Executive Summary	
CHAPTER 1 Purpose and Need	1-1
1.1 Introduction	1-1
1.2 Purpose of and Need for Action.....	1-2
1.2.1 Study Authority.....	1-2
1.2.1.1 Federal Authority	1-2
1.2.1.2 State Authority	1-3
1.2.2 Physical Constraints on the Water Supply.....	1-5
1.2.2.1 Instream Flows/Habitat.....	1-5
1.2.2.2 Dry Year Irrigation	1-5
1.2.2.3 Municipal and Domestic Water Supply.....	1-6
1.2.3 Statutory Constraints on the Water Supply.....	1-6
1.3 Background – Yakima Storage Study.....	1-7
1.4 Related Permits, Actions, and Laws	1-9
1.5 Public Involvement	1-10
1.6 Yakima River Basin Background and History.....	1-10
1.6.1 Location and Setting	1-10
1.6.2 Yakima Project Description.....	1-13
1.6.3 History of Water Management in the Yakima River Basin.....	1-14
1.6.3.1 Water Appropriation From the Yakima River	1-15
1.7 Prior Investigations and Activities in the Yakima River Basin.....	1-18
1.7.1 Bumping Lake Enlargement	1-18
1.7.2 Yakima River Basin Water Enhancement Project.....	1-19
1.7.2.1 Yakima River Basin Water Conservation Program.....	1-20
1.7.2.2 Yakima River Basin Water Enhancement Project, Washington, Final Programmatic Environmental Impact Statement.....	1-20
1.7.2.3 Report on Biologically Based Flows	1-21
1.7.2.4 The Reaches Project: Ecological and Geomorphic Studies Supporting Normative Flows in the Yakima River Basin.....	1-21
1.7.2.5 Interim Comprehensive Basin Operating Plan for the Yakima Project.....	1-22
1.7.3 Yakima River Watershed Council	1-22
1.7.4 Watershed Assessment and Watershed Management Plan	1-23
1.7.5 Yakima Subbasin Plan.....	1-23
1.8 Relationship of Other Water Resource Activities to this Study	1-24

	<i>Page</i>
1.8.1 Columbia River Basin Water Management Program	1-24
1.8.1.1 Columbia River Basin Water Management Program, Final Programmatic Environmental Impact Statement	1-25
1.8.1.2 Storage	1-25
1.8.1.3 Conservation	1-25
1.8.1.4 Voluntary Regional Agreements.....	1-26
1.8.1.5 Instream Water.....	1-26
1.8.1.6 Inventory and Demand Forecasting.....	1-26
1.8.2 Priest Rapids Hydroelectric Project Relicensing	1-26
1.8.3 Yakima Dams Fish Passage	1-27
1.8.4 Additional Projects.....	1-27
1.9 How to Read This Document.....	1-28
CHAPTER 2 Joint Alternatives	2-1
2.1 Introduction.....	2-1
2.2 Alternatives Formulation and Evaluation	2-1
2.2.1 Goal Setting	2-3
2.2.1.1 Instream Water Supply	2-3
2.2.1.2 Irrigation Water Supply	2-5
2.2.1.3 Municipal Water Supply	2-5
2.2.2 Geology.....	2-8
2.2.2.1 Black Rock Damsite Seismicity.....	2-9
2.2.2.2 Wymer Damsite Seismicity	2-10
2.2.2.3 Wymer Dam Potential South Abutment Landslide.....	2-11
2.2.3 Cost Estimates.....	2-11
2.2.4 Operations	2-13
2.2.4.1 Water Supply and Water Distribution.....	2-15
2.2.4.2 Proratable Irrigation Supply.....	2-16
2.2.5 Water Rights and Water Contracts	2-16
2.2.5.1 Introduction.....	2-16
2.2.5.2 Current Status.....	2-17
2.2.5.3 Water Appropriation from the Columbia River.....	2-18
2.3 No Action Alternative.....	2-20
2.3.1 Description.....	2-20
2.3.1.1 Water Conservation Measures	2-20
2.3.1.2 Water Acquisition	2-24
2.3.1.3 Emergency Drought Relief	2-24
2.3.2 Current Yakima Project Operations.....	2-25
2.3.3 No Action Alternative Operations	2-27
2.3.3.1 Operation Criteria	2-27

	<i>Page</i>
2.3.3.2 Accomplishments.....	2-27
2.3.4 Economic and Financial Analysis.....	2-36
2.3.5 Actions and Permits.....	2-37
2.4 Black Rock Alternative.....	2-37
2.4.1 Description.....	2-37
2.4.1.1 Physical Features.....	2-37
2.4.2 Operations.....	2-41
2.4.2.1 Columbia River Water Supply for Black Rock Reservoir.....	2-41
2.4.2.2 Yakima Project Modifications to Operations.....	2-49
2.4.2.3 Municipal Operations.....	2-50
2.4.2.4 Summary.....	2-51
2.4.3 Accomplishments.....	2-51
2.4.3.1 Water Provided by the Black Rock Alternative.....	2-51
2.4.3.2 Instream Flows Provided.....	2-53
2.4.3.3 Dry Year Proratable Irrigation Supply Provided.....	2-53
2.4.3.4 Municipal Water Supply Provided.....	2-54
2.4.4 Economic and Financial Analysis.....	2-54
2.4.5 Actions and Permits.....	2-54
2.5 Wymer Dam and Reservoir Alternative.....	2-55
2.5.1 Description.....	2-55
2.5.1.1 Physical Features.....	2-55
2.5.2 Operations.....	2-59
2.5.2.1 Wymer Reservoir.....	2-59
2.5.2.2 Yakima Project.....	2-62
2.5.2.3 Municipal Operations.....	2-63
2.5.2.4 Summary.....	2-63
2.5.3 Accomplishments.....	2-63
2.5.3.1 Water Provided by the Wymer Dam and Reservoir Alternative.....	2-63
2.5.3.2 Instream Flows Provided.....	2-64
2.5.3.3 Dry Year Proratable Irrigation Supply Provided.....	2-65
2.5.3.4 Municipal Supply Provided.....	2-66
2.5.4 Economic and Financial Analysis.....	2-66
2.5.5 Actions and Permits.....	2-67
2.6 Wymer Dam Plus Yakima River Pump Exchange Alternative.....	2-67
2.6.1 Description.....	2-67
2.6.1.1 Physical Features.....	2-67
2.6.2 Operations.....	2-70
2.6.2.1 Wymer Reservoir Component.....	2-70
2.6.2.2 Yakima River Pump Exchange Component.....	2-70

