Dear Project Manager:

Hey guys, I'm Elena Hancock and I have grown up spending summers at Lake Powell! Lake Powell has been a treasure to my family for generations, my great grandparents raised there kids there, my grandparents raised my parents there, my brother and I have been raised there, and I pray someday I will be able to raise my kids and grandchildren there! Lake Powell is so much more than a lake, it's a place people cherish and create so many memories. It is so important to raise the water level at Lake Powell because it does hold so many memories and we want generations to come to be able to enjoy it! Lake Powell holds such a big part of my heart and holds a big part of many others hearts. I pray you will consider helping us out with this plan to help raise the lake water levels, and create an opportunity for so many more generations to experience!

Thank you so much for your time!

Sincerely,

Elena Hancock

Sincerely,

Elena Hancock
