both dates
101 inclusive;

102 (b) "Charges" shall mean the payments required by Federal Reclamation law in addition

103 to the Rates and Tiered Pricing Components specified in this Contract as determined annually by the
104 Contracting Officer pursuant to this Contract;

105 (b2) "Class 1 Water" shall mean that supply of water stored in or flowing through
106 Millerton Lake which, subject to the contingencies hereinafter described in Articles 3, 11, and 12 of this
107 Contract, will be available for delivery from Millerton Lake and the Friant-Kern and Madera Canals as a
108 dependable water supply during each Year;

109 (b3) "Class 2 Water" shall mean that supply of water which can be made available
110 subject to the contingencies hereinafter described in Articles 3, 11, and 12 of this Contract for delivery from
111 Millerton Lake and the Friant-Kern and Madera Canals in addition to the supply of Class 1 Water.
112 Because of its uncertainty as to availability and time of occurrence, such water will be undependable in
113 character and will be furnished only if, as, and when it can be made available as determined by the
114 Contracting Officer;

115 (c) "Condition of Shortage" shall mean a condition respecting the Project during any
116 Year such that the Contracting Officer is unable to deliver sufficient water to meet the Contract Total;

117 (d) "Contracting Officer" shall mean the Secretary of the Interior's duly authorized
118 representative acting pursuant to this Contract or applicable Reclamation law or regulation;

119 (e) "Contract Total" shall mean the maximum amount of Class 1 Water, plus the
120 maximum amount of Class 2 Water to which the Contractor is entitled under subdivision (a) of Article 3 of
121 this Contract;

122 (f) "Contractor's Service Area" shall mean the area to which the Contractor is

123 permitted to provide Project Water under this Contract as described in Exhibit “A” attached hereto, which
124 may be modified from time to time in accordance with Article 35 of this Contract without amendment of this
125 Contract;

126 (g) “CVPIA” shall mean the Central Valley Project Improvement Act, Title XXXIV of
127 the Act of October 30, 1992 (106 Stat. 4706);

128 (h) “Eligible Lands” shall mean all lands to which Irrigation Water may be delivered in
129 accordance with Section 204 of the Reclamation Reform Act of October 12, 1982 (96 Stat. 1263), as
130 amended, hereinafter referred to as RRA;

131 (i) “Excess Lands” shall mean all lands in excess of the limitations contained in Section
132 204 of the RRA, other than those lands exempt from acreage limitation under Federal Reclamation law;

133 (j) “Full Cost Rate” shall mean that water rate described in Sections 205(a)(3) or
134 202(3) of the RRA, whichever is applicable;

135 (k) “Ineligible Lands” shall mean all lands to which Irrigation Water may not be
136 delivered in accordance with Section 204 of the RRA;

137 (l) “Irrigation Full Cost Water Rate” shall have the same meaning as “full cost” as that
138 term is used in paragraph (3) of Section 202 of the RRA;

139 (m) “Irrigation Water” shall mean water made available from the Project that is used
140 primarily in the production of agricultural crops or livestock, including domestic use incidental thereto, and
141 watering of livestock;

142 (n) “Landholder” shall mean a party that directly or indirectly owns or leases nonexempt

143 land, as provided in 43 CFR 426.2;

144 (n2) “Long Term Historic Average” shall mean the average of the final forecast of Water
145 Made Available to the Contractor pursuant to this Contract and the contracts referenced in the fourth (4th)
146 and fifth (5th) Explanatory Recitals of this Contract;

147 (o) “Municipal and Industrial (M&I) Water” shall mean water made available from the
148 Project other than Irrigation Water made available to the Contractor. M&I Water shall include water used
149 for human use and purposes such as the watering of landscaping or pasture for animals (e.g., horses) which
150 are kept for personal enjoyment or water delivered to land holdings operated in units of less than five (5)
151 acres unless the Contractor establishes to the satisfaction of the Contracting Officer that the use of water
152 delivered to any such landholding is a use described in subdivision (m) of this Article;

153 (p) “M&I Full Cost Water Rate” shall mean the annual rate, which, as determined by
154 the Contracting Officer, shall amortize the expenditures for construction allocable to Project M&I facilities in
155 service, including, O&M deficits funded, less payments, over such periods as may be required under
156 Federal Reclamation law with interest accruing from the dates such costs were first incurred plus the
157 applicable rate for the O&M of such Project facilities. Interest rates used in the calculation of the M&I Full
158 Cost Rate shall comply with the Interest Rate methodology contained in Section 202 (3) (B) and (C) of the
159 RRA;

160 (q) “Operation and Maintenance” or “O&M” shall mean normal and reasonable care,
161 control, operation, repair, replacement (other than Capital replacement), and maintenance of Project
162 facilities;

163 (r) "Operating Non-Federal Entity" shall mean the Friant Water Users Authority, a
164 Non-Federal entity which has the obligation to operate and maintain all or a portion of the Friant Division
165 facilities pursuant to an agreement with the United States, and which may have funding obligations with
166 respect thereto;

167 (s) "Project" shall mean the Central Valley Project owned by the United States and
168 managed by the Department of the Interior, Bureau of Reclamation;

169 (t) "Project Contractors" shall mean all parties who have water service contracts for
170 Project Water from the Project with the United States pursuant to Federal Reclamation law;

171 (u) "Project Water" shall mean all water that is developed, diverted, stored, or
172 delivered by the Secretary in accordance with the statutes authorizing the Project and in accordance with the
173 terms and conditions of water rights acquired pursuant to California law;

174 (v) "Rates" shall mean the payments determined annually by the Contracting Officer in
175 accordance with the then current applicable water ratesetting policies for the Project, as described in
176 subdivision (a) of Article 7 of this Contract;

177 (w) Omitted;

178 (x) "Secretary" shall mean the Secretary of the Interior, a duly appointed successor, or
179 an authorized representative acting pursuant to any authority of the Secretary and through any agency of the
180 Department of the Interior;

181 (y) "Tiered Pricing Component" shall be the incremental amount to be paid for each
182 acre-foot of Water Delivered as described in subdivision (j) of Article 7 of this Contract;

183 (y2) "Uncontrolled Season" is any time during the Year the Contracting Officer
184 determines that a need exists to evacuate water from Millerton Lake in order to prevent or minimize spill or
185 to meet flood control criteria, taking into consideration, among other things, anticipated upstream reservoir
186 operations and the most probable forecast of snowmelt and runoff projections for the upper San Joaquin
187 River;

188 (z) "Water Delivered" or "Delivered Water" shall mean Project Water diverted for use
189 by the Contractor at the point(s) of delivery approved by the Contracting Officer;

190 (aa) "Water Made Available" shall mean the estimated amount of Project Water that can
191 be delivered to the Contractor for the upcoming Year as declared by the Contracting Officer, pursuant to
192 subdivision (a) of Article 4 of this Contract;

193 (bb) "Water Scheduled" shall mean Project Water made available to the Contractor for
194 which times and quantities for delivery have been established by the Contractor and Contracting Officer,
195 pursuant to subdivision (b) of Article 4 of this Contract; and

196 (cc) "Year" shall mean the period from and including March 1 of each Calendar Year
197 through the last day of February of the following Calendar Year.

198 TERM OF CONTRACT

199 2. (a) This Contract shall be effective March 1, 2001, through February 28, 2026. In the
200 event the Contractor wishes to renew the Contract beyond February 28, 2026, the Contractor shall submit
201 a request for renewal in writing to the Contracting Officer no later than two (2) years prior to the date this
202 Contract expires. The renewal of this Contract insofar as it pertains to the furnishing of Irrigation Water to

203 the Contractor shall be governed by subdivision (b) of this Article, and the renewal of this Contract insofar
204 as it pertains to the furnishing of M&I Water to the Contractor shall be governed by subdivision (c) of this
205 Article.

206 (b) (1) Upon terms and conditions of a renewal contract that are mutually agreeable
207 to the parties hereto, and upon a determination by the Contracting Officer that at the time of contract
208 renewal the conditions set forth in subdivision (b)(2) of this Article are met, and subject to Federal and State
209 law, this Contract, insofar as it pertains to the furnishing of Irrigation Water to the Contractor, shall be
210 renewed for a period of twenty-five (25) years.

211 (2) The conditions which must be met for this Contract to be renewed are: (i)
212 the Contractor has prepared a water conservation plan that has been determined by the Contracting Officer
213 in accordance with Article 26 of this Contract to meet the conservation and efficiency criteria for evaluating
214 such plans established under Federal law; (ii) the Contractor is implementing an effective water conservation
215 and efficiency program based on the Contractor's water conservation plan as required by Article 26 of this
216 Contract; (iii) the Contractor is operating and maintaining all water measuring devices and implementing all
217 water measurement methods as approved by the Contracting Officer pursuant to Article 6 of this Contract;
218 (iv) the Contractor has reasonably and beneficially used the Project Water supplies made available to it and,
219 based on projected demands, is reasonably anticipated and expects fully to utilize for reasonable and
220 beneficial use the quantity of Project Water to be made available to it pursuant to such renewal; (v) the
221 Contractor is complying with all terms and conditions of this Contract; and (vi) the Contractor has the
222 physical and legal ability to deliver Project Water.

223 (3) The terms and conditions of the renewal contract described in subdivision
224 (b)(1) of this Article and any subsequent renewal contracts shall be developed consistent with the parties’
225 respective legal rights and obligations, and in consideration of all relevant facts and circumstances, as those
226 circumstances exist at the time of renewal, including, without limitation, the Contractor’s need for continued
227 delivery of Project Water; environmental conditions affected by implementation of the Contract to be
228 renewed, and specifically changes in those conditions that occurred during the life of the Contract to be
229 renewed; the Secretary’s progress toward achieving the purposes of the CVPIA as set out in Section 3402
230 and in implementing the specific provisions of the CVPIA; and current and anticipated economic
231 circumstances of the region served by the Contractor.

232 (c) This Contract, insofar as it pertains to the furnishing of M&I Water to the
233 Contractor, shall be renewed for a period of twenty five (25) years and thereafter shall be renewed for
234 successive periods of up to forty (40) years each, which periods shall be consistent with the then-existing
235 Reclamation-wide policy, under terms and conditions mutually agreeable to the parties and consistent with
236 Federal and State law. The present Reclamation-wide policy, dated March 20, 2000, provides that the
237 term of such contracts shall be no more than twenty five (25) years each, subject to a variance to allow a
238 longer term in appropriate circumstances. The Contractor shall be afforded the opportunity to comment to
239 the Contracting Officer on the proposed adoption and application of any revised Reclamation-wide policy
240 applicable to the delivery of Project M&I Water that would limit the term of any subsequent renewal
241 contract with the Contractor for the furnishing of M&I Water to less than twenty five (25) years.

