

# Canyon Ferry Shoreline Management Working Group Minutes 2-17-06

The meeting was facilitated by Paul Backlund, Facility Manager of Canyon Ferry Reservoir

## Agenda Items

- Introduction of meeting and Reclamation Staff present at the meeting
- Review draft
- Next Meeting
  - When
  - Where
  - Subject:

## Comments

- Improve interagency coordination – Currently the cabin owners have to contact and work with three different agencies to obtain permits for docks and bank stabilization. Cabin owners have suggested that the three agencies develop agreement or process that would involve working with one agency/contact to obtain required permits.

## Dock Locations

- Switch A and B around
- Create language for variance process for placing boat docks

## Jet Skis

- Number of ramps/docks allowed per cabin site

## Boat Lefts

- Remove the limit of pounds to size of boat

## Mooring Buoys

- Mooring buoys for cabin owners – Reclamation would like to know why

## Dock Sizes

- Average mean water elevation is 3797.5
- T and L shaped docks should be uniformed sizes
- Include a statement about not blocking access to other docks or access to the reservoir

## Docks other than those authorized by PL 105-277

- To be discussed by at next working group meeting

### Bank Stabilization

- Introduction on Reclamation property

### Next Meeting:

- The meeting will take place at the SS Cyril & Methodius Catholic Church (lower level), 120 West Riggs St., East Helena, April 25<sup>th</sup>, 2006, 6:30 p.m. to 8:00 p.m.
- Subject: Docks other than those authorized by PL 105-277

Meeting ended at 8:15 PM
