Participant's,

This is just an FYI. There is to be a transmission meeting morning of Thursday, April 6. The attached questions have been forwarded to your transmission counterparts. We will leave it to your respective representative as to whether and how you answer these questions. I believe, APS and LA/NVE will be leading these discussions, but not sure how these answers will help evaluate whether the NN wants to participate in ownership of the lines.

Subject: NGS Transmission Questions

Hey Derek,

As discussed, would you please send any questions NTUA has regarding NGS transmission today please? Our transmission folks will need to have time to use those questions as the basis for our meeting on Thursday, 4/6.

Thanks,

Dan Wilson