242 (d) The Contracting Officer anticipates that by December 31, 2024, all authorized

243 project construction expected to occur will have occurred, and on that basis the Contracting Officer agrees
244 by that date to allocate all costs that are properly assignable to the Contractor, and agrees further that, at
245 any time after such allocation is made, and subject to satisfaction of the condition set out in this subdivision,
246 this Contract shall, at the request of the Contractor, be converted to a contract under subsection (d) ,
247 Section 9 of the Reclamation Project Act of 1939, subject to applicable Federal law and under stated terms
248 and conditions mutually agreeable to the Contractor and the Contracting Officer. A condition for such
249 conversion to occur shall be a determination by the Contracting Officer that, account being taken of the
250 amount credited to return by the Contractor as provided for under Reclamation law, the remaining amount
251 of construction costs assignable for ultimate return by the Contractor can probably be repaid to the United
252 States within the term of a contract under said subsection (d). If the remaining amount of costs that are
253 properly assignable to the Contractor cannot be determined by December 31, 2024, the Contracting Officer
254 shall notify the Contractor, and provide the reason(s) why such a determination could not be made. Further,
255 the Contracting Officer shall make such a determination as soon thereafter as possible so as to permit, upon
256 request of the Contractor and satisfaction of the condition set out above, conversion to a contract under said
257 subsection (d). In the event such determination of costs has not been made at a time which allows
258 conversion of this Contract during the term of this Contract or the Contractor has not requested conversion
259 of this Contract within such term, the parties shall incorporate in any subsequent renewal contract as
260 described in subdivision (b) of this Article a provision that carries forth in substantially identical terms the
261 provisions of this subdivision. In the event the Contracting Officer is able to make a determination of the
262 remaining amount of costs that are properly assignable to the Contractor before December 31, 2024, the

263 Contracting Officer shall do so at the earliest time the Contracting Officer has such ability.

264 WATER TO BE MADE AVAILABLE AND DELIVERED TO THE CONTRACTOR

265 3. (a) During each Year, consistent with all applicable State water rights, permits, and
266 licenses; Federal law; and subject to the provisions set forth in Articles 11 and 12 of this Contract, the
267 Contracting Officer shall make available for delivery to the Contractor 11,500 acre-feet of Class 1 Water
268 and 19,000 acre-feet of Class 2 Water, both for irrigation and M&I purposes. The quantity of Water
269 Delivered to the Contractor in accordance with this subdivision shall be scheduled and paid for pursuant to
270 the provisions of Articles 4 and 7 of this Contract.

271 (b) Omitted.

272 (c) The Contractor shall utilize the Project Water in accordance with all applicable legal
273 requirements.

274 (d) The Contractor shall make reasonable and beneficial use of all Project Water or
275 other water furnished pursuant to this Contract. Groundwater recharge programs, groundwater banking
276 programs, surface water storage programs, and other similar programs utilizing Project Water or other water
277 furnished pursuant to this Contract conducted within the Contractor's Service Area which are consistent
278 with applicable State law and result in use consistent with Reclamation law will be allowed; Provided, That
279 any direct recharge program(s) is (are) described in the Contractor's Water Conservation Plan submitted
280 pursuant to Article 26 of this Contract; Provided, further, That such Water Conservation Plan demonstrates
281 sufficient lawful uses exist in the Contractor's Service Area so that using a long-term average, the quantity of
282 Delivered Water is demonstrated to be reasonable for such uses and in compliance with Reclamation law.

283 Groundwater recharge programs, groundwater banking programs, surface water storage programs, and
284 other similar programs utilizing Project Water or other water furnished pursuant to this Contract conducted
285 outside the Contractor's Service Area may be permitted upon written approval of the Contracting Officer,
286 which approval will be based upon environmental documentation, Project Water rights, and Project
287 operational concerns. The Contracting Officer will address such concerns in regulations, policies, or
288 guidelines.

289 (e) The Contractor shall comply with requirements applicable to the Contractor in
290 biological opinion(s) prepared as a result of a consultation regarding the execution of this Contract
291 undertaken pursuant to Section 7 of the Endangered Species Act of 1973, as amended, that are within the
292 Contractor's legal authority to implement. The Contractor shall comply with the limitations or requirements
293 imposed by environmental documentation applicable to the Contractor and within its legal authority to
294 implement regarding specific activities, including conversion of Irrigation Water to M&I Water. Nothing
295 herein shall be construed to prevent the Contractor from challenging or seeking judicial relief in a court of
296 competent jurisdiction with respect to any biological opinion or other environmental documentation referred
297 to in this Article.

298 (f) Subject to subdivisions (l) and (n) of Article 3 of this Contract, following the
299 declaration of Water Made Available under Article 4 of this Contract, the Contracting Officer will make a
300 determination whether Project Water, or other water available to the Project, can be made available to the
301 Contractor in addition to the Contract Total under Article 3 of this Contract during the Year without
302 adversely impacting other Project Contractors. At the request of the Contractor, the Contracting Officer

303 will consult with the Contractor prior to making such a determination. Subject to subdivisions (l) and (n) of
304 Article 3 of this Contract, if the Contracting Officer determines that Project Water, or other water available
305 to the Project, can be made available to the Contractor, the Contracting Officer will announce the availability
306 of such water and shall so notify the Contractor as soon as practical. The Contracting Officer will thereafter
307 meet with the Contractor and other Project Contractors capable of taking such water to determine the most
308 equitable and efficient allocation of such water. If the Contractor requests the delivery of any quantity of
309 such water, the Contracting Officer shall make such water available to the Contractor in accordance with
310 applicable statutes, regulations, guidelines, and policies.

311 (g) The Contractor may request permission to reschedule for use during the subsequent
312 Year some or all of the Water Made Available to the Contractor during the current Year referred to as
313 “carryover.” The Contractor may request permission to use during the current Year a quantity of Project
314 Water which may be made available by the United States to the Contractor during the subsequent Year
315 referred to as “preuse.” The Contracting Officer’s written approval may permit such uses in accordance
316 with applicable statutes, regulations, guidelines, and policies.

317 (h) The Contractor’s right pursuant to Federal Reclamation law and applicable State
318 law to the reasonable and beneficial use of Water Delivered pursuant to this Contract during the term thereof
319 and any subsequent renewal contracts, as described in Article 2 of this Contract, during the terms thereof
320 shall not be disturbed so long as the Contractor shall fulfill all of its obligations under this Contract and any
321 renewals thereof. Nothing in the preceding sentence shall affect the Contracting Officer’s ability to impose
322 shortages under Article 11 or subdivision (b) of Article 12 of this Contract or applicable provisions of any

323 subsequent renewal contracts.

324 (i) Project Water furnished to the Contractor pursuant to this Contract may be
325 delivered for purposes other than those described in subdivisions (m) and (o) of Article 1 of this Contract
326 upon written approval by the Contracting Officer in accordance with the terms and conditions of such
327 approval.

328 (j) The Contracting Officer shall make reasonable efforts to protect the water rights and
329 other rights described in the third (3rd) Explanatory Recital of this Contract and to provide the water
330 available under this Contract. The Contracting Officer shall not object to participation by the Contractor, in
331 the capacity and to the extent permitted by law, in administrative proceedings related to the water rights and
332 other rights described in the third (3rd) Explanatory Recital of this Contract; Provided, however, That the
333 Contracting Officer retains the right to object to the substance of the Contractor's position in such a
334 proceeding.

335 (k) Project Water furnished to the Contractor during any month designated in a
336 schedule or revised schedule submitted by the Contractor and approved by the Contracting Officer shall be
337 deemed to have been accepted by the Contractor as Class 1 Water to the extent that Class 1 Water is
338 called for in such schedule for such month and shall be deemed to have been accepted as Class 2 Water to
339 the extent Class 2 Water is called for in such schedule for such month. If in any month the Contractor
340 diverts a quantity of water in addition to the total amount of Class 1 Water and Class 2 Water set forth in
341 the Contractor's approved schedule or revised schedule for such month, such additional diversions shall be
342 charged first against the Contractor's remaining Class 2 Water supply available in the current Year. To the

343 extent the Contractor's remaining Class 2 Water supply available in the current Year is not sufficient to
344 account for such additional diversions, such additional diversions shall be charged against the Contractor's
345 remaining Class 1 Water supply available in the current Year. To the extent the Contractor's remaining
346 Class 1 Water and Class 2 Water supplies available in the current Year are not sufficient to account for such
347 additional diversions, such additional diversions shall be charged first against the Contractor's available
348 Class 2 Water supply and then against the Contractor's available Class 1 Water supply, both for the
349 following Year. Payment for all additional diversions of water shall be made in accordance with Article 7 of
350 this Contract.

351 (l) If the Contracting Officer determines there is a Project Water supply available at
352 Friant Dam as the result of an unusually large water supply not otherwise storable for Project purposes or
353 infrequent and otherwise unmanaged flood flows of short duration, such water will be made available to the
354 Contractor and others under Section 215 of the RRA pursuant to the priorities specified below if the
355 Contractor enters into a temporary contract with the United States not to exceed one (1) year for the
356 delivery of such water or, as otherwise provided for in Federal Reclamation law and associated regulations.
357 Such water may be identified by the Contractor either (i) as additional water to supplement the supply of
358 Class 1 Water and/or Class 2 Water made available to it pursuant to this Contract or, (ii) upon written
359 notification to the Contracting Officer, as water to be credited against the Contractor's Class 2 Water supply
360 available pursuant to this Contract. The Contractor shall deliver such water to Eligible Lands, or to Excess
361 Lands in accordance with this Article. The Contracting Officer shall make water determined to be available
362 pursuant to this subsection according to the following priorities: first, to long-term contractors for Class 1

363 Water and/or Class 2 Water within the Friant Division; second, to long-term contractors in the Cross Valley
364 Division of the Project. The Contracting Officer will consider and seek to accommodate requests from
365 other parties for Section 215 Water for use within the area identified as the Friant Division service area in
366 the environmental assessment developed in connection with the execution of this Contract.

367 (m) Nothing in this Contract, nor any action or inaction of the Contractor or Contracting
368 Officer in connection with the implementation of this Contract, is intended to override, modify, supersede or
369 otherwise interfere with any term or condition of the water rights and other rights referred in the third (3rd)
370 Explanatory Recital of this Contract.