	<i>Page</i>
2.6.2.3 Yakima Project.....	2-73
2.6.2.4 Municipal Operations.....	2-73
2.6.2.5 Summary	2-73
2.6.3 Accomplishments.....	2-73
2.6.3.1 Water Provided by the Wymer Dam Plus Yakima River Pump Exchange Alternative.....	2-73
2.6.3.2 Instream Flows Provided	2-75
2.6.3.3 Dry Year Proratable Irrigation Supply Provided	2-75
2.6.3.4 Municipal Supply Provided	2-75
2.6.4 Economic and Financial Analysis.....	2-76
2.6.5 Actions and Permits	2-76
2.7 Economic and Financial Analysis.....	2-76
2.7.1 NED Benefit-Cost Analysis.....	2-76
2.7.1.1 Cost Analysis	2-78
2.7.1.2 Benefits Analysis	2-80
2.7.2 Financial Feasibility.....	2-101
2.7.2.1 Cost Allocation	2-101
2.7.2.2 Project Repayment.....	2-102
2.8 Comparative Evaluation of Alternatives.....	2-102
2.8.1 Preparing the EQ Evaluation	2-105
2.8.2 Preparing the OSE Evaluation	2-106
2.8.3 Displaying the EQ and OSE Impacts from Alternatives	2-107
2.9 Other Alternatives Considered but Eliminated from Further Study	2-109
2.9.1 Bumping Lake Enlargement Alternative	2-109
2.9.2 Keechelus-to-Kachess to Pipeline Alternative.....	2-113
2.9.3 Rattlesnake Creek	2-113
2.9.4 Klickitat Diversion Project	2-114
2.10 Summary Comparison of Environmental Impacts of Alternatives.....	2-115
CHAPTER 3 State Alternatives.....	3-1
3.1 Introduction.....	3-1
3.1.1 Alternatives Development	3-1
3.1.2 Summary of Alternative Results.....	3-2
3.1.3 Consumptive versus Nonconsumptive Use of Water	3-3
3.2 Alternative 1 - Enhanced Water Conservation	3-4
3.2.1 Description.....	3-4
3.2.2 Enhanced Water Conservation Projects.....	3-5
3.2.3 Comparison to the No Action Alternative	3-8
3.3 Alternative 2 - Market-Based Reallocation of Water Resources	3-9

	<i>Page</i>
3.3.1 Description.....	3-9
3.3.2 Water Banks and Water Markets in Washington.....	3-10
3.3.3 Development of Options for the Market-Based Reallocation of Water Resources Alternative.....	3-10
3.3.3.1 Administrative Structure of Water Markets and Water Banks.....	3-11
3.3.3.2 Issues and Concerns with Market-Based Reallocation of Water Resources in Washington.....	3-11
3.3.4 Market-Based Reallocation of Water Resources Alternative Options.....	3-13
3.3.4.1 Alternative 2A: Water Market Using Existing Authority.....	3-13
3.3.4.2 Alternative 2B: Open Water Market.....	3-14
3.3.4.3 Alternative 2C: Water Banking Using Existing Trust Water Rights Program.....	3-15
3.3.4.4 Alternative 2D: Nonregulatory Water Bank.....	3-16
3.3.4.5 Alternative 2E: Drought Year Transfers Outside of Irrigation Districts.....	3-17
3.3.4.6 Alternative 2F: Irrigation District Bank.....	3-17
3.4 Alternative 3 - Groundwater Storage.....	3-17
3.4.1 Description.....	3-17
3.4.1.1 Injection Recharge.....	3-18
3.5 Comparative Evaluation of State Alternatives.....	3-23
3.6 Other Alternatives Considered but Eliminated from Further Study.....	3-29
 CHAPTER 4 Affected Environment and Environmental	
Consequences: Joint Alternatives.....	4-1
4.1 Introduction.....	4-1
4.2 Water Resources.....	4-1
4.2.1 Affected Environment.....	4-1
4.2.1.1 River Regulation.....	4-2
4.2.1.2 Water Supply Available.....	4-3
4.2.2 Environmental Consequences.....	4-8
4.2.2.1 No Action Alternative.....	4-9
4.2.2.2 Black Rock Alternative.....	4-11
4.2.2.3 Wymer Dam and Reservoir Alternative.....	4-12
4.2.2.4 Wymer Dam Plus Yakima River Pump Exchange Alternative.....	4-14
4.2.2.5 Mitigation.....	4-15
4.2.2.6 Cumulative Impacts.....	4-15
4.3 Groundwater Resources.....	4-29
4.3.1 Affected Environment.....	4-29
4.3.1.1 Geology Overview.....	4-29

