## BUREAU OF RECLAMATION

Upper Colorado Region  
Provo Area Office  
302 East 1860 South  
Provo, Utah 84606-7317

**JAN 25 2007**

IN REPLY REFER TO:

PRO-774  
ENV-6.00

To Interested Persons, Organizations, and Agencies:

Subject: Huntington North Final Environmental Assessment and Finding of No Significant Impact

Please be advised that in compliance with National Environmental Policy Act (NEPA) requirements, Bureau of Reclamation (Reclamation) has completed the Huntington North Dam Outlet Works Modification and Carriage of Non-Project Water through Emery County Project Facilities Final Environmental Assessment (EA) and a Finding of No Significant Impact (FONSI). We have enclosed a copy of these documents for your information.

The proposed action analyzed in this EA and approved in the FONSI, is to allow carriage of non-project water through Emery County Project facilities by a contract among Reclamation, Huntington Cleveland Irrigation Company, and the Emery Water Conservancy District. The contract will allow conveyance of 14,074 acre-feet per year of non-project water for irrigation and incidental stock watering. The outlet works of Huntington North Dam will be modified by connecting a pressurized irrigation pipeline into the existing outlet works. The proposed action will require deactivating the existing spillway and constructing a new spillway.

The final EA and FONSI are also available on the internet at [www.usbr.gov/uc/envdocs/index.html](http://www.usbr.gov/uc/envdocs/index.html). If you have any questions, please contact Mr. Peter Crookston, Bureau of Reclamation, Provo Area Office, (801-379-1152). The address is 302 East 1860 South, Provo, Utah 84606-7317, or e-mail, [pcrookston@uc.usbr.gov](mailto:pcrookston@uc.usbr.gov).

Sincerely,

Bruce C. Barrett  
Area Manager
