<b>Total</b>	<b>566,273</b>	<b>518,690</b>	<b>421,039</b>	<b>81%</b>	<b>76%</b>	<b>80%</b>

# ACRE-Feet SUPPLY RESERVOIR CONTENTS 3/7/2022

A horizontal teal banner with a background of water droplets and ripples. The text "Expected Operations in 2022" is centered in white.

# Expected Operations in 2022

# Denver Water Operations in 2022

## Dillon

- Fill in wet plan, 85-90% full under dry and normal conditions
- Will likely run Roberts for most of the irrigation season and over next winter
- Roberts Tunnel inspection scheduled for September

## Williams Fork

- Close to full in wet plan, 85-90% full under dry and normal conditions
- Likely Substitution year if average to dry
- Expect limited Wolford Substitution supply

# Denver Water Operations in 2022

## Fraser Basin/Moffat Tunnel

- Gross Reservoir Expansion Project expected to start in 2022, storage limited to around 65-65% of normal
- Moffat Tunnel diversions expected to meet demands during much of the irrigation season 75 to 150 cfs.
- Upper Williams Fork Collection System diversions will be limited during runoff