	<i>Page</i>
4.3.1.2 Groundwater Occurrence	4-32
4.3.1.3 Aquifer Recharge and Discharge	4-32
4.3.1.4 Hydraulic Properties	4-33
4.3.2 Environmental Consequences	4-34
4.3.2.1 Methods and Assumptions	4-34
4.3.2.2 No Action Alternative	4-35
4.3.2.3 Black Rock Alternative	4-35
4.3.2.4 Wymer Dam and Reservoir Alternative	4-38
4.3.2.5 Wymer Dam Plus Yakima River Pump Exchange Alternative	4-39
4.3.2.6 Mitigation	4-39
4.3.2.7 Cumulative Impacts	4-40
4.4 Hydropower Resources	4-41
4.4.1 Affected Environment	4-41
4.4.2 Environmental Consequences	4-43
4.4.2.1 Methods and Assumptions	4-43
4.4.2.2 No Action Alternative	4-45
4.4.2.3 Black Rock Alternative	4-45
4.4.2.4 Wymer Dam and Reservoir Alternative	4-48
4.4.2.5 Wymer Dam Plus Yakima River Pump Exchange Alternative	4-48
4.4.2.6 Mitigation	4-49
4.4.2.7 Cumulative Impacts	4-50
4.5 Sediment Resources	4-50
4.5.1 Affected Environment	4-50
4.5.2 Environmental Consequences	4-52
4.5.2.1 Methods and Assumptions	4-52
4.5.2.2 No Action Alternative	4-54
4.5.2.3 Black Rock Alternative	4-55
4.5.2.4 Wymer Dam and Reservoir Alternative	4-56
4.5.2.5 Wymer Dam Plus Yakima River Pump Exchange Alternative	4-57
4.5.2.6 Mitigation	4-57
4.5.2.7 Cumulative Impacts	4-57
4.6 Water Quality	4-58
4.6.1 Affected Environment	4-58
4.6.1.1 Columbia River	4-58
4.6.1.2 Yakima River	4-63
4.6.2 Environmental Consequences	4-66
4.6.2.1 Methods and Assumptions	4-66
4.6.2.2 No Action Alternative	4-68
4.6.2.3 Black Rock Alternative	4-69
4.6.2.4 Wymer Dam and Reservoir Alternative	4-71

	<i>Page</i>
4.6.2.5 Wymer Dam Plus Yakima River Pump Exchange Alternative.....	4-72
4.6.2.6 Mitigation.....	4-73
4.6.2.7 Cumulative Impacts	4-73
4.7 Vegetation and Wildlife.....	4-73
4.7.1 Affected Environment.....	4-73
4.7.1.1 Wildlife	4-75
4.7.1.2 Movement Corridors.....	4-77
4.7.1.3 Black Cottonwoods.....	4-78
4.7.1.4 Wetlands	4-81
4.7.2 Environmental Consequences.....	4-82
4.7.2.1 Methods and Assumptions.....	4-82
4.7.2.2 No Action Alternative.....	4-86
4.7.2.3 Black Rock Alternative.....	4-87
4.7.2.4 Wymer Dam and Reservoir Alternative	4-89
4.7.2.5 Wymer Dam Plus Yakima River Pump Exchange Alternative.....	4-91
4.7.2.6 Mitigation.....	4-92
4.7.2.7 Cumulative Impacts	4-92
4.8 Anadromous Fish.....	4-94
4.8.1 Affected Environment.....	4-94
4.8.1.1 Columbia River.....	4-94
4.8.1.2 Yakima River.....	4-96
4.8.1.3 Habitat Conditions for Anadromous Fish.....	4-98
4.8.2 Environmental Consequences.....	4-102
4.8.2.1 Methods and Assumptions.....	4-103
4.8.2.2 Summary of Impacts.....	4-109
4.8.2.3 No Action Alternative.....	4-110
4.8.2.4 Black Rock Alternative.....	4-115
4.8.2.5 Wymer Dam and Reservoir Alternative	4-119
4.8.2.6 Wymer Dam Plus Yakima River Pump Exchange Alternative.....	4-121
4.8.2.7 Mitigation.....	4-124
4.8.2.8 Cumulative Impacts	4-124
4.9 Resident Fish.....	4-125
4.9.1 Affected Environment.....	4-125
4.9.1.1 Columbia River.....	4-125
4.9.1.2 Yakima River.....	4-127
4.9.2 Environmental Consequences.....	4-129
4.9.2.1 Methods and Assumption	4-129
4.9.2.2 Summary of Impacts.....	4-131
4.9.2.3 No Action Alternative.....	4-133
4.9.2.4 Black Rock Alternative.....	4-133
4.9.2.5 Wymer Dam and Reservoir Alternative	4-134

	<i>Page</i>
4.9.2.6 Wymer Dam Plus Yakima River Pump Exchange Alternative.....	4-136
4.9.2.7 Mitigation.....	4-137
4.9.2.8 Cumulative Impacts	4-137
4.10 Aquatic Invertebrates	4-137
4.10.1 Affected Environment.....	4-137
4.10.1.1 Flow Magnitude and Timing	4-138
4.10.1.2 Recovery from Regulation.....	4-138
4.10.1.3 Lateral Connectivity/Backwater Effects	4-139
4.10.1.4 Relationship to Discharge and Project Facilities.....	4-139
4.10.2 Environmental Consequences.....	4-140
4.10.2.1 Methods and Assumptions.....	4-140
4.10.2.2 No Action Alternative.....	4-141
4.10.2.3 Black Rock Alternative.....	4-143
4.10.2.4 Wymer Dam and Reservoir Alternative	4-144
4.10.2.5 Wymer Dam Plus Yakima River Pump Exchange Alternative.....	4-145
4.10.2.6 Mitigation.....	4-145
4.10.2.7 Cumulative Impacts	4-145
4.11 Threatened and Endangered Species	4-146
4.11.1 Affected Environment.....	4-146
4.11.1.1 Columbia River.....	4-146
4.11.1.2 Yakima River Basin.....	4-148
4.11.2 Environmental Consequences.....	4-160
4.11.2.1 Methods and Assumptions.....	4-160
4.11.2.2 No Action Alternative.....	4-162
4.11.2.3 Black Rock Alternative.....	4-163
4.11.2.4 Wymer Dam and Reservoir Alternative	4-167
4.11.2.5 Wymer Dam Plus Yakima River Pump Exchange Alternative.....	4-169
4.11.2.6 Mitigation.....	4-172
4.11.2.7 Cumulative Impacts	4-172
4.12 Recreational Resources.....	4-173
4.12.1 Affected Environment.....	4-173
4.12.1.1 Recreation Setting.....	4-173
4.12.1.2 Current Recreation Visitation	4-175
4.12.2 Environmental Consequences.....	4-175
4.12.2.1 Methods and Assumptions.....	4-175
4.12.2.2 No Action Alternative.....	4-176
4.12.2.3 Black Rock Alternative.....	4-176
4.12.2.4 Wymer Dam and Reservoir Alternative	4-179
4.12.2.5 Wymer Dam Plus Yakima River Pump Exchange Alternative.....	4-182

