Dear Project Manager:

My family and I have been avid recreational boaters for over 20 years, and utilize take Mead recreational area every summer. Boating is a great opportunity to enjoy our National parks and spend time with the family.

It also provides business around the Lake Mead area vital revenue and employment.

It is very concerning to me that there is a possibility that the boating launch ramps to Lake Mead will not be maintained and possibly shutdown. I urge you to reconsider and any decision that is made will not include the closure of the launch ramps thus ending recreational boating at Lake Mead.

Matthew McNulty

Sincerely,

Matthew McNulty
