Good morning,

Thank you for the informative webinar. MS Teams however was very much problematic and the presentation kept switching to the presenter or to a blank screen and I was in the listening mode for a large portion of the meeting. I understand the decision is to post the slides and recording after Friday, but for those of us that made the effort to be present and listen in to the webinar today it is somewhat problematic to not have the slides to back up a report to our management.

I request Reclamation to rethink your decision to post the slides after Friday's webinar and instead post it to the webpage today itself. It is okay for the recording to be posted on Friday. Thank you for your consideration.

Vineetha
