Dear Project Manager:

I am part of the Gripentog family that owns and operates Las Vegas Boat Harbor, Inc. We are one of the largest inland marinas in the nation. My Grandparents started this business in 1957. Before Lake Mead was a National Recreational Area.

When we say Lake Mead is our Life we really mean Lake Mead is our life. We all grew up on Lake Mead, we play on Lake Mead, we work on Lake Mead, Lake Mead is everything to us.

Now I have kids. My kids play on Lake Mead. My 16 year old is trying to get into the water ski race tournaments. If Lake Mead is not around where is she going to practice.

The federal Government made Lake Mead into a National Recreational Area. The first National Recreational Area in the Park Service System! Lake Mead is not just a pain National Park where you can only hike and bike and not touch anything! A National Recreational Area is more exciting. You can do more activities in the park. Lake Mead is also one of the biggest parks in the system! And number 10 as the most visited.

Lake Mead needs to be saved. We cannot let Federal Government shut it down. The BOR needs to re-look at the water right. California needs to look at how Southern Nevada uses reclaim water plan.

Thank you, for reading my comments.

Sincerely,

Erin Charlesworth