371 (n) The rights of the Contractor under this Contract are subject to the terms of the
372 contract for exchange waters, dated July 27, 1939, between the United States and the San Joaquin and
373 Kings River Canal and Irrigation Company, Incorporated, et al., (hereinafter referred to as the Exchange
374 Contractors), Contract No. I1r-1144, as amended. The United States agrees that it will not deliver to the
375 Exchange Contractors thereunder waters of the San Joaquin River unless and until required by the terms of
376 said contract, and the United States further agrees that it will not voluntarily and knowingly determine itself
377 unable to deliver to the Exchange Contractors entitled thereto from water that is available or that may
378 become available to it from the Sacramento River and its tributaries or the Sacramento-San Joaquin Delta
379 those quantities required to satisfy the obligations of the United States under said Exchange Contract and
380 under Schedule 2 of the Contract for Purchase of Miller and Lux Water Rights (Contract I1r-1145, dated
381 July 27, 1939).

382 TIME FOR DELIVERY OF WATER

383 (4) (a) On or about February 20 of each Calendar Year, the Contracting Officer shall
384 announce the Contracting Officer's expected declaration of the Water Made Available. The declaration will
385 be updated monthly, and more frequently if necessary, based on then-current operational and hydrologic
386 conditions and a new declaration with changes, if any, to the Water Made Available will be made. The
387 Contracting Officer shall provide forecasts of Project operations and the basis of the estimate, with relevant
388 supporting information, upon the written request of the Contractor. Concurrently with the declaration of the
389 Water Made Available, the Contracting Officer shall provide the Contractor with the updated Long Term
390 Historic Average. The declaration of Project operations will be expressed in terms of both Water Made
391 Available and the Long Term Historic Average.

392 (b) On or before each March 1 and at such other times as necessary, the Contractor
393 shall submit to the Contracting Officer a written schedule, satisfactory to the Contracting Officer, showing
394 the monthly quantities of Project Water to be delivered by the United States to the Contractor pursuant to
395 this Contract for the Year commencing on such March 1. The Contracting Officer shall use all reasonable
396 means to deliver Project Water according to the approved schedule for the Year commencing on such
397 March 1.

398 (c) The Contractor shall not schedule Project Water in excess of the quantity of Project
399 Water the Contractor intends to put to reasonable and beneficial use within the Contractor's Service Area or
400 to sell, transfer or exchange pursuant to Article 9 of this Contract during any Year.

401 (d) Subject to the conditions set forth in subdivision (a) of Article 3 of this Contract, the
402 United States shall deliver Project Water to the Contractor in accordance with the initial schedule submitted

403 by the Contractor pursuant to subdivision (b) of this Article, or any written revision(s), satisfactory to the
404 Contracting Officer, thereto submitted within a reasonable time prior to the date(s) on which the requested
405 change(s) is/are to be implemented; Provided, That the total amount of water requested in that schedule or
406 revision does not exceed the quantities announced by the Contracting Officer pursuant to the provisions of
407 subdivision (a) of Article 3, and the Contracting Officer determines that there will be sufficient capacity
408 available in the appropriate Friant Division facilities to deliver the water in accordance with that schedule:
409 Provided, further, That the Contractor shall not schedule the delivery of any water during any period as to
410 which the Contractor is notified by the Contracting Officer or Operating Non-Federal Entity that Project
411 facilities required to make deliveries to the Contractor will not be in operation because of scheduled O&M.

412 (e) The Contractor may, during the period from and including November 1 of each
413 Year through and including the last day of February of that Year, request delivery of any amount of the
414 Class 1 Water estimated by the Contracting Officer to be made available to it during the following Year.
415 The Contractor may, during the period from and including January 1 of each Year (or such earlier date as
416 may be determined by the Contracting Officer) through and including the last day of February of that Year,
417 request delivery of any amount of Class 2 Water estimated by the Contracting Officer to be made available
418 to it during the following Year. Such water shall hereinafter be referred to as preuse water. Such request
419 must be submitted in writing by the Contractor for a specified quantity of preuse and shall be subject to the
420 approval of the Contracting Officer. Payment for preuse water so requested shall be at the appropriate
421 rate(s) for the following Year in accordance with Article 7 of this Contract and shall be made in advance of
422 delivery of any preuse water. The Contracting Officer shall deliver such preuse water in accordance with a

423 schedule or any revision thereof submitted by the Contractor and approved by the Contracting Officer, to
424 the extent such water is available and to the extent such deliveries will not interfere with the delivery of
425 Project Water entitlements to other Friant Division contractors or the physical maintenance of the Project
426 facilities. The quantities of preuse water delivered pursuant to this subdivision shall be deducted from the
427 quantities of water that the Contracting Officer would otherwise be obligated to make available to the
428 Contractor during the following Year; Provided, That the quantity of preuse water to be deducted from the
429 quantities of either Class 1 Water or Class 2 Water to be made available to the Contractor in the following
430 Year shall be specified by the Contractor at the time the preuse water is requested or as revised in its first
431 schedule for the following Year submitted in accordance with subdivision (b) of this Article, based on the
432 availability of the following Year water supplies as determined by the Contracting Officer.

433 POINT OF DIVERSION AND RESPONSIBILITY FOR DISTRIBUTION OF WATER

434 5. (a) Project Water scheduled pursuant to subdivision (b) of Article 4 of this Contract
435 shall be delivered to the Contractor at a point or points of delivery either on Project facilities or another
436 location or locations mutually agreed to in writing by the Contracting Officer and the Contractor.

437 (b) The Contracting Officer, the Operating Non-Federal Entity, or other appropriate
438 entity shall make all reasonable efforts to maintain sufficient flows and levels of water in the Friant-Kern
439 Canal to deliver Project Water to the Contractor at specific turnouts established pursuant to subdivision (a)
440 of this Article.

441 (c) The Contractor shall deliver Irrigation Water in accordance with any applicable land
442 classification provisions of Federal Reclamation law and the associated regulations. The Contractor shall not

443 deliver Project Water to land outside the Contractor's Service Area unless approved in advance by the
444 Contracting Officer.

445 (d) All Water Delivered to the Contractor pursuant to this Contract shall be measured
446 and recorded with equipment furnished, installed, operated, and maintained by the United States, the
447 Operating Non-Federal Entity or other appropriate entity as designated by the Contracting Officer
448 (hereafter "other appropriate entity") at the point or points of delivery established pursuant to subdivision (a)
449 of this Article. Upon the request of either party to this Contract, the Contracting Officer shall investigate, or
450 cause to be investigated by the responsible Operating Non-Federal Entity, the accuracy of such
451 measurements and shall take any necessary steps to adjust any errors appearing therein. For any period of
452 time when accurate measurements have not been made, the Contracting Officer shall consult with the
453 Contractor and the responsible Operating Non-Federal Entity prior to making a final determination of the
454 quantity delivered for that period of time.

455 (e) Neither the Contracting Officer nor any Operating Non-Federal Entity shall be
456 responsible for the control, carriage, handling, use, disposal, or distribution of Project Water Delivered to
457 the Contractor pursuant to this Contract beyond the delivery points specified in subdivision (a) of this
458 Article. The Contractor shall indemnify the United States, its officers, employees, agents, and assigns on
459 account of damage or claim of damage of any nature whatsoever for which there is legal responsibility,
460 including property damage, personal injury, or death arising out of or connected with the control, carriage,
461 handling, use, disposal, or distribution of such Project Water beyond such delivery points, except for any
462 damage or claim arising out of: (i) acts or omissions of the Contracting Officer or any of its officers,

463 employees, agents, or assigns, including any responsible Operating Non-Federal Entity, with the intent of
464 creating the situation resulting in any damage or claim; (ii) willful misconduct of the Contracting Officer or
465 any of its officers, employees, agents, or assigns, including any responsible Operating Non-Federal Entity;
466 (iii) negligence of the Contracting Officer or any of its officers, employees, agents, or assigns including any
467 responsible Operating Non-Federal Entity; or (iv) damage or claims resulting from a malfunction of facilities
468 owned and/or operated by the United States or responsible Operating Non-Federal Entity; Provided, That
469 the Contractor is not the Operating Non-Federal Entity that owned or operated the malfunctioning
470 facility(ies) from which the damage claim arose.

471 MEASUREMENT OF WATER WITHIN THE SERVICE AREA

472 6. (a) The Contractor established a measurement program satisfactory to the Contracting
473 Officer, all surface water delivered for irrigation purposes within the Contractor's Service Area is measured
474 at each agricultural turnout and such water delivered for municipal and industrial purposes is measured at
475 each municipal and industrial service connection. The water measuring devices or water measuring methods
476 of comparable effectiveness must be acceptable to the Contracting Officer. The Contractor shall be
477 responsible for installing, operating, and maintaining and repairing all such measuring devices and
478 implementing all such water measuring methods at no cost to the United States. The Contractor shall use the
479 information obtained from such water measuring devices or water measuring methods to ensure its proper
480 management of the water, to bill water users for water delivered by the Contractor; and, if applicable, to
481 record water delivered for municipal and industrial purposes by customer class as defined in the
482 Contractor's water conservation plan provided for in Article 26 of this Contract. Nothing herein contained,

483 however, shall preclude the Contractor from establishing and collecting any charges, assessments, or other
484 revenues authorized by California law. The Contractor shall include a summary of all its annual surface
485 water deliveries in the annual report described in subdivision (c) of Article 26.

486 (b) To the extent the information has not otherwise been provided, upon execution of
487 this Contract, the Contractor shall provide to the Contracting Officer a written report describing the
488 measurement devices or water measuring methods being used or to be used to implement subdivision (a) of
489 this Article and identifying the agricultural turnouts and the municipal and industrial service connections or
490 alternative measurement programs approved by the Contracting Officer, at which such measurement devices
491 or water measuring methods are being used, and, if applicable, identifying the locations at which such
492 devices and/or methods are not yet being used including a time schedule for implementation at such
493 locations. The Contracting Officer shall advise the Contractor in writing within sixty (60) days as to the
494 adequacy of, and necessary modifications, if any, of the measuring devices or water measuring methods
495 identified in the Contractor's report and if the Contracting Officer does not respond in such time, they shall
496 be deemed adequate. If the Contracting Officer notifies the Contractor that the measuring devices or
497 methods are inadequate, the parties shall within sixty (60) days following the Contracting Officer's response,
498 negotiate in good faith the earliest practicable date by which the Contractor shall modify said measuring
499 devices and/or measuring methods as required by the Contracting Officer to ensure compliance with
500 subdivision (a) of this Article.

501 (c) All new surface water delivery systems installed within the Contractor's Service
502 Area after the effective date of this Contract shall also comply with the measurement provisions described in

503 subdivision (a) of this Article.

504 (d) The Contractor shall inform the Contracting Officer and the State of California in
505 writing by April 30 of each Year of the monthly volume of surface water delivered within the Contractor's
506 Service Area during the previous Year.

507 (e) The Contractor shall inform the Contracting Officer and the Operating Non-Federal
508 Entity on or before the twentieth (20th) calendar day of each month of the quantity of Irrigation and M&I
509 Water taken during the preceding month.

