MEMORANDUM

To: Reclamation Leadership Team
See attached list

From: Lowell D. Pimley 
Deputy Commissioner, Operations JUL 8 2013

Subject: Coordination and Oversight Group (COG) Annual Report for Fiscal Year 2012

I am pleased to distribute the COG Annual Report for FY 2012. The report is available to Reclamation, the public, and stakeholders through Reclamation's webpage at <http://www.usbr.gov/bp/tr.html>.

Several areas of strength were identified, including the positive results of the COG's analysis of technical capabilities which identified no new areas of concern. Progress continues to be made on previous action plans for endangered capabilities as well as implementation of Project Management.

I appreciate your efforts to support the COG as well as the Project Management Implementation Team. As a result of this year's review, the COG will investigate the effectiveness of the Advance Planning Protocol by evaluating the data collection and distribution processes, and review the progress being made on the implementation of the Project Management Framework.

If you have any questions or require additional information, please contact me at lpimley@usbr.gov or 202-513-0508.
