

Bureau of Reclamation FY 2026 Additional Funding Allocation Recommendations			
Category/Project	Activity/Description	State(s)	Amount (\$000's)
<b>Rural Water</b>			
Pick-Sloan Missouri Basin Program, Garrison Diversion Unit	Funding provided for the Eastern North Dakota Alternate Water Supply project.	North Dakota	\$ 50,000
Eastern New Mexico Rual Water Supply Project	Funding continues construction of the Raw Water 1 & 2 pipeline.	New Mexico	\$ 25,000
<b>Rual Water Total:</b>			<b>\$ 75,000</b>
<b>Water Conservation and Delivery</b>			
<b>Water Conservation and Delivery - non WIIN</b>			
WEB Water Expansion to the Town of Aberdeen	Funding will support a regional water supply project as part of the Water Investment in Northern South Dakoka project to provide a reliable water source to rural water providers and communities.	South Dakota	\$ 20,300
Aamodt Litigation Settlement	Funding will support continued construction and implementation of water system infrastructure under the Aamodt Indian Water Rights Settlement. In FY 2026, funds will advance infrastructure completion, system integration, and activities necessary to progress toward full operational capability and delivery of a reliable water supply to the four Aamodt Pueblos.	New Mexico	\$ 20,000
Colorado River Basin Project-Central Arizona Project	Tribal Firming	Arizona	\$ 10,000
Yuma Area Projects - Brock Reservoir	Funding supports the Brock Reservoir Gates Replacement project to replace up to eleven aging control gates and upgrading associated mechanical, electrical, security, SCADA, emergency power, and safety systems, with continuous inspection and construction support required for technical oversight, commissioning, training, and hazardous material handling.	California	\$ 5,000
Yuma Area Projects - Excees Flows	Funding will develop an appraisal study design report, drawings, and quantity estimate worksheets for selected alternatives identified in the FY2023 Value Planning Study to capture excess flows along the Colorado River downstream of Parker Dam and upstream of the Republic of Mexico border water that is critical for addressing Arizona water shortages and improving river operations.	Arizona, California	\$ 4,000
Lower Colorado River Operations Program	Funding supports additional system conservation agreements for Lake Mead water savings under the 2019 Drought Contingency Plans.	Arizona, California, Nevada	\$ 1,000
CVP Environmental Compliance and Ecosystem Development	Funding will support improved data modeling and Artificial Intelligence implementation into gauging stations to for the use of hydrologic, hydraulic, and ecological simulation tools to understand, predict, and manage water flows, salinity, sediment, and ecosystem conditions in the Sacramento-San Joaquin Delta and San Francisco Bay—a critical water hub for California.	California	\$ 4,700
Research and Development, Science and Technology Program	Funding will develop and deploy strategic activities to position Reclamation to respond to forthcoming AI implementation policies and maximize the potential value for Reclamation.	Bureauwide	\$ 359
<b>Total Water Conservation and Delivery - non-WIIN</b>			<b>\$ 65,359</b>
<b>WIIN Section 4007</b>			
	Allocations are TBD		\$ 62,500
<b>Total Water Conservation and Delivery - WIIN 4007</b>			<b>\$ 62,500</b>
<b>Water Conservation and Delivery Total:</b>			<b>127,859</b>
<b>Environmental Restoration or Compliance</b>			
Environmental Compliance Actions	Funding will support ongoing environmental compliance and implementation activities required to meet Federal fish and wildlife and environmental obligations associated with Reclamation-managed projects, including activities affecting operations in California. Funding will be used for planning, design, and implementation actions that support fish protection and passage, environmentally driven water management and delivery actions, and other compliance-related measures necessary to meet the requirements of applicable biological opinions, settlement agreements, and environmental statutes. Funding will also support required coordination with Federal, State, Tribal, and local partners to carry out these implementation actions.	California	\$ 5,000
<b>Environmental Restoration or Compliance</b>			<b>5,000</b>