510 RATES AND METHOD OF PAYMENT FOR WATER

511 7. (a) The Contractor shall pay the United States as provided in this Article for all
512 Delivered Water at Rates, Charges, and the Tiered Pricing Component established in accordance with: (i)
513 the Secretary's ratesetting policy for Irrigation Water adopted in 1988 and the Secretary's then-existing
514 ratesetting policy for M&I Water. Such ratesetting policies shall be amended, modified, or superseded only
515 through a public notice and comment procedure; (ii) applicable Reclamation law and associated rules and
516 regulations, or policies; and (iii) other applicable provisions of this Contract. Payments shall be made by
517 cash transaction, wire, or any other mechanism as may be agreed to in writing by the Contractor and the
518 Contracting Officer. The Rates, Charges, and Tiered Pricing Components applicable to the Contractor
519 upon execution of this Contract are set forth in Exhibit "B", as may be revised annually.

520 (b) The Contracting Officer shall notify the Contractor of the Rates, Charges, and
521 Tiered Pricing Components as follows:

522 (1) Prior to July 1 of each Calendar Year, the Contracting Officer shall provide

523 the Contractor an estimate of the Charges for Project Water that will be applied to the period October 1, of
524 the current Calendar Year, through September 30, of the following Calendar Year, and the basis for such
525 estimate. The Contractor shall be allowed not less than two (2) months to review and comment on such
526 estimates. On or before September 15 of each Calendar Year, the Contracting Officer shall notify the
527 Contractor in writing of the Charges to be in effect during the period October 1 of the current Calendar
528 Year, through September 30, of the following Calendar Year, and such notification shall revise Exhibit "B."

529 (2) Prior to October 1 of each Calendar Year, the Contracting Officer shall
530 make available to the Contractor an estimate of the Rates and Tiered Pricing Components for Project Water
531 for the following Year and the computations and cost allocations upon which those Rates are based. The
532 Contractor shall be allowed not less than two (2) months to review and comment on such computations and
533 cost allocations. By December 31 of each Calendar Year, the Contracting Officer shall provide the
534 Contractor with the final Rates and Tiered Pricing Components to be in effect for the upcoming Year, and
535 such notification shall revise Exhibit "B".

536 (c) At the time the Contractor submits the initial schedule for the delivery of Project
537 Water for each Year pursuant to subdivision (b) of Article 4 of this Contract, the Contractor shall make an
538 advance payment to the United States equal to the total amount payable pursuant to the applicable Rate(s)
539 set under subdivision (a) of this Article, for the Project Water scheduled to be delivered pursuant to this
540 Contract during the first two (2) calendar months of the Year. Before the end of the first month and before
541 the end of each calendar month thereafter, the Contractor shall make an advance payment to the United
542 States, at the Rate(s) set under subdivision (a) of this Article, for the Water Scheduled to be delivered

543 pursuant to this Contract during the second month immediately following. Adjustments between advance
544 payments for Water Scheduled and payments at Rates due for Water Delivered shall be made before the
545 end of the following month; Provided, That any revised schedule submitted by the Contractor pursuant to
546 Article 4 of this Contract which increases the amount of Water Delivered pursuant to this Contract during
547 any month shall be accompanied with appropriate advance payment, at the Rates then in effect, to assure
548 that Project Water is not delivered to the Contractor in advance of such payment. In any month in which the
549 quantity of Water Delivered to the Contractor pursuant to this Contract equals the quantity of Water
550 Scheduled and paid for by the Contractor, no additional Project Water shall be delivered to the Contractor
551 unless and until an advance payment at the Rates then in effect for such additional Project Water is made.
552 Final adjustment between the advance payments for the Water Scheduled and payments for the quantities of
553 Water Delivered during each Year pursuant to this Contract shall be made as soon as practicable but no
554 later than April 30th of the following Year, or sixty (60) days after the delivery of Project Water carried
555 over under subdivision (f) of Article 3 of this Contract if such water is not delivered by the last day of
556 February.

557 (d) The Contractor shall also make a payment in addition to the Rate(s) in subdivision
558 (c) of this Article to the United States for Water Delivered, at the Charges and the appropriate Tiered
559 Pricing Component then in effect, before the end of the month following the month of delivery; Provided,
560 That the Contractor may be granted an exception from the Tiered Pricing Component pursuant to
561 subdivision (j)(2) of this Article. The payments shall be consistent with the quantities of Irrigation Water and
562 M&I Water Delivered as shown in the water delivery report for the subject month prepared by the

563 Operating Non-Federal Entity or, if there is no Operating Non-Federal Entity, by the Contracting Officer.
564 Such water delivery report shall be the basis for payment of Charges and Tiered Pricing Components by the
565 Contractor, and shall be provided to the Contractor by the Operating Non-Federal Entity or the Contracting
566 Officer (as applicable) within five (5) days after the end of the month of delivery. The water delivery report
567 shall be deemed a bill for the payment of Charges and the applicable Tiered Pricing Component for Water
568 Delivered. Adjustment for overpayment or underpayment of Charges shall be made through the adjustment
569 of payments due to the United States for Charges for the next month. Any amount to be paid for past due
570 payment of Charges and the Tiered Pricing Component shall be computed pursuant to Article 20 of this
571 Contract.

572 (e) The Contractor shall pay for any Water Delivered under subdivision (d), (f), or (g)
573 of Article 3 of this Contract as determined by the Contracting Officer pursuant to applicable statutes,
574 associated regulations, any applicable provisions of guidelines or ratesetting policies; Provided, That the
575 Rate for Water Delivered under subdivision (d) of Article 3 of this Contract shall be no more than the
576 otherwise applicable Rate for Irrigation Water or M&I Water under subdivision (a) of this Article.

577 (f) Payments to be made by the Contractor to the United States under this Contract
578 may be paid from any revenues available to the Contractor.

579 (g) All revenues received by the United States from the Contractor relating to the
580 delivery of Project Water or the delivery of non-project water through Project facilities shall be allocated
581 and applied in accordance with Federal Reclamation law and the associated rules or regulations, and the
582 then current Project ratesetting policies for M&I Water or Irrigation Water.

583 (h) The Contracting Officer shall keep its accounts pertaining to the administration of the
584 financial terms and conditions of its long-term contracts, in accordance with applicable Federal standards, so
585 as to reflect the application of Project costs and revenues. The Contracting Officer shall, each Year upon
586 request of the Contractor, provide to the Contractor a detailed accounting of all Project and Contractor
587 expense allocations, the disposition of all Project and Contractor revenues, and a summary of all water
588 delivery information. The Contracting Officer and the Contractor shall enter into good faith negotiations to
589 resolve any discrepancies or disputes relating to accountings, reports, or information.

590 (i) The parties acknowledge and agree that the efficient administration of this Contract
591 is their mutual goal. Recognizing that experience has demonstrated that mechanisms, policies, and
592 procedures used for establishing Rates, Charges, and Tiered Pricing Components, and/or for making and
593 allocating payments, other than those set forth in this Article may be in the mutual best interest of the parties,
594 it is expressly agreed that the parties may enter into agreements to modify the mechanisms, policies, and
595 procedures for any of those purposes while this Contract is in effect without amending this Contract.

596 (j) (1) Beginning at such time as the total of the deliveries of Class 1 Water and
597 Class 2 Water in a Year exceed eighty (80%) percent of the Contract Total, then before the end of the
598 month following the month of delivery the Contractor shall make an additional payment to the United States
599 equal to the applicable Tiered Pricing Component. The Tiered Pricing Component for the total of the
600 deliveries of Class 1 Water and Class 2 Water in excess of eighty (80) percent of the Contract Total, but
601 less than or equal to ninety (90) percent of the Contract Total, shall equal the one-half of the difference
602 between the Rate established under subdivision (a) of Article 7 of this Contract and the Irrigation Full Cost

603 Water Rate or M&I Full Cost Water Rate, whichever is applicable. The Tiered Pricing Component for the
604 total of the deliveries of Class 1 Water and Class 2 Water which exceeds ninety (90) percent of the Contract
605 Total shall equal the difference between (i) the Rate established under subdivision (a) of Article 7 of this
606 Contract and (ii) the Irrigation Full Cost Water Rate or M&I Full Cost Water Rate, whichever is applicable.
607 For purposes of this subdivision, Class 2 Water taken by the Contractor during an Uncontrolled Season
608 shall not be included in the total of the deliveries of Class 1 Water and Class 2 Water.

609 (2) Subject to the Contracting Officer's written approval, the Contractor may
610 request and receive an exemption from such Tiered Pricing Components for Project Water delivered to
611 produce a crop which the Contracting Officer determines will provide significant and quantifiable habitat
612 values for waterfowl in fields where the water is used and the crops are produced; Provided, That the
613 exemption from the Tiered Pricing Components for Irrigation Water shall apply only if such habitat values
614 can be assured consistent with the purposes of CVPIA through binding agreements executed with or
615 approved by the Contracting Officer prior to use of such water.

616 (3) For purposes of determining the applicability of the Tiered Pricing
617 Components pursuant to this Article, Water Delivered shall include Project Water that the Contractor
618 transfers to others but shall not include Project Water transferred and delivered to the Contractor.

619 (k) For the term of this Contract, Rates under the respective ratesetting policies will be
620 established to recover only reimbursable Operation and Maintenance (including any deficits) and capital
621 costs of the Project, as those terms are used in the then-current Project ratesetting policies, and interest,
622 where appropriate, except in instances where a minimum Rate is applicable in accordance with the relevant

623 Project ratesetting policy. Changes of significance in practices which implement the Contracting Officer's
624 ratesetting policies will not be implemented until the Contracting Officer has provided the Contractor an
625 opportunity to discuss the nature, need, and impact of the proposed change.

626 (l) Except as provided in subsections 3405(a)(1)(B) and 3405(f) of the CVPIA, the
627 Rates for Project Water transferred by the Contractor shall be the Contractor's Rates adjusted upward or
628 downward to reflect the changed costs of delivery (if any) of the transferred Project Water to the
629 transferee's point of delivery in accordance with the then applicable CVP Ratesetting Policy. If the
630 Contractor is receiving lower Rates and Charges because of inability to pay and is transferring Project
631 Water to another entity whose Rates and Charges are not adjusted due to inability to pay, the Rates and
632 Charges for transferred Project Water shall be the Contractor's Rates and Charges unadjusted for ability to
633 pay.

634 (m) Pursuant to the Act of October 27, 1986 (100 Stat. 3050), the Contracting Officer
635 is authorized to adjust determinations of ability to pay every five (5) years.

636 NON-INTEREST BEARING OPERATION AND MAINTENANCE DEFICITS

637 8. The Contractor and the Contracting Officer concur that, as of the effective date of this
638 Contract, the Contractor has no non-interest bearing operation and maintenance deficits and shall have no
639 further liability therefor.

