

# Dam Half Dollar

## Hope Said Remote

6-25-35  
Possibility of getting a special Boulder dam half dollar coined was reported to be remote today as President Roosevelt has expressed his unwillingness to sanction special coinages, according to a report made at the chamber of commerce meeting today.

The chamber has been asked to pass on the international fixed calendar, having 13 months of 28 days each, and the matter was referred to a committee today for consideration.