	<i>Page</i>
4.12.2.6 Mitigation.....	4-183
4.12.2.7 Cumulative Impacts	4-183
4.13 Land Use and Shoreline Resources.....	4-183
4.13.1 Affected Environment.....	4-183
4.13.1.1 No Action Alternative.....	4-183
4.13.1.2 Black Rock Alternative.....	4-184
4.13.1.3 Wymer Dam and Reservoir Alternative	4-187
4.13.1.4 Wymer Dam Plus Yakima River Pump Exchange Alternative.....	4-188
4.13.2 Environmental Consequences.....	4-190
4.13.2.1 Methods and Assumptions.....	4-190
4.13.2.2 No Action Alternative.....	4-191
4.13.2.3 Black Rock Alternative.....	4-191
4.13.2.4 Wymer Dam and Reservoir Alternative	4-195
4.13.2.5 Wymer Dam Plus Yakima River Pump Exchange Alternative.....	4-198
4.13.2.6 Mitigation.....	4-200
4.13.2.7 Cumulative Impacts	4-202
4.14 Socioeconomics (Regional Economy).....	4-203
4.14.1 Affected Environment.....	4-204
4.14.1.1 Employment.....	4-205
4.14.1.2 Output	4-205
4.14.1.3 Labor Income	4-205
4.14.1.4 Irrigated Agriculture	4-205
4.14.1.5 Recreation	4-206
4.14.2 Environmental Consequences.....	4-207
4.14.2.1 Methods and Assumptions.....	4-207
4.14.2.2 No Action Alternative.....	4-210
4.14.2.3 Black Rock Alternative.....	4-210
4.14.2.4 Wymer Dam and Reservoir Alternative	4-213
4.14.2.5 Wymer Dam Plus Yakima River Pump Exchange Alternative.....	4-215
4.14.2.6 Mitigation.....	4-216
4.14.2.7 Cumulative Impacts	4-216
4.15 Public Services and Utilities	4-216
4.15.1 Affected Environment.....	4-217
4.15.1.1 No Action Alternative.....	4-217
4.15.1.2 Black Rock Alternative.....	4-217
4.15.1.3 Wymer Dam and Reservoir Alternative	4-217
4.15.1.4 Wymer Dam Plus Yakima River Pump Exchange Alternative.....	4-218
4.15.2 Environmental Consequences.....	4-219
4.15.2.1 Methods and Assumptions.....	4-219
4.15.2.2 No Action Alternative.....	4-220
4.15.2.3 Black Rock Alternative.....	4-220

	<i>Page</i>
4.15.2.4 Wymer Dam and Reservoir Alternative	4-222
4.15.2.5 Wymer Dam and Yakima River Pump Exchange Alternative.....	4-222
4.15.2.6 Mitigation.....	4-224
4.15.2.7 Cumulative Impacts	4-224
4.16 Transportation	4-224
4.16.1 Affected Environment.....	4-224
4.16.1.1 No Action Alternative.....	4-224
4.16.1.2 Black Rock Alternative.....	4-225
4.16.1.3 Wymer Dam and Reservoir Alternative	4-226
4.16.1.4 Wymer Dam Plus Yakima River Pump Exchange Alternatives.....	4-227
4.16.2 Environmental Consequences.....	4-228
4.16.2.1 Methods and Assumptions.....	4-228
4.16.2.2 No Action Alternative.....	4-229
4.16.2.3 Black Rock Alternative.....	4-229
4.16.2.4 Wymer Dam and Reservoir Alternative	4-231
4.16.2.5 Wymer Dam Plus Yakima River Pump Exchange Alternative.....	4-232
4.16.2.6 Mitigation.....	4-233
4.16.2.7 Cumulative Impacts	4-235
4.17 Air Quality	4-235
4.17.1 Affected Environment.....	4-235
4.17.2 Environmental Consequences.....	4-237
4.17.2.1 Methods and Assumptions.....	4-237
4.17.2.2 No Action Alternative.....	4-238
4.17.2.3 Joint Alternatives	4-238
4.17.2.4 Mitigation.....	4-239
4.17.2.5 Cumulative Impacts	4-239
4.18 Noise	4-239
4.18.1 Affected Environment.....	4-239
4.18.1.1 Noise Measurement Scales	4-240
4.18.1.2 Current Noise Environment	4-241
4.18.1.3 Applicable Laws, Ordinances, Regulations, and Standards	4-241
4.18.1.4 Ambient Noise Levels.....	4-241
4.18.2 Environmental Consequences.....	4-241
4.18.2.1 Methods and Assumptions.....	4-242
4.18.2.2 No Action Alternative.....	4-242
4.18.2.3 Black Rock Alternative.....	4-242
4.18.2.4 Wymer Dam and Reservoir Alternative	4-242
4.18.2.5 Wymer Dam Plus Yakima River Pump Exchange Alternative.....	4-243
4.18.2.6 Mitigation.....	4-243