640 SALES, TRANSFERS, OR EXCHANGES OF WATER

641 9. (a) The right to receive Project Water provided for in this Contract may be sold,
642 transferred, or exchanged to others for reasonable and beneficial uses within the State of California if such

643 sale, transfer, or exchange is authorized by applicable Federal and State laws, and applicable guidelines or
644 regulations then in effect. No sale, transfer, or exchange of Project Water under this Contract may take
645 place without the prior written approval of the Contracting Officer, except as provided for in subdivision (b)
646 of this Article, and no such sales, transfers, or exchanges shall be approved absent compliance with
647 appropriate environmental documentation including but not limited to the National Environmental Policy Act
648 and the Endangered Species Act. Such environmental documentation should include, as appropriate, an
649 analysis of groundwater impacts and economic and social effects, including environmental justice, of the
650 proposed water transfers on both the transferor and transferee.

651 (b) In order to facilitate efficient water management by means of water transfers of the
652 type historically carried out among Project Contractors located within the same geographical area and to
653 allow the Contractor to participate in an accelerated water transfer program during the term of this Contract,
654 the Contracting Officer shall prepare, as appropriate, necessary environmental documentation including, but
655 not limited to, the National Environmental Policy Act and the Endangered Species Act analyzing annual
656 transfers within such geographical areas and the Contracting Officer shall determine whether such transfers
657 comply with applicable law. Following the completion of the environmental documentation, such transfers
658 addressed in such documentation shall be conducted with advance notice to the Contracting Officer, but
659 shall not require prior written approval by the Contracting Officer. Such environmental documentation and
660 the Contracting Officer's compliance determination shall be reviewed every five (5) years and updated, as
661 necessary, prior to the expiration of the then existing five (5) -year period. All subsequent environmental
662 documentation shall include an alternative to evaluate not less than the quantity of Project Water historically

663 transferred within the same geographical area.

664 (c) For a water transfer to qualify under subdivision (b) of this Article, such water
665 transfer must: (i) be for irrigation purposes for lands irrigated within the previous three (3) years, for M&I
666 use, groundwater recharge, groundwater banking, similar groundwater activities, surface water storage, or
667 fish and wildlife resources; not lead to land conversion; and be delivered to established cropland, wildlife
668 refuges, groundwater basins or municipal and industrial use; (ii) occur within a single Year; (iii) occur
669 between a willing seller and a willing buyer; (iv) convey water through existing facilities with no new
670 construction or modifications to facilities and be between existing Project Contractors and/or the Contractor
671 and the United States, Department of the Interior; and (v) comply with all applicable Federal, State, and
672 local or tribal laws and requirements imposed for protection of the environment and Indian Trust Assets, as
673 defined under Federal law.

674 APPLICATION OF PAYMENTS AND ADJUSTMENTS

675 10. (a) The amount of any overpayment by the Contractor of the Contractor's O&M,
676 Capital, and deficit (if any) obligations for the Year shall be applied first to any current liabilities of the
677 Contractor arising out of this Contract then due and payable. Overpayments of more than One Thousand
678 Dollars (\$1,000) shall be refunded at the Contractor's request. In lieu of a refund, any amount of such
679 overpayment at the option of the Contractor, may be credited against amounts to become due to the United
680 States by the Contractor. With respect to overpayment, such refund or adjustment shall constitute the sole
681 remedy of the Contractor or anyone having or claiming to have the right to the use of any of the Project
682 Water supply provided for herein. All credits and refunds of overpayments shall be made within thirty (30)

683 days of the Contracting Officer obtaining direction as to how to credit or refund such overpayment in
684 response to the notice to the Contractor that it has finalized the accounts for the Year in which the
685 overpayment was made.

686 (b) All advances for miscellaneous costs incurred for work requested by the Contractor
687 pursuant to Article 25 of this Contract shall be adjusted to reflect the actual costs when the work has been
688 completed. If the advances exceed the actual costs incurred, the difference will be refunded to the
689 Contractor. If the actual costs exceed the Contractor's advances, the Contractor will be billed for the
690 additional costs pursuant to Article 25 of this Contract.

691 TEMPORARY REDUCTIONS--RETURN FLOWS

692 11. (a) Subject to: (i) the authorized purposes and priorities of the Project and the
693 requirements of Federal law and (ii) the obligations of the United States under existing contracts, or renewals
694 thereof, providing for water deliveries from the Project, the Contracting Officer shall make all reasonable
695 efforts to optimize Project Water deliveries to the Contractor as provided in this Contract.

696 (b) The Contracting Officer or Operating Non-Federal Entity may temporarily
697 discontinue or reduce the quantity of Water Delivered to the Contractor as herein provided for the purposes
698 of investigation, inspection, maintenance, repair, or replacement of any of the Project facilities or any part
699 thereof necessary for the delivery of Project Water to the Contractor, but so far as feasible the Contracting
700 Officer or Operating Non-Federal Entity will give the Contractor due notice in advance of such temporary
701 discontinuance or reduction, except in case of emergency, in which case no notice need be given; Provided,
702 That the United States shall use its best efforts to avoid any discontinuance or reduction in such service.

703 Upon resumption of service after such reduction or discontinuance, and if requested by the Contractor, the
704 United States will, if possible, deliver the quantity of Project Water which would have been delivered
705 hereunder in the absence of such discontinuance or reduction.

706 (c) The United States reserves the right to all seepage and return flow water derived
707 from Water Delivered to the Contractor hereunder which escapes or is discharged beyond the Contractor's
708 Service Area; Provided, That this shall not be construed as claiming for the United States any right as
709 seepage or return flow to water being used pursuant to this Contract for surface irrigation or underground
710 storage either being put to reasonable and beneficial use pursuant to this Contract within the Contractor's
711 Service Area by the Contractor or those claiming by, through, or under the Contractor. For purposes of this
712 subdivision, groundwater recharge, groundwater banking and all similar groundwater activities will be
713 deemed to be underground storage.

714 CONSTRAINTS ON THE AVAILABILITY OF WATER

715 12. (a) In its operation of the Project, the Contracting Officer will use all reasonable means
716 to guard against a Condition of Shortage in the quantity of water to be made available to the Contractor
717 pursuant to this Contract. In the event the Contracting Officer determines that a Condition of Shortage
718 appears probable, the Contracting Officer will notify the Contractor of said determination as soon as
719 practicable.

720 (b) If there is a Condition of Shortage because of errors in physical operations of the
721 Project, drought, other physical causes beyond the control of the Contracting Officer or actions taken by the
722 Contracting Officer to meet legal obligations then, except as provided in subdivision (a) of Article 18 of this

723 Contract, no liability shall accrue against the United States or any of its officers, agents, or employees for
724 any damage, direct or indirect, arising therefrom.

725 (c) The United States shall not execute contracts which together with this Contract, shall
726 in the aggregate provide for furnishing during the life of this Contract or any renewals hereof Class 1 Water
727 in excess of 800,000 acre-feet per Year or Class 2 Water in excess of 1,401,475 acre-feet per Year;
728 Provided, That, subject to subdivision (l) of Article 3 of this Contract, the limitation placed on Class 2 Water
729 contracts shall not prohibit the United States from entering into temporary contracts of one year or less in
730 duration for delivery of Project Water to other entities if such water is not necessary to meet the schedules
731 as may be submitted by all Friant Division long-term water service contractors entitled to receive Class 1
732 Water and/or Class 2 Water under their water service contracts. Nothing in this subdivision shall limit the
733 Contracting Officer's ability to take actions that result in the availability of new water supplies to be used for
734 Project purposes and allocating such new supplies; Provided, That the Contracting Officer shall not take
735 such actions until after consultation with the Friant Division Project Contractors.

736 (d) The Contracting Officer shall not deliver any Class 2 Water pursuant to this or any
737 other contract for water service heretofore or hereafter entered into any Year unless and until the
738 Contracting Officer determines that the cumulative total quantity of Class 1 Water specified in subdivision (c)
739 of this Article will be available for delivery in said Year. If the Contracting Officer determines there is or will
740 be a shortage in any Year in the quantity of Class 1 Water available for delivery, the Contracting Officer
741 shall apportion the available Class 1 Water among all contractors entitled to receive such water that will be
742 made available at Friant Dam in accordance with the following:

743 (1) A determination shall be made of the total quantity of Class 1 Water at
744 Friant Dam which is available for meeting Class 1 Water contractual commitments, the amount so
745 determined being herein referred to as the available supply.

746 (2) The total available Class 1 supply shall be divided by the Class 1 Water
747 contractual commitments, the quotient thus obtained being herein referred to as the Class 1 apportionment
748 coefficient.

749 (3) The total quantity of Class 1 Water under Article 3 of this Contract shall be
750 multiplied by the Class 1 apportionment coefficient and the result shall be the quantity of Class 1 Water
751 required to be delivered by the Contracting Officer to the Contractor for the respective Year, but in no
752 event shall such amount exceed the total quantity of Class 1 Water specified in subdivision (a) of Article 3 of
753 this Contract.

754 (e) If the Contracting Officer determines there is less than the quantity of Class 2 Water
755 which the Contractor otherwise would be entitled to receive pursuant to Article 3 of this Contract, the
756 quantity of Class 2 Water which shall be furnished to the Contractor by the Contracting Officer will be
757 determined in the manner set forth in paragraphs (1), (2), and (3), of subdivision (d) of this Article
758 substituting the term "Class 2" for the term "Class 1."

759 (f) In the event that in any Year there is made available to the Contractor, by reason of
760 any shortage or apportionment as provided in subdivisions (a), (d) or (e) of this Article, or any
761 discontinuance or reduction of service as set forth in subdivision (a) of Article 11 of this Contract, less than
762 the quantity of water which the Contractor otherwise would be entitled to receive hereunder, there shall be

763 made an adjustment on account of the amounts already paid to the Contracting Officer by the Contractor for
764 Class 1 Water and Class 2 Water for said Year in accordance with Article 10 of this Contract.

765 UNAVOIDABLE GROUNDWATER PERCOLATION

766 13. To the extent applicable, the Contractor shall not be deemed to have delivered Irrigation
767 Water to Excess Lands or Ineligible Lands within the meaning of this Contract if such lands are irrigated with
768 groundwater that reaches the underground strata as an unavoidable result of the delivery of Irrigation Water
769 by the Contractor to Eligible Lands.

770 RULES AND REGULATIONS

771 14. (a) The parties agree that the delivery of Irrigation Water or use of Federal facilities
772 pursuant to this Contract is subject to Federal Reclamation law, including but not limited to, the Reclamation
773 Reform Act of 1982 (43 U.S.C.390aa et seq.), as amended and supplemented, and the rules and
774 regulations promulgated by the Secretary of the Interior under Federal Reclamation law.

