

## MANAGER-INFRASTRUCTURE AND ENGINEERING TIM FLANAGAN

Tim Flanagan serves as Infrastructure and Engineering Services Manager for the Bureau of Reclamation's Great Plains Region, headquartered in Billings, Mont. Flanagan's duties include oversight of Facility Operation Services, Engineering Design and Support, Construction Services, Geology and Exploration Services and Power Operations & Maintenance.

Flanagan is responsible for providing professional and technical services and oversight for the safe operation of the region's project facilities; including storage and diversion dams, power and pumping plants, canals, aqueducts, pipelines, tunnels, roads, bridges, recreation sites, buildings, water treatment plants and associated features.

Flanagan has been with the Bureau of Reclamation for more than 23 years. His previous experience includes working with an engineering consulting firm in Denver for six years prior to joining Reclamation, where he performed work related to urban storm drainage and flood control.

Flanagan earned the Great Plains Engineer of the Year Award in 2010. He was the first Regional Security Officer in the Great Plains Region, serving in that position from 1999 to 2009.

Flanagan earned Bachelor and Master of Science degrees in Civil Engineering from Montana State University. He is a registered professional engineer in Montana and Colorado.

Reclamation is the largest wholesale water supplier and the second largest producer of hydroelectric power in the United States, with operations and facilities in the 17 Western States. Its facilities also provide substantial flood control, recreation, and fish and wildlife benefits. Visit our Web site at [www.usbr.gov/gp](http://www.usbr.gov/gp).
