Subject: Goose Bay Marina Berm and Beach, Broadwater County, Montana. MTAO Project No. CF-21-006

Dear Mr. Brown:

The Montana Area Office of the Bureau of Reclamation (Reclamation) is planning on the subject undertaking at the Goose Bay Marina to construct a protective berm and new beach. The proposed undertaking is located in T9N, R1E in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ , SE $\frac{1}{4}$ NW $\frac{1}{4}$  of Section 14 in Broadwater County, Montana. Enclosed are a work request, describing the undertaking, and project, topographic, and aerial location maps.

Ethos Consultants Inc. conducted an intensive cultural resource inventory for Reclamation at the Canyon Ferry Reservoir in 2008, including the Area of Potential Effects (APE), detailed in the report entitled *Cultural Resources Inventory of Selected Tracts of Bureau of Reclamation Land at Canyon Ferry Reservoir: Broadwater and Lewis and Clark Counties, Montana* (Brumley, John, 2008). No cultural resources were discovered in the APE. Reclamation has determined this inventory as adequate.

Reclamation has made a determination of no historic properties affected for the described undertaking. This information is being provided to your office as required by 36 CFR Part 800. We request your concurrence with Reclamation's determination.