	<i>Page</i>
4.18.2.7 Cumulative Impacts	4-243
4.19 Visual Resources.....	4-243
4.19.1 Affected Environment.....	4-243
4.19.1.1 No Action Alternative.....	4-243
4.19.1.2 Black Rock Alternative.....	4-243
4.19.1.3 Wymer Dam and Reservoir Alternative	4-245
4.19.1.4 Wymer Dam Plus Yakima River Pump Exchange Alternative.....	4-246
4.19.2 Environmental Consequences.....	4-247
4.19.2.1 Methods and Assumptions.....	4-247
4.19.2.2 No Action Alternative.....	4-247
4.19.2.3 Black Rock Alternative.....	4-248
4.19.2.4 Wymer Dam and Reservoir Alternative	4-250
4.19.2.5 Wymer Dam Plus Yakima River Pump Exchange Alternative.....	4-251
4.19.2.6 Mitigation.....	4-252
4.19.2.7 Cumulative Impacts	4-253
4.20 Historic Properties	4-253
4.20.1 Affected Environment.....	4-254
4.20.1.1 Columbia River Reaches and Yakima River Basin.....	4-254
4.20.2 Environmental Consequences.....	4-256
4.20.2.1 Methods and Assumptions.....	4-256
4.20.2.2 No Action Alternative.....	4-257
4.20.2.3 Joint Alternatives	4-257
4.20.2.4 Mitigation.....	4-257
4.20.2.5 Cumulative Impacts	4-258
4.21 Indian Sacred Sites.....	4-259
4.21.1 Affected Environment.....	4-259
4.21.2 Environmental Consequences.....	4-259
4.21.2.1 Methods and Assumptions.....	4-259
4.21.2.2 No Action Alternative.....	4-260
4.21.2.3 Black Rock Alternative.....	4-260
4.21.2.4 Wymer Dam and Reservoir Alternative	4-260
4.21.2.5 Wymer Dam Plus Yakima River Pump Exchange Alternative.....	4-260
4.21.2.6 Mitigation.....	4-260
4.21.2.7 Cumulative Impacts	4-260
4.22 Indian Trust Assets	4-261
4.22.1 Affected Environment.....	4-261
4.22.2 Environmental Consequences.....	4-262
4.22.2.1 Methods and Assumptions.....	4-262
4.22.2.2 No Action Alternative.....	4-262
4.22.2.3 Black Rock Alternative.....	4-262
4.22.2.4 Wymer Dam and Reservoir Alternative	4-262

 CHAPTER 5 Affected Environment and Environmental Consequences:	
State Alternatives	5-1
5.1 Introduction.....	5-1
5.2 Water Resources	5-2
5.2.1 Affected Environment – Surface Water.....	5-2
5.2.2 Affected Environment –Water Rights	5-2
5.2.3 Environmental Consequences – Surface Water.....	5-4
5.2.3.1 Enhanced Water Conservation Alternative.....	5-5
5.2.3.2 Market-Based Reallocation of Water Resources Alternative	5-13
5.2.3.3 Groundwater Storage Alternative	5-14
5.2.4 Mitigation.....	5-15
5.2.5 Environmental Consequences – Water Rights.....	5-15

	<i>Page</i>
5.2.5.1 Enhanced Water Conservation Alternative.....	5-15
5.2.5.2 Market-Based Reallocation of Water Resources Alternative	5-17
5.2.5.3 Groundwater Storage Alternative	5-17
5.2.6 Mitigation Measures	5-18
5.3 Groundwater Resources	5-19
5.3.1 Affected Environment.....	5-19
5.3.2 Environmental Consequences.....	5-19
5.3.2.1 Enhanced Water Conservation Alternative.....	5-19
5.3.2.2 Market-Based Reallocation of Water Resources Alternative	5-19
5.3.2.3 Groundwater Storage Alternative	5-20
5.3.3 Mitigation.....	5-21
5.4 Hydropower	5-21
5.4.1 Affected Environment.....	5-21
5.4.2 Environmental Consequences.....	5-22
5.4.2.1 Enhanced Water Conservation Alternative.....	5-22
5.4.2.2 Market-Based Reallocation of Water Resources Alternative	5-22
5.4.2.3 Groundwater Storage Alternative	5-22
5.4.3 Mitigation.....	5-23
5.5 Sediment Resources	5-23
5.5.1 Affected Environment.....	5-23
5.5.2 Environmental Consequences.....	5-23
5.5.2.1 Enhanced Water Conservation Alternative.....	5-23
5.5.2.2 Market-Based Reallocation of Water Resources Alternative	5-23
5.5.2.3 Groundwater Conservation Alternative	5-24
5.5.2.4 Mitigation.....	5-24
5.6 Water Quality.....	5-25
5.6.1 Affected Environment.....	5-25
5.6.1.1 Surface Water.....	5-25
5.6.1.2 Groundwater	5-25
5.6.2 Environmental Consequences.....	5-26
5.6.2.1 Enhanced Water Conservation Alternative.....	5-26
5.6.2.2 Market-Based Reallocation of Water Resources Alternative	5-28
5.6.2.3 Groundwater Storage Alternative	5-28
5.6.3 Mitigation.....	5-31
5.7 Vegetation and Wildlife.....	5-31
5.7.1 Affected Environment.....	5-31
5.7.1.1 Shrub-Steppe.....	5-31
5.7.1.2 Movement Corridors.....	5-32
5.7.1.3 Riparian Areas (Cottonwood Recruitment)	5-32

	<i>Page</i>
5.7.1.4 Wetland Abundance and Distribution.....	5-32
5.7.2 Environmental Consequences.....	5-32
5.7.2.1 Enhanced Water Conservation Alternative.....	5-33
5.7.2.2 Market-Based Reallocation of Water Resources Alternative	5-34
5.7.2.3 Groundwater Storage Alternative	5-34
5.7.3 Mitigation.....	5-36
5.8 Anadromous Fish.....	5-36
5.8.1 Affected Environment.....	5-36
5.8.1.1 Fish Spawning and Rearing Habitat, Passage.....	5-36
5.8.2 Environmental Consequences.....	5-37
5.8.2.1 Methods and Assumptions.....	5-37
5.8.2.2 Enhanced Water Conservation Alternative.....	5-43
5.8.2.3 Market-Based Reallocation of Water Resources Alternative	5-44
5.8.2.4 Groundwater Storage Alternative	5-44
5.8.3 Mitigation.....	5-45
5.9 Resident Fish.....	5-46
5.9.1 Affected Environment.....	5-46
5.9.2 Environmental Consequences.....	5-46
5.9.2.1 Methods and Assumptions.....	5-46
5.9.2.2 Enhanced Water Conservation Alternative.....	5-49
5.9.2.3 Market-Based Water Reallocation of Water Resources Alternative	5-49
5.9.2.4 Groundwater Storage Alternative	5-49
5.9.3 Mitigation.....	5-49
5.10 Aquatic Invertebrates.....	5-49
5.10.1 Affected Environment.....	5-49
5.10.2 Environmental Consequences.....	5-49
5.10.2.1 Enhanced Water Conservation Alternative.....	5-49
5.10.2.2 Market-Based Reallocation of Water Resources Alternative	5-50
5.10.2.3 Groundwater Storage Alternative	5-50
5.10.3 Mitigation.....	5-50
5.11 Threatened and Endangered Species	5-51
5.11.1 Affected Environment.....	5-51
5.11.2 Environmental Consequences.....	5-51
5.11.2.1 Enhanced Water Conservation Alternative.....	5-51
5.11.2.2 Market-Based Reallocation of Water Resources Alternative	5-51
5.11.2.3 Groundwater Storage Alternative	5-51
5.11.3 Mitigation.....	5-52
5.12 Recreational Resources.....	5-52
5.12.1 Affected Environment.....	5-52