775 (b) If the April 4, 1989, order denying plaintiffs' motion for preliminary injunction is
776 applicable to this Contract, the terms of this Contract are subject to the final Order in NRDC v. Houston,
777 No. CIVS 88-1658-LKK-EM.

778 WATER AND AIR POLLUTION CONTROL

779 15. The Contractor, in carrying out this Contract, shall comply with all applicable water and air
780 pollution laws and regulations of the United States and the State of California, and shall obtain all required
781 permits or licenses from the appropriate Federal, State, or local authorities.

782 QUALITY OF WATER

783 16. (a) Project facilities used to deliver Project Water to the Contractor pursuant to this
784 Contract shall be operated and maintained to enable the United States to deliver Project Water to the

785 Contractor in accordance with the water quality standards specified in subsection 2(b) of the Act of August
786 26, 1937 (50 Stat. 865), as added by Section 101 of the Act of October 27, 1986 (100 Stat. 3050) or
787 other existing Federal laws. The United States is under no obligation to construct or furnish water treatment
788 facilities to maintain or to improve the quality of Water Delivered to the Contractor pursuant to this
789 Contract. The United States does not warrant the quality of Water Delivered to the Contractor pursuant to
790 this Contract.

791 (b) The Operation and Maintenance of Project facilities shall be performed in such
792 manner as is practicable to maintain the quality of raw water made available through such facilities at the
793 highest level reasonably attainable as determined by the Contracting Officer. The Contractor shall be
794 responsible for compliance with all State and Federal water quality standards applicable to surface and
795 subsurface agricultural drainage discharges generated through the use of Federal or Contractor facilities or
796 Project Water provided by the Contractor within the Contractor's Service Area.

797 WATER ACQUIRED BY THE CONTRACTOR
798 OTHER THAN FROM THE UNITED STATES

799 17. (a) Water or water rights now owned or hereafter acquired by the Contractor other
800 than from the United States and Irrigation Water furnished pursuant to the terms of this Contract may be
801 simultaneously transported through the same distribution facilities of the Contractor subject to the following:
802 (i) if the facilities utilized for commingling Irrigation Water and non-project water were constructed without
803 funds made available pursuant to Federal Reclamation law, the provisions of Federal Reclamation law will
804 be applicable only to the Landholders of lands which receive Irrigation Water; (ii) the eligibility of land to

805 receive Irrigation Water must be established through the certification requirements as specified in the
806 Acreage Limitation Rules and Regulations (43 CFR Part 426); (iii) the water requirements of Eligible Lands
807 within the Contractor's Service Area can be established and the quantity of Irrigation Water to be utilized is
808 less than or equal to the quantity necessary to irrigate such Eligible Lands; and (iv) if the facilities utilized for
809 commingling Irrigation Water and non-project water are/were constructed with funds made available
810 pursuant to Federal Reclamation law, the non-project water will be subject to the acreage limitation
811 provisions of Federal Reclamation law, unless the Contractor pays to the United States the incremental fee
812 described in 43 CFR 426.15. In determining the incremental fee, the Contracting Officer will calculate
813 annually the cost to the Federal Government, including interest of storing or delivering non-Project Water,
814 which for purposes of this Contract shall be determined as follows: The quotient shall be the unpaid
815 distribution system costs divided by the total irrigable acreage within the Contractor's Service Area. The
816 incremental fee per acre is the mathematical result of such quotient times the interest rate determined using
817 Section 202 (3) of the Act of October 12, 1982 (96 Stat. 1263). Such incremental fee will be charged to
818 each acre of excess or full cost land within the Contractor's Service Area that receives non-project water
819 through Federally financed or constructed facilities. The incremental fee calculation methodology will
820 continue during the term of this Contract absent the promulgation of a contrary Reclamation-wide rule,
821 regulation or policy adopted after the Contractor has been afforded the opportunity to review and comment
822 on the proposed rule, regulation or policy. If such rule, regulation or policy is adopted it shall supersede this
823 provision.

824 (b) Water or water rights now owned or hereafter acquired by the Contractor, other

825 than from the United States or adverse to the Project or its contractors (i.e. non-project water), may be
826 stored, conveyed and/or diverted through Project facilities, subject to the completion of appropriate
827 environmental documentation, with the approval of the Contracting Officer and the execution of any contract
828 determined by the Contracting Officer to be necessary, consistent with the following provisions:

829 (1) The Contractor may introduce non-project water into Project facilities and
830 deliver said water to lands within the Contractor's Service Area, including Ineligible Lands, subject to
831 payment to the United States and/or to any applicable Operating Non-Federal Entity of an appropriate rate
832 as determined by the CVP Ratesetting Policy and the RRA, each as amended, modified or superceded from
833 time to time. In addition, if electrical power is required to pump non-project water through the facilities, the
834 Contractor shall be responsible for obtaining the necessary power and paying the necessary charges
835 therefor.

836 (2) Delivery of such non-project Water in and through Project facilities shall
837 only be allowed to the extent such deliveries do not: (i) interfere with other Project purposes as determined
838 by the Contracting Officer; (ii) reduce the quantity or quality of water available to other Project water
839 service contractors; (iii) interfere with the delivery of contractual water entitlements to any other Project
840 water service contractors; or (iv) interfere with the physical maintenance of the Project facilities.

841 (3) Neither the United States nor the Operating Non-Federal Entity shall be
842 responsible for control, care or distribution of the non-project water before it is introduced into or after it is
843 delivered from the Project facilities. The Contractor hereby releases and agrees to defend and indemnify the
844 United States and the Operating Non-Federal Entity, and their respective officers, agents, and employees,

845 from any claim for damage to persons or property, direct or indirect, resulting from Contractor's diversion
846 or extraction of non-project water from any source.

847 (4) Diversion of such non-Project Water into Project facilities shall be consistent
848 with all applicable laws, and if involving groundwater, consistent with any groundwater management plan for
849 the area from which it was extracted.

850 (5) After Project purposes are met, as determined by the Contracting Officer,
851 the United States and the Contractor shall share priority to utilize the remaining capacity of the facilities
852 declared to be available by the Contracting Officer for conveyance and transportation of non-project water
853 prior to any such remaining capacity being made available to non-Project contractors.

854 OPINIONS AND DETERMINATIONS

855 18. (a) Where the terms of this Contract provide for actions to be based upon the opinion
856 or determination of either party to this Contract, said terms shall not be construed as permitting such action
857 to be predicated upon arbitrary, capricious, or unreasonable opinions or determinations. Both parties,
858 notwithstanding any other provisions of this Contract, expressly reserve the right to seek relief from and
859 appropriate adjustment for any such arbitrary, capricious, or unreasonable opinion or determination. Each
860 opinion or determination by either party shall be provided in a timely manner. Nothing in subdivision (a) of
861 Article 18 of this Contract is intended to or shall affect or alter the standard of judicial review applicable
862 under federal law to any opinion or determination implementing a specific provision of federal law embodied
863 in statute or regulation.

864 (b) The Contracting Officer shall have the right to make determinations necessary to

865 administer this Contract that are consistent with the provisions of this Contract, the laws of the United States
866 and of the State of California, and the rules and regulations promulgated by the Secretary of the Interior.

867 Such determinations shall be made in consultation with the Contractor to the extent reasonably practicable.

868 COORDINATION AND COOPERATION

869 19. (a) In order to further their mutual goals and objectives, the Contracting Officer and the
870 Contractor shall communicate, coordinate, and cooperate with each other, and with other affected Project
871 Contractors, in order to improve the operation and management of the Project. The communication,
872 coordination, and cooperation regarding operations and management shall include, but not be limited to, any
873 action which will or may materially affect the quantity or quality of Project Water supply, the allocation of
874 Project Water supply, and Project financial matters including, but not limited to, budget issues. The
875 communication, coordination, and cooperation provided for hereunder shall extend to all provisions of this
876 Contract. Each party shall retain exclusive decision making authority for all actions, opinion, and
877 determinations to be made by the respective party.

878 (b) Within one-hundred twenty (120) days following the effective date of this Contract,
879 the Contractor, other affected Project Contractors, and the Contracting Officer shall arrange to meet with
880 interested Project Contractors to develop a mutually agreeable, written Project-wide process, which may be
881 amended as necessary separate and apart from this Contract. The goal of this process shall be to provide,
882 to the extent practicable, the means of mutual communication and interaction regarding significant decisions
883 concerning Project operation and management on a real-time basis.

884 (c) In light of the factors referred to in subdivision (b) of Article 3 of this Contract, it is

885 the intent of the Secretary to improve water supply reliability. To carry out this intent:

886 (1) The Contracting Officer will, at the request of the Contractor, assist in the
887 development of integrated resource management plans for the Contractor. Further, the Contracting Officer
888 will, as appropriate, seek authorizations for implementation of partnerships to improve water supply, water
889 quality, and reliability.

890 (2) The Secretary will, as appropriate, pursue program and project
891 implementation and authorization in coordination with Project Contractors to improve the water supply,
892 water quality, and reliability of the Project for all Project purposes.

893 (3) The Secretary will coordinate with Project Contractors and the State of
894 California to seek improved water resource management.

895 (4) The Secretary will coordinate actions of agencies within the Department of
896 the Interior that may impact the availability of water for Project purposes.

897 (5) The Contracting Officer shall periodically, but not less than annually, hold
898 division level meetings to discuss Project operations, division level water management activities, and other
899 issues as appropriate.

900 (d) Without limiting the contractual obligations of the Contracting Officer hereunder,
901 nothing in this Contract shall be construed to limit or constrain the Contracting Officer's ability to
902 communicate, coordinate, and cooperate with the Contractor or other interested stakeholders or to make
903 decisions in a timely fashion as needed to protect health, safety, physical integrity of structures or facilities, or
904 the Contracting Officer's ability to comply with applicable laws.

905 CHARGES FOR DELINQUENT PAYMENTS

906 20. (a) The Contractor shall be subject to interest, administrative and penalty charges on
907 delinquent installments or payments. When a payment is not received by the due date, the Contractor shall
908 pay an interest charge for each day the payment is delinquent beyond the due date. When a payment
909 becomes sixty (60) days delinquent, the Contractor shall pay an administrative charge to cover additional
910 costs of billing and processing the delinquent payment. When a payment is delinquent ninety (90) days or
911 more, the Contractor shall pay an additional penalty charge of six (6%) percent per year for each day the
912 payment is delinquent beyond the due date. Further, the Contractor shall pay any fees incurred for debt
913 collection services associated with a delinquent payment.

