Linda,

Based on my notes the PEP Review report is for the GCMRC's survey PEP review (that is the geo-referencing and mapping of the river corridor). Other agenda items would be the Oracle database presentation (information), feasibility study HBC report; tribal consultation plan (presented by Lorretta Jackson and Dean Suagee); and perhaps a report on the cultural resource's research design and historic contexts draft report presented by the GCMRC.

Kurt

Subject: Request for Information

At the TWG Meeting held on February 26-27, it was decided to poll the members on whether they wanted to have a partial "Target Setting Workshop" before or after the May 28-29 TWG meeting. Ted confirmed with Josh Korman and Bob Webb that they don't have any conflicts for the week of May 26-30, but keep in mind that May 26 is the Memorial Day holiday. The schedule would be as follows:

Tue., May 27 - start workshop at 1:00, end at 5 p.m.
(could also schedule use of the model later at the hotel)

Wed., May 28 - continue workshop at 8 a.m., conclude at noon

BREAK FOR LUNCH

Wed., May 28 - TWG Meeting from 1-5 p.m.

Thu., May 29 - TWG Meeting from 8-noon

Please let me know if you plan on attending the workshop and/or TWG meeting. If you absolutely can't make the above schedule, let me know an alternative but keep in mind some TWG members prefer not to travel out of PHX on a Friday afternoon.

Thank you.

Subject: AMWG Meeting Packets

In an effort to save on paper and mailing costs, I would like to request the AMWG alternates advise me ahead of time if they would like to receive an AMWG pre-meeting packet. I know in the past there have been several AMWG alternates who normally don't attend AMWG meetings and their copies could be reserved for requests from interested persons or made available at the meeting for the general public. The pre-meeting documents are also posted on the AMWG Meeting web page so alternates could use that as a means of keeping informed of AMWG business.

The meeting packets will most likely be mailed by close of business today (regular mail). Please advise me as soon as possible if you would like to receive a meeting packet.

Thank you.

Subject: Adaptive Management Work Group Meeting

This is to advise that the meeting packets for the Glen Canyon Dam Adaptive Management Work Group meeting to be held on May 29, 2003, in Phoenix, Arizona were mailed yesterday to all the AMWG members. The documents included in the packet have also been posted to the following Reclamation web page:

http://www.uc.usbr.gov/envprog/amp/amwg/mtgs/03may29/mtga4_00.html

Just a reminder that this meeting will be devoted entirely to development of the comprehensive research and management program identified by the AMWG at the January 29, 2003 meeting. The HBC Ad Hoc Group has developed an interim report for your consideration and requests you provide feedback on completion of the report. The Ad Hoc Group will continue to work on the comprehensive program, including project proposals and projected budgets, and will have updated versions available for the AMWG on May 29. In addition to the report, background information on humpback chub and the recovery goals for that endangered species will be provided by Steve Gloss, Carl Walters, and Rich Valdez. The concept of a recovery implementation plan has been discussed previously by the AMWG, so Clayton Palmer will make a presentation relating his experiences with the Upper Colorado Recovery Implementation Program. No discussion or consideration of a recovery implementation plan has yet been had by the Technical Work Group, but it seemed appropriate for the AMWG to learn more about this concept. The final discussion of the day, at 4 p.m., is included for the AMWG to consider all aspects of the preceding discussions and to provide global feedback to the HBC Ad Hoc Group.

If you would like a meeting packet, please call me or respond to this message indicating if you would like it mailed to you or held on reserve for pick up at the start of the meeting.

Attached is the agenda for the meeting.