	<i>Page</i>
5.12.2 Environmental Consequences.....	5-52
5.12.2.1 Enhanced Water Conservation Alternative.....	5-52
5.12.2.2 Market-Based Reallocation of Water Resources Alternative	5-53
5.12.2.3 Groundwater Storage Alternative	5-53
5.12.3 Mitigation.....	5-53
5.13 Land and Shoreline Use.....	5-53
5.13.1 Affected Environment.....	5-53
5.13.1.1 Current Land Use.....	5-53
5.13.1.2 Shoreline Management Act, 1972.....	5-55
5.13.1.3 Tribal and Federal Lands	5-58
5.13.2 Environmental Consequences.....	5-58
5.13.2.1 Enhanced Water Conservation Alternative.....	5-58
5.13.2.2 Market-Based Reallocation of Water Resources Alternative	5-59
5.13.2.3 Groundwater Storage Alternative	5-60
5.13.3 Mitigation.....	5-60
5.14 Socioeconomics	5-60
5.14.1 Affected Environment.....	5-61
5.14.1.1 Value of Goods and Services.....	5-61
5.14.1.2 Jobs and Incomes	5-63
5.14.1.3 Distribution of Costs and Benefits.....	5-64
5.14.1.4 Socioeconomic Structure	5-64
5.14.1.5 Uncertainty and Risk.....	5-67
5.14.2 Environmental Consequences.....	5-67
5.14.2.1 Enhanced Water Conservation Alternative.....	5-67
5.14.2.2 Market-Based Reallocation of Water Resources Alternative	5-69
5.14.2.3 Groundwater Storage Alternative	5-72
5.14.3 Mitigation Measures	5-73
5.15 Public Services and Utilities	5-75
5.15.1 Affected Environment.....	5-75
5.15.1.1 Water Supply and Regional Water Use	5-75
5.15.1.2 Public Services.....	5-75
5.15.1.3 Public Utilities	5-75
5.15.2 Environmental Consequences.....	5-75
5.15.2.1 Enhanced Water Conservation Alternative.....	5-76
5.15.2.2 Market-Based Reallocation of Water Resources Alternative	5-76
5.15.2.3 Groundwater Storage Alternative	5-77
5.15.3 Mitigation.....	5-77
5.16 Transportation	5-78
5.16.1 Affected Environment.....	5-78
5.16.2 Environmental Consequences.....	5-78

	<i>Page</i>
5.16.2.1 Enhanced Water Conservation Alternative.....	5-78
5.16.2.2 Market-Based Reallocation of Water Resources Alternative	5-78
5.16.2.3 Groundwater Storage Alternative	5-80
5.16.3 Mitigation.....	5-80
5.17 Air Quality	5-81
5.17.1 Affected Environment.....	5-81
5.17.2 Environmental Consequences.....	5-81
5.17.2.1 Enhanced Water Conservation Alternative.....	5-81
5.17.2.2 Market-Based Reallocation of Water Resources Alternative	5-81
5.17.2.3 Groundwater Storage Alternative	5-82
5.17.3 Mitigation.....	5-82
5.18 Noise	5-83
5.18.1 Affected Environment.....	5-83
5.18.2 Environmental Consequences.....	5-83
5.18.2.1 Enhanced Water Conservation Alternative.....	5-83
5.18.2.2 Market-Based Reallocation of Water Resources Alternative	5-83
5.18.2.3 Groundwater Storage Alternative	5-83
5.18.3 Mitigation.....	5-84
5.19 Visual Resources.....	5-84
5.19.1 Affected Environment.....	5-84
5.19.2 Environmental Consequences.....	5-85
5.19.2.1 Enhanced Water Conservation Alternative.....	5-85
5.19.2.2 Market-Based Reallocation of Water Resources Alternative	5-85
5.19.2.3 Groundwater Storage Alternative	5-86
5.19.3 Mitigation Measures	5-86
5.20 Cultural Resources	5-87
5.20.1 Affected Environment.....	5-87
5.20.2 Environmental Consequences.....	5-87
5.20.2.1 Enhanced Water Conservation Alternative.....	5-87
5.20.2.2 Market-Based Reallocation of Water Resources	5-88
5.20.2.3 Groundwater Storage	5-89
5.20.3 Mitigation Measures	5-89
5.21 Public Health and Safety.....	5-90
5.21.1 Affected Environment.....	5-91
5.21.2 Environmental Consequences – Hazardous Materials.....	5-91
5.21.2.1 Enhanced Water Conservation Alternative.....	5-91
5.21.2.2 Market-Based Reallocation of Water Resources Alternative	5-91
5.21.2.3 Groundwater Storage Alternative	5-92
5.21.3 Mitigation.....	5-92

