Subject: Follow Up from AMWG Conf Call

Listed below is the motion that was passed by consensus on today's conference call:

"The AWWG considers the impacts of quagga mussel invasion to be a serious threat to the Colorado River system and water management facilities throughout the Colorado River Basin. This problem is beyond the geographical and financial responsibilities of the GCD AMP; however, we recognize that all AMP organizations may be negatively affected by this new invasion. The AMWG recommends to the Secretary that he secure resources to direct the development and prompt implementation of risk assessment, education, prevention/containment, and science elements in order to limit the wide-ranging damages that may be caused by a quagga mussel invasion of the Colorado River system."

The following items require response/action from AMWG members:

1. Due Friday, May 25 to Dennis Kubly: Feedback on the FY08 Draft Budget
2. Due Friday, May 25 to John Hamill: Volunteers willing to participate in the Planning Committee for the AMP Effectiveness Workshop. John is looking for volunteers from the AWMG, TWG, GCMRC, and the Science Advisors. So far, Steve Martin (NPS) is the only AMWG member who has volunteered. If you have any questions, please give John a call (928-556-7364).
3. Due Friday, May 25 to Linda Whetton: AMWG member and alternate availability for the last two weeks in August (20-31) and the first two weeks in September (4-14).
4. Due Friday, June 15 to John Hamill: Comments on the Scope of Work for the AMP Effectiveness Workshop
5. Due Friday, June 29 to Randy Peterson: Comments on the Roles Ad Hoc Group Report

Attached is the memo Rick Gold mentioned that we received from Deputy Secretary Lynn Scarlett, Subject: Response to Adaptive Management Work Group Recommendations.

Hope you all have a nice and safe 3-day weekend!
