☐ Citizen's Group

Name: _____

Organization (if applicable): _____

Street Address (optional): _____

City/State/Zip (optional): _____

Email (optional): _____

If you wish to provide written comments, please write your comments below. Written comments may be submitted using this card, via e-mail, or any other written format sent to the address below within the comment period, March 10, 2026.

Comments: *First Priority - boat ramp*
Low Priority - more camping spots
Do not change Liberty Loop to back in -
leave them user friendly

Please submit today or via U.S. mail to: Cody Hendrix, Bureau of Reclamation, 2900 4th Avenue N Suite 501, Billings, MT 59101

Comments: My history: 78 years old. 45 years using Tiber Lake year around weather permitting. I've watched the growth increase in many numbers. This proposal comes 20 years since the first proposal.

over

Tiber has always been a red
headed step-child to Canyon Ferry
etc.

I was quite pleased with the
2 meetings. Especially when we
moved up the ramps to No. 2.

As Dale Abbott and I commented
on the liberty slope. Leave as is.
Not broken - don't need fixing. we
don't need curbs or rocks for
designated areas. If the designers
spend 2 days here in the summer they
would see the wind problems that
rip campers down off. Lots of tents are
used in that area - 4 more spots
isn't the answer.

No 1 priority right now is get
these ramps excavated out as soon
as ice opens up. If the new ramps
were in within 2 years that will
be a miracle.

The last 2 years we had low
water and had funds to get it
done but your camp area was very
sloped No. But a story for another
time. Thanks for listening to us.

lastly. Had a good talk
with the gal that was at
chester - she was concerned too.

No one up here knew of
meeting. My brother in law
in Glasgow called me about
meeting. He got it out of the
Billings Gazette. I went on
a radio show on that Mon
and discussed the agenda.

Really - you have to see, here
that would be just the wife
out - but you have to have
a leader here that gives a bit

Many of your gal need to
work together so this never
happens again. Plus they have
a meeting when the Main
growers were meeting at the
best facility for the meeting -
last people that use the hall is
lot - Senior Center was available
the next day

Thanks
for letting me vent

Comments: FIRST Priority is BOAT RAMP
THAT will Help EASE congestion.
Design Liberty Loop PARKING so they
are user Friendly - wind wont tear doors
OFF CAMPERS -