	<i>Page</i>
5.21.4 Environmental Consequences – Mosquitoes	5-93
5.21.4.1 Enhanced Water Conservation Alternative.....	5-93
5.21.4.2 Market-Based Reallocation of Water Resources Alternative	5-93
5.21.4.3 Groundwater Storage Alternative	5-93
5.21.5 Mitigation.....	5-94
5.22 Cumulative Impacts	5-94
CHAPTER 6 Consultation and Coordination.....	6-1
6.1 Public Involvement	6-1
6.1.1 Scoping Process	6-1
6.1.1.1 Public Scoping Meetings	6-2
6.1.1.2 Comments and Other Information Received from the Public.....	6-2
6.1.2 Public Hearings and Review of Draft PR/EIS	6-4
6.1.3 Other Meetings Held with Interested Parties	6-4
6.1.3.1 Public Meetings	6-4
6.1.3.2 Meetings with the Yakama Nation	6-4
6.1.3.3 Stakeholder Meetings.....	6-5
6.1.3.4 Roundtable Meetings	6-6
6.1.3.5 Technical Working Group Meetings	6-7
6.1.3.6 Other Meetings/Presentations with Interested Parties	6-7
6.2 Agency Coordination and Consultation.....	6-8
6.2.1 Cooperating Agencies.....	6-8
6.2.2 U.S. Fish and Wildlife Service	6-9
6.2.2.1 Endangered Species Act	6-9
6.2.2.2 Fish and Wildlife Coordination Act.....	6-9
6.2.3 NOAA Fisheries.....	6-9
6.2.4 U.S. Army Corps of Engineers	6-10
6.2.5 State Historic Preservation Officer	6-10
6.3 Tribal Consultation and Coordination	6-10
6.3.1 Government-to-Government Consultation	6-10
6.3.2 National Historic Preservation Act	6-11
6.3.3 Executive Order 13007: Indian Sacred Sites	6-11
6.3.4 Indian Trust Assets	6-11
6.4 Native American Graves Protection and Repatriation Act	6-12
6.5 Compliance with Other Federal Laws	6-12
6.5.1 Executive Order 11988: Floodplain Management.....	6-12
6.5.2 Executive Order 11990: Protection of Wetlands	6-12
6.5.3 Executive Order 12898: Environmental Justice	6-12

Tables

<i>Table No</i>		<i>Page</i>
Table 1.1	Monthly flow objectives (cfs) for an average water year for the Easton, Cle Elum River, Ellensburg, Wapato, and lower Naches River reaches.....	1-3
Table 1.2	Yakima Project irrigation divisions and stored water source	1-14
Table 2.1	Title XII target flows	2-3
Table 2.2	Monthly flow objectives and volumes for an average water year for the Easton reach, Cle Elum River, and Ellensburg, Wapato, and lower Naches River reaches.....	2-4
Table 2.3	Yakima River basin annual water entitlements	2-6
Table 2.4	Municipal and domestic water needs for years 2000, 2010, 2020, and 2050.....	2-7
Table 2.5	Conserved water resulting from water conservation measures for the No Action Alternative	2-22
Table 2.6	Middle Yakima River area instream flow associated with water conservation actions from river mile 127.9 to 103.7	2-23
Table 2.7	Changes in hydrologic indicators under the No Action Alternative compared to the current operation for the 25-year period of record.....	2-28
Table 2.8	Differences in Title XII target flows downstream from Sunnyside Diversion Dam—current Yakima Project operation compared to No Action Alternative.....	2-28
Table 2.9	Gages and stream reaches	2-29
Table 2.10	Seasonal flow volume objectives and model results for the Umtanum and Parker gages for an average water year.....	2-31
Table 2.11	Differences between the No Action Alternative flows and flow volume objectives by season.....	2-31
Table 2.12	Differences in flow between Black Rock, Wymer Dam and Reservoir, and Wymer Dam Plus Yakima River Pump Exchange Alternatives and No Action Alternative.....	2-35

<i>Table No</i>		<i>Page</i>
Table 2.13	Irrigation proration level for the No Action Alternative compared to the current operation for the 25-year period of record.....	2-36
Table 2.14	Summary of major facilities for the Black Rock Alternative.....	2-42
Table 2.15	Total project costs for Black Rock Alternative.....	2-43
Table 2.16	Annual operation, maintenance, replacement, and pumping energy costs	2-43
Table 2.17	Seasonal flow targets and planning dates for the mainstem Columbia River	2-44
Table 2.18	Columbia River volumes available for pumping for the 25-year period of record.....	2-45
Table 2.19	Black Rock pumping volumes for the 25-year period of record.....	2-47
Table 2.20	Sources of water supply of exchange participants for the Black Rock Alternative for the 25-year period of record.....	2-48
Table 2.21	Black Rock reservoir end-of-month contents for the 25-year period of record based on the water delivery criteria	2-48
Table 2.22	Columbia River water available, water pumped to Black Rock reservoir, and Black Rock reservoir end-of-month reservoir contents	2-49
Table 2.23	Operation criteria for flow objectives at the Parker gage ...	2-50
Table 2.24	Reaches and volume of future municipal water supply	2-51
Table 2.25	Integrated Black Rock Alternative – Yakima Project operation criteria	2-52
Table 2.26	Changes in hydrologic indicators under the Black Rock Alternative compared to the No Action Alternative for the 25-year period of record.....	2-52
Table 2.27	Irrigation proration level for the Black Rock Alternative compared to the No Action Alternative	2-53
Table 2.28	Municipal proration level under the Black Rock Alternative.....	2-54
Table 2.29	Black Rock Alternative benefit-cost ratio.....	2-55
Table 2.30	Summary of major facilities for the Wymer Dam and Reservoir Alternative	2-57
Table 2.31	Total project costs—Wymer Dam and Reservoir Alternative.....	2-59
Table 2.32	Annual operation, maintenance, replacement, and pumping energy costs	2-59
Table 2.33	Additional Cle Elum Lake releases pumped to the 82,500 acre-feet of Wymer reservoir active capacity for the 25-year period of record.....	2-60