914 (b) The interest charge rate shall be the greater of the rate prescribed quarterly in the
915 Federal Register by the Department of the Treasury for application to overdue payments, or the interest rate
916 of one-half of one (0.5%) percent per month prescribed by Section 6 of the Reclamation Project Act of
917 1939 (Public Law 76-260). The interest charge rate shall be determined as of the due date and remain
918 fixed for the duration of the delinquent period.

919 (c) When a partial payment on a delinquent account is received, the amount received
920 shall be applied, first to the penalty, second to the administrative charges, third to the accrued interest, and
921 finally to the overdue payment.

922 EQUAL OPPORTUNITY

923 21. During the performance of this Contract, the Contractor agrees as follows:

924 (a) The Contractor will not discriminate against any employee or applicant for
925 employment because of race, color, religion, sex, or national origin. The Contractor will take affirmative
926 action to ensure that applicants are employed, and that employees are treated during employment, without
927 regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to,
928 the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or
929 termination, rates of payment or other forms of compensation; and selection for training, including
930 apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants
931 for employment, notices to be provided by the Contracting Officer setting forth the provisions of this
932 nondiscrimination clause.

933 (b) The Contractor will, in all solicitations or advertisements for employees placed by or
934 on behalf of the Contractor, state that all qualified applicants will receive consideration for employment
935 without discrimination because of race, color, religion, sex, or national origin.

936 (c) The Contractor will send to each labor union or representative of workers with
937 which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided
938 by the Contracting Officer, advising the said labor union or workers' representative of the Contractor's
939 commitments under Section 202 of Executive Order 11246 of September 24, 1965, and shall post copies
940 of the notice in conspicuous places available to employees and applicants for employment.

941 (d) The Contractor will comply with all provisions of Executive Order
942 No. 11246 of September 24, 1965, as amended, and of the rules, regulations, and relevant orders of the
943 Secretary of Labor.

944 (e) The Contractor will furnish all information and reports required by said amended
945 Executive Order and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto,
946 and will permit access to its books, records, and accounts by the Contracting Officer and the Secretary of
947 Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

948 (f) In the event of the Contractor's noncompliance with the nondiscrimination clauses of
949 this Contract or with any of the said rules, regulations, or orders, this Contract may be canceled, terminated,
950 or suspended, in whole or in part, and the Contractor may be declared ineligible for further Government
951 contracts in accordance with procedures authorized in said amended Executive Order, and such other
952 sanctions may be imposed and remedies invoked as provided in said Executive Order, or by rule, regulation,
953 or order of the Secretary of Labor, or as otherwise provided by law.

954 (g) The Contractor will include the provisions of paragraphs (a) through (g) in every
955 subcontract or purchase order unless exempted by the rules, regulations, or orders of the Secretary of
956 Labor issued pursuant to Section 204 of said amended Executive Order, so that such provisions will be
957 binding upon each subcontractor or vendor. The Contractor will take such action with respect to any
958 subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such
959 provisions, including sanctions for noncompliance: Provided, however, That in the event the Contractor
960 becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such
961 direction, the Contractor may request the United States to enter into such litigation to protect the interests of
962 the United States.

963 GENERAL OBLIGATION--BENEFITS CONDITIONED UPON PAYMENT

964 22. (a) The obligation of the Contractor to pay the United States as provided in this
965 Contract is a general obligation of the Contractor notwithstanding the manner in which the obligation may be
966 distributed among the Contractor's water users and notwithstanding the default of individual water users in
967 their obligations to the Contractor.

968 (b) The payment of charges becoming due hereunder is a condition precedent to
969 receiving benefits under this Contract. The United States shall not make water available to the Contractor
970 through Project facilities during any period in which the Contractor may be in arrears in the advance
971 payment of water rates due the United States. The Contractor shall not furnish water made available
972 pursuant to this Contract for lands or parties which are in arrears in the advance payment of water rates
973 levied or established by the Contractor.

974 (c) With respect to subdivision (b) of this Article, the Contractor shall have no
975 obligation to require advance payment for water rates which it levies.

976 COMPLIANCE WITH CIVIL RIGHTS LAWS AND REGULATIONS

977 23. (a) The Contractor shall comply with Title VI of the Civil Rights Act of 1964 (42
978 U.S.C. 2000d), Section 504 of the Rehabilitation Act of 1975 (P.L. 93-112, as amended), the Age
979 Discrimination Act of 1975 (42 U.S.C. 6101, et seq.) and any other applicable civil rights laws, as well as
980 with their respective implementing regulations and guidelines imposed by the U.S. Department of the Interior
981 and/or Bureau of Reclamation.

982 (b) These statutes require that no person in the United States shall, on the grounds of
983 race, color, national origin, handicap, or age, be excluded from participation in, be denied the benefits of, or
984 be otherwise subjected to discrimination under any program or activity receiving financial assistance from the
985 Bureau of Reclamation. By executing this Contract, the Contractor agrees to immediately take any
986 measures necessary to implement this obligation, including permitting officials of the United States to inspect
987 premises, programs, and documents.

988 (c) The Contractor makes this agreement in consideration of and for the purpose of
989 obtaining any and all Federal grants, loans, contracts, property discounts, or other Federal financial
990 assistance extended after the date hereof to the Contractor by the Bureau of Reclamation, including
991 installment payments after such date on account of arrangements for Federal financial assistance which were
992 approved before such date. The Contractor recognizes and agrees that such Federal assistance will be
993 extended in reliance on the representations and agreements made in this Article, and that the United States
994 reserves the right to seek judicial enforcement thereof.

995 PRIVACY ACT COMPLIANCE

996 24. (a) The Contractor shall comply with the Privacy Act of 1974 (5 U.S.C. 552a) (the
997 Act) and the Department of the Interior rules and regulations under the Act (43 CFR 2.45 et seq.) in

998 maintaining Landholder acreage certification and reporting records, required to be submitted to the
999 Contractor for compliance with Sections 206 and 228 of the Reclamation Reform Act of 1982 (96 Stat.
1000 1266), and pursuant to 43 CFR 426.18.

1001 (b) With respect to the application and administration of the criminal penalty provisions
1002 of the Act (5 U.S.C. 552a(i)), the Contractor and the Contractor's employees responsible for maintaining
1003 the certification and reporting records referenced in (a) above are considered to be employees of the
1004 Department of the Interior. See 5 U.S.C. 552a(m).

1005 (c) The Contracting Officer or a designated representative shall provide the Contractor
1006 with current copies of the Interior Department Privacy Act regulations and the Bureau of Reclamation
1007 Federal Register Privacy Act System of Records Notice (Acreage Limitation--Interior, Reclamation-31)
1008 which govern the maintenance, safeguarding, and disclosure of information contained in the Landholder's
1009 certification and reporting records.

1010 (d) The Contracting Officer shall designate a full-time employee of the Bureau of
1011 Reclamation to be the System Manager who shall be responsible for making decisions on denials pursuant to
1012 43 CFR 2.61 and 2.64 amendment requests pursuant to 43 CFR 2.72. The Contractor is authorized to
1013 grant requests by individuals for access to their own records.

1014 (e) The Contractor shall forward promptly to the System Manager each proposed
1015 denial of access under 43 CFR 2.64; and each request for amendment of records filed under 43 CFR 2.71;
1016 notify the requester accordingly of such referral; and provide the System Manager with information and
1017 records necessary to prepare an appropriate response to the requester. These requirements do not apply to
1018 individuals seeking access to their own certification and reporting forms filed with the Contractor pursuant to
1019 43 CFR 426.18, unless the requester elects to cite the Privacy Act as a basis for the request.

1020 CONTRACTOR TO PAY CERTAIN MISCELLANEOUS COSTS

1021 25. In addition to all other payments to be made by the Contractor pursuant to this Contract, the
1022 Contractor shall pay to the United States, within sixty (60) days after receipt of a bill and detailed statement
1023 submitted by the Contracting Officer to the Contractor for such specific items of direct cost incurred by the
1024 United States for work requested by the Contractor associated with this Contract plus indirect costs in
1025 accordance with applicable Bureau of Reclamation policies and procedures. All such amounts referred to in

1026 this Article shall not exceed the amount agreed to in writing in advance by the Contractor. This Article shall
1027 not apply to costs for routine contract administration.

1028 WATER CONSERVATION

1029 26. (a) Prior to the delivery of water provided from or conveyed through Federally
1030 constructed or Federally financed facilities pursuant to this Contract, the Contractor shall be implementing an
1031 effective water conservation and efficiency program based on the Contractor's water conservation plan that
1032 has been determined by the Contracting Officer to meet the conservation and efficiency criteria for
1033 evaluating water conservation plans established under Federal law. The water conservation and efficiency
1034 program shall contain definite water conservation objectives, appropriate economically feasible water
1035 conservation measures, and time schedules for meeting those objectives. Continued Project Water delivery
1036 pursuant to this Contract shall be contingent upon the Contractor's continued implementation of such water
1037 conservation program. In the event the Contractor's water conservation plan or any revised water
1038 conservation plan completed pursuant to subdivision (d) of Article 26 of this Contract have not yet been
1039 determined by the Contracting Officer to meet such criteria, due to circumstances which the Contracting
1040 Officer determines are beyond the control of the Contractor, water deliveries shall be made under this
1041 Contract so long as the Contractor diligently works with the Contracting Officer to obtain such
1042 determination at the earliest practicable date, and thereafter the Contractor immediately begins implementing
1043 its water conservation and efficiency program in accordance with the time schedules therein.

1044 (b) Should the amount of M&I Water delivered pursuant to subdivision (a) of Article 3
1045 of this Contract equal or exceed two thousand (2,000) acre-feet per Year, the Contractor shall implement

1046 the Best Management Practices identified by the time frames issued by the California Urban Water
1047 Conservation Council for such M&I Water unless any such practice is determined by the Contracting
1048 Officer to be inappropriate for the Contractor.

1049 (c) The Contractor shall submit to the Contracting Officer a report on the status of its
1050 implementation of the water conservation plan on the reporting dates specified in the then existing
1051 conservation and efficiency criteria established under Federal law.

1052 (d) At five (5) -year intervals, the Contractor shall revise its water conservation plan to
1053 reflect the then current conservation and efficiency criteria for evaluating water conservation plans
1054 established under Federal law and submit such revised water management plan to the Contracting Officer
1055 for review and evaluation. The Contracting Officer will then determine if the water conservation plan meets
1056 Reclamation's then current conservation and efficiency criteria for evaluating water conservation plans
1057 established under Federal law.

1058 (e) If the Contractor is engaged in direct groundwater recharge, such activity shall be
1059 described in the Contractor's water conservation plan.

