

## Drought Response Operations Summary Sheet

The tables below reflect operations under the Drought Response Operating Agreement (DROA), beginning in 2021, including 2021 releases under DROA II(A)(3)(j), the 2022 DROA Plan, and the 2023 DROA Plan.<sup>1</sup> These tables will be updated on a monthly basis to reflect Drought Response Operations, which include releases and recovery.

Drought Response Operations may differ from planned operations due to changes in hydrologic conditions and real-time operations. All units are in thousands of acre-feet (kaf). Positive values indicate Drought Response Operations Releases, and negative values indicate Drought Response Operations Recovery. Recovery volumes are provisional and subject to discussion among DROA parties.

DRO Year	Month	Flaming Gorge				Blue Mesa				Navajo				Monthly Total DRO				DROA Year Completed DRO - Cumulative Total	All Completed DRO - Cumulative Total

Mar-24																	-489	0	
Apr-24																	-489	0	

\*Recovery Volumes displayed in this table are based on historical operations and do not include forward looking recovery projections. Independent of recovery described in this table, Blue Mesa is anticipated to achieve recovery on December 31, 2023 by meeting the icing target, and Flaming Gorge is anticipated to achieve full recovery by meeting the May 1, 2024 drawdown target.