<i>Table No</i>		<i>Page</i>
Table 2.34	Yakima River volume available in excess of 1,475 cfs and volume pumped to the 80,000 acre-feet of Wymer reservoir active capacity for the 25-year period of record.....	2-61
Table 2.35	Wymer reservoir storage contents for the 25-year period of record.....	2-62
Table 2.36	Integrated Wymer Dam and Reservoir Alternative – Yakima Project operation criteria	2-63
Table 2.37	Changes in hydrologic indicators under the Wymer Dam and Reservoir Alternative compared to the No Action Alternative for the 25-year period of record	2-64
Table 2.38	Irrigation proration level for the Wymer Dam and Reservoir Alternative compared to the No Action Alternative.....	2-65
Table 2.39	Municipal water supply available during prorated years with the Wymer Dam and Reservoir Alternative	2-66
Table 2.40	Wymer Dam and Reservoir Alternative benefit-cost ratio	2-66
Table 2.41	Design components of the Yakima River pump exchange	2-69
Table 2.42	Total project costs for Wymer Dam Plus Yakima River Pump Exchange Alternative.....	2-71
Table 2.43	Annual operation, maintenance, replacement, and pumping energy costs for Wymer Dam Plus Yakima River Pump Exchange Alternative.....	2-71
Table 2.44	Source of water supply for exchange participants	2-72
Table 2.45	Integrated Wymer Dam Plus Yakima River Pump Exchange Alternative – Yakima Project operation criteria	2-74
Table 2.46	Changes in hydrologic indicators under Wymer Dam Plus Yakima River Pump Exchange Alternative compared to the No Action Alternative for the 25-year period of record.....	2-74
Table 2.47	Wymer Dam Plus Yakima River Pump Exchange Alternative.....	2-76
Table 2.48	Benefit-cost analysis summary	2-77
Table 2.49	Upfront construction costs and annual OMR&E costs by alternative.....	2-79
Table 2.50	Water entitlements by district.....	2-81
Table 2.51	Agricultural benefits analysis by alternative.....	2-83
Table 2.52	Black Rock reservoir visitation projections.....	2-87
Table 2.53	Wymer reservoir visitation projections.....	2-89
Table 2.54	Differences in recreation visitation and value at existing sites under Black Rock Alternative.....	2-91

Yakima River Basin Water Storage
Feasibility Study Draft PR/EIS

Table 2.57	Hydropower benefits for the Black Rock Alternative	2-94
Table 2.58	Economic values per fish by species and harvest category	2-97
Table 2.59	Annual increment in fish harvest as compared to No Action Alternative.....	2-98
Table 2.60	Discounted 100-year stream of fisheries use values by alternative.....	2-98
Table 2.61	Comparative display of the NED and RED accounts for the Draft PR/EIS.....	2-104
Table 2.62	Environmental quality resource categories and weights.....	2-106
Table 2.63	Comparative display of the EQ account for the Draft PR/EIS	2-106
Table 2.64	OSE resource categories and weights	2-107
Table 2.65	Comparative display of the OSE account for the Draft PR/EIS	2-107
Table 2.66	Comparative display of alternatives.....	2-108
Table 2.67	Water available for an enlarged Bumping Lake and exchanged with the upper Yakima River reservoirs in an average water year	2-112
Table 2-68	Number of days available for exchange between Bumping Lake and the upper Yakima River basin.....	2-112
Table 2.69	Comparative analysis of Joint Alternatives by indicator: Yakima River Basin Water Storage Study Draft PR/EIS.....	2-115
Table 3.1	Conserved water resulting from enhanced water conservation measures – Yakima River water users	3-5
Table 3.2	Conserved water resulting from enhanced water conservation measures – Naches River water users	3-7
Table 3.3	Impacts summary	3-23
Table 4.1	Title XII target flows	4-3
Table 4.2	Yakima River basin annual water entitlements	4-7
Table 4.3	Hydrologic indicators.....	4-8
Table 4.4	Yakima Project total reservoir contents and Cle Elum Lake contents	4-9
Table 4.5	Flow volume downstream from the Parker gage for April-September and July-September	4-10
Table 4.6	Pacific Northwest Region meteorological trends during 1916-2003 and 1947-2003.....	4-16

<i>Table No</i>		<i>Page</i>
Table 4.7	Scenario changes in climate analyzed by Hamlet and Lettenmaier, 1999	4-18
Table 4.8	Scenario changes in natural runoff at The Dalles, simulated by Hamlet and Lettenmaier, 1999	4-18
Table 4.9	Change in April-August natural runoff at various Yakima River basin locations based on a 3.6 °F (2 °C) warming scenario	4-19
Table 4.10	Model-based estimates of total annual reservoir seepage rates	4-36
Table 4.11	Summary of hydroelectric projects in the mid-Columbia River system	4-42
Table 4.12	Black Rock Alternative monthly pumping power requirements and costs	4-45
Table 4.13	Monthly difference in non-Federal, Federal, and regional combined non-Federal and Federal Columbia River hydropower generation related to operation of the Black Rock Alternative	4-47
Table 4.14	Average monthly pumping power requirements, costs, and energy rates	4-48
Table 4.15	Yakima River pump exchange component of Wymer Dam Plus Yakima River Pump Exchange Alternative: average monthly pumping energy requirements, costs, and energy rates	4-49
Table 4.16	Average annual pumping power requirements and costs.....	4-50
Table 4.17	Percentage difference in average annual gravel load, by Yakima River reach, between each Joint Alternative and No Action Alternative	4-54
Table 4.18	Maximum annual bed scour in inches and centimeters during the egg incubation period for steelhead, salmon, and rainbow trout for the Easton, Ellensburg, Wapato, and lower Naches River reaches of the Yakima River	4-55
Table 4.19	Shrub-steppe habitat at major facility sites	4-74
Table 4.20	Known and potential wildlife species within affected shrub-steppe habitats.....	4-76
Table 4.21	Significance of hydrograph components for cottonwood reproduction for water year types	4-85
Table 4.22	10-year anadromous salmonid adult counts downstream from Priest Rapids Dam.....	4-95
Table 4.23	Summary of the upstream (adults) and downstream (juveniles) migration timing for anadromous salmonids in the Hanford reach and at Priest Rapids Dam	4-95
Table 4.24	Annual Yakima salmon and steelhead adult counts at Prosser Diversion Dam (RM 47)	4-96
