Kevin,

If we could have a call earlier in the day tomorrow (Wednesday) that would be great. Some of our Senior Management will be participating.

1. We have some real issues with SRP message on the costs of the fuel, Given SRP is not being transparent with their costs at the plant.
2. If they are not competitive with natural gas today at over \$3, why did they not say something the past several years when it was lower.
3. Our Senior Management met today with the Navajo Nation President and Speaker of the Council and we are united in keeping this project going forward.
4. We would like to hear how BOR feels about this.

Kevin,

Are you available to meet with us tomorrow?

We met with the Navajo Nation today and will be meeting with the Hopi Tribe on Thursday.

We are willing to drive or fly to wherever suits you as this is an urgent matter regarding the continuation of NGS.

I appreciate your consideration on this short notice.
