

## WYOMING AREA MANAGER CARLIE RONCA

Carlie Ronca is the Area Manager for Reclamation's Wyoming Area Office based in Mills, Wyoming. She is responsible for the management of the area's portion of the Pick-Sloan Missouri Basin Program, the Shoshone Project in the Bighorn River Basin, and the North Platte and Kendrick Projects in the North Platte River Basin. The Area Office annually provides approximately 2.8 million acre-feet of water releases, 800 gigawatt-hours of hydroelectric power generation, and manages over one half million acres of land for beneficial uses.

Prior to the Area Manager position, Ronca was the Resources Division Chief for the Eastern Colorado Area Office in Loveland, Colorado. In that capacity, she managed Project water rights and operations, operations and maintenance of Pueblo dam, water contract administration, and natural resources compliance and management. A graduate of the Reclamation Executive Leadership Program, Ronca has been recognized by customers and stakeholders for her service-oriented approach and ability to produce collaborative and creative solutions to complex issues. Ronca joined Reclamation in 2006

as a Natural Resource Specialist and Project Manager.

After serving some years in the state public sector, she began her federal career in 1999 in the natural resources fields for the National Park Service. Ronca holds a Master of Science in Biology and Bachelor of Science in Biology and General Science.

Reclamation is the largest wholesale water supplier and the second largest producer of hydroelectric power in the United States, with operations and facilities in the 17 Western States. Its facilities also provide substantial flood control, recreation, and fish and wildlife benefits. Visit our Web site at [www.usbr.gov/gp](http://www.usbr.gov/gp).