1060 EXISTING OR ACQUIRED WATER OR WATER RIGHTS

1061 27. Except as specifically provided in Article 17 of this Contract, the provisions of this Contract
1062 shall not be applicable to or affect non-Project Water or water rights now owned or hereafter acquired by
1063 the Contractor or any user of such water within the Contractor's Service Area. Any such water shall not be
1064 considered Project Water under this Contract. In addition, this Contract shall not be construed as limiting or
1065 curtailing any rights which the Contractor or any water user within the Contractor's Service Area acquires or

1066 has available under any other contract pursuant to Federal Reclamation law.

1067 OPERATION AND MAINTENANCE BY NON-FEDERAL ENTITY

1068 28. (a) The Operation and Maintenance of a portion of the Project facilities which serve the
1069 Contractor, and responsibility for funding a portion of the costs of such Operation and Maintenance, have
1070 been transferred to the Operating Non-Federal Entity by separate agreement between the United States and
1071 the Operating Non-Federal Entity. That separate agreement shall not interfere with or affect the rights or
1072 obligations of the Contractor or the United States hereunder.

1073 (b) The Contracting Officer has previously notified the Contractor in writing that the
1074 Operation and Maintenance of a portion of the Project facilities which serve the Contractor has been
1075 transferred to the Operating Non-Federal Entity, and therefore, the Contractor shall pay directly to the
1076 Operating Non-Federal Entity, or to any successor approved by the Contracting Officer under the terms
1077 and conditions of the separate agreement between the United States and the Operating Non-Federal Entity
1078 described in subdivision (a) of this Article, all rates, charges or assessments of any kind, including any
1079 assessment for reserve funds, which the Operating Non-Federal Entity or such successor determines, sets or
1080 establishes for (i) the Operation and Maintenance of the portion of the Project facilities operated and
1081 maintained by the Operating Non-Federal Entity or such successor, or (ii) the Friant Division's share of the
1082 operation, maintenance and replacement costs for physical works and appurtenances associated with the
1083 Tracy Pumping Plant, the Delta-Mendota Canal, the O'Neill Pumping/Generating Plant, the federal share of
1084 the O'Neill Forebay, the Mendota Pool, and the federal share of San Luis Unit joint use conveyance and
1085 conveyance pumping facilities. Such direct payments to the Operating Non-Federal Entity or such

1086 successor shall not relieve the Contractor of its obligation to pay directly to the United States the
1087 Contractor's share of the Project Rates, Charges, and Tiered Pricing Components except to the extent the
1088 Operating Non-Federal Entity collects payments on behalf of the United States in accordance with the
1089 separate agreement identified in subdivision (a) of this Article.

1090 (c) For so long as the Operation and Maintenance of any portion of the Project facilities
1091 serving the Contractor is performed by the Operating Non-Federal Entity, or any successor thereto, the
1092 Contracting Officer shall adjust those components of the Rates for Water Delivered under this Contract
1093 representing the cost associated with the activity being performed by the Operating Non-Federal Entity or
1094 its successor.

1095 (d) In the event the Operation and Maintenance of the Project facilities operated and
1096 maintained by the Operating Non-Federal Entity is re-assumed by the United States during the term of this
1097 Contract, the Contracting Officer shall so notify the Contractor, in writing, and present to the Contractor a
1098 revised Exhibit "B" which shall include the portion of the Rates to be paid by the Contractor for Project
1099 Water under this Contract representing the Operation and Maintenance costs of the portion of such Project
1100 facilities which have been re-assumed. The Contractor shall, thereafter, in the absence of written notification
1101 from the Contracting Officer to the contrary, pay the Rates, Charges, and Tiered Pricing Component(s)
1102 specified in the revised Exhibit "B" directly to the United States in compliance with Article 7 of this Contract.

1103 CONTINGENT ON APPROPRIATION OR ALLOTMENT OF FUNDS

1104 29. The expenditure or advance of any money or the performance of any obligation of the
1105 United States under this Contract shall be contingent upon appropriation or allotment of funds. Absence of
1106 appropriation or allotment of funds shall not relieve the Contractor from any obligations under this Contract.

1107 No liability shall accrue to the United States in case funds are not appropriated or allotted.

1108 BOOKS, RECORDS, AND REPORTS

1109 30. (a) The Contractor shall establish and maintain accounts and other books and records
1110 pertaining to administration of the terms and conditions of this Contract, including: the Contractor's financial
1111 transactions, water supply data, and Project land and right-of-way agreements; the water users' land-use
1112 (crop census), land ownership, land-leasing and water use data; and other matters that the Contracting
1113 Officer may require. Reports thereon shall be furnished to the Contracting Officer in such form and on such
1114 date or dates as the Contracting Officer may require. Subject to applicable Federal laws and regulations,
1115 each party to this Contract shall have the right during office hours to examine and make copies of the other
1116 party's books and records relating to matters covered by this Contract.

1117 (b) Notwithstanding the provisions of subdivision (a) of this Article, no books, records,
1118 or other information shall be requested from the Contractor by the Contracting Officer unless such books,
1119 records, or information are reasonably related to the administration or performance of this Contract. Any
1120 such request shall allow the Contractor a reasonable period of time within which to provide the requested
1121 books, records, or information.

1122 (c) At such time as the Contractor provides information to the Contracting Officer
1123 pursuant to subdivision (a) of this Article, a copy of such information shall be provided to the Operating
1124 Non-Federal Entity.

1125 ASSIGNMENT LIMITED--SUCCESSORS AND ASSIGNS OBLIGATED

1126 31. (a) The provisions of this Contract shall apply to and bind the successors and assigns of
1127 the parties hereto, but no assignment or transfer of this Contract or any right or interest therein shall be valid
1128 until approved in writing by the Contracting Officer.

1129 (b) The assignment of any right or interest in this Contract by either party shall not
1130 interfere with the rights or obligations of the other party to this Contract absent the written concurrence of

1131 said other party.

1132 (c) The Contracting Officer shall not unreasonably condition or withhold approval of
1133 any proposed assignment.

1134 SEVERABILITY

1135 32. In the event that a person or entity who is neither (i) a party to a Project contract, nor (ii) a
1136 person or entity that receives Project Water from a party to a Project contract, nor (iii) an association or
1137 other form of organization whose primary function is to represent parties to Project contracts, brings an
1138 action in a court of competent jurisdiction challenging the legality or enforceability of a provision included in
1139 this Contract and said person, entity, association, or organization obtains a final court decision holding that
1140 such provision is legally invalid or unenforceable and the Contractor has not intervened in that lawsuit in
1141 support of the plaintiff(s), the parties to this Contract shall use their best efforts to (i) within thirty (30) days
1142 of the date of such final court decision identify by mutual agreement the provisions in this Contract which
1143 must be revised and (ii) within three (3) months thereafter promptly agree on the appropriate revision(s).
1144 The time periods specified above may be extended by mutual agreement of the parties. Pending the
1145 completion of the actions designated above, to the extent it can do so without violating any applicable
1146 provisions of law, the United States shall continue to make the quantities of Project Water specified in this
1147 Contract available to the Contractor pursuant to the provisions of this Contract which were not found to be
1148 legally invalid or unenforceable in the final court decision.

1149 RESOLUTION OF DISPUTES

1150 33. Should any dispute arise concerning any provisions of this Contract, or the parties' rights

1151 and obligations thereunder, the parties shall meet and confer in an attempt to resolve the dispute. Prior to
1152 the Contractor commencing any legal action, or the Contracting Officer referring any matter to Department
1153 of Justice, the party shall provide to the other party thirty (30) days' written notice of the intent to take such
1154 action; Provided, That such notice shall not be required where a delay in commencing an action would
1155 prejudice the interests of the party that intends to file suit. During the thirty (30) -day notice period, the
1156 Contractor and the Contracting Officer shall meet and confer in an attempt to resolve the dispute. Except as
1157 specifically provided, nothing herein is intended to waive or abridge any right or remedy that the Contractor
1158 or the United States may have.

1159 OFFICIALS NOT TO BENEFIT

1160 34. No Member of or Delegate to Congress, Resident Commissioner, or official of the
1161 Contractor shall benefit from this Contract other than as a water user or landowner in the same manner as
1162 other water users or landowners.

1163 CHANGES IN CONTRACTOR'S SERVICE AREA

1164 35. (a) While this Contract is in effect, no change may be made in the Contractor's Service
1165 Area or boundaries, by inclusion or exclusion of lands, dissolution, consolidation, merger, or otherwise,
1166 except upon the Contracting Officer's written consent.

1167 (b) Within thirty (30) days of receipt of a request for such a change, the Contracting
1168 Officer will notify the Contractor of any additional information required by the Contracting Officer for
1169 processing said request, and both parties will meet to establish a mutually agreeable schedule for timely
1170 completion of the process. Such process will analyze whether the proposed change is likely to: (i) result in
1171 the use of Project Water contrary to the terms of this Contract; (ii) impair the ability of the Contractor to pay
1172 for Project Water furnished under this Contract or to pay for any Federally-constructed facilities for which

1173 the Contractor is responsible; and (iii) have an impact on any Project Water rights applications, permits, or
1174 licenses. In addition, the Contracting Officer shall comply with the National Environmental Policy Act and
1175 the Endangered Species Act. The Contractor will be responsible for all costs incurred by the Contracting
1176 Officer in this process, and such costs will be paid in accordance with Article 25 of this Contract.

1177 FEDERAL LAWS

1178 36. By entering into this Contract, the Contractor does not waive its rights to contest the validity
1179 or application in connection with the performance of the terms and conditions of this Contract of any Federal
1180 law or regulation; Provided, That the Contractor agrees to comply with the terms and conditions of this
1181 Contract unless and until relief from application of such Federal law or regulation to the implementing
1182 provision of the Contract is granted by a court of competent jurisdiction.

1183 NOTICES

1184 37. Any notice, demand, or request authorized or required by this Contract shall be deemed to
1185 have been given, on behalf of the Contractor, when mailed, postage prepaid, or delivered to the Area
1186 Manager, South-Central California Area Office, 1243 “N” Street, Fresno, California 93721, and on behalf
1187 of the United States, when mailed, postage prepaid, or delivered to the Board of Directors of the Exeter
1188 Irrigation District, PO Box 546, Exeter, California 93221. The designation of the addressee or the address
1189 may be changed by notice given in the same manner as provided in this Article for other notices.

1190 CONFIRMATION OF CONTRACT

1191 38. The Contractor, after the execution of this Contract, shall promptly seek to secure a decree
1192 of a court of competent jurisdiction of the State of California, confirming the execution of this Contract. The
1193 Contractor shall furnish the United States a certified copy of the final decree, the validation proceedings, and
1194 all pertinent supporting records of the court approving and confirming this Contract, and decreeing and
1195 adjudging it to be lawful, valid, and binding on the Contractor.

1196 IN WITNESS WHEREOF, the parties hereto have executed this Contract as of the day and year
1197 first above written.
