

**Legislative Proposal
San Joaquin River Restoration Fund**

The San Joaquin River Restoration Fund (Fund) would be authorized by the San Joaquin River Restoration Settlement Act (pending). This Fund was established to receive funding from the Friant Division long-term contractors and other Federal and non-Federal sources to implement the provisions described in the Stipulation of Settlement (Settlement) for the NRDC et al. v. Rodgers lawsuit.

The FY 2008 request will provide funding for implementation of both the restoration and water management goals of the Settlement.

BUDGET AND PERFORMANCE INTEGRATION: This project is aligned with the following *Department of the Interior's Strategic Plan* end outcome goal(s): Deliver Water.

WORK PROPOSED FOR FY 2008

San Joaquin River Restoration Program (\$0)

Settlement Implementation - Funding in FY 2008 will be used to continue planning, engineering, environmental compliance, fishery management, water operations, and public involvement activities related to the restoration and water management goals in the Settlement. The Restoration goal is to restore and maintain fish populations in "good condition" in the main stem of the San Joaquin River below Friant Dam to the confluence of the Merced River, including naturally-reproducing and self-

sustaining populations of salmon and other fish. The Water Management goal is to reduce or avoid adverse water supply impacts to all of the Friant division long-term contractors that may result from the Interim Flows and Restoration Flows provided for in the Settlement.

Reclamation Allotment

\$17,300,000
