

BIDS ARE OPENED FOR HOMES AT DAM

LAS VEGAS, Nev. (AP)—Seventeen bids covering construction of 12 houses, the first unit of government quarters at Boulder City, near the site of Hoover dam, were opened Friday by Walker R. Young, of the United States reclamation bureau.

Because of the complexity of the bids, officials were unable to announce low bidder and the contracts were tabulated and mailed to Washington, where the successful bidder and type of construction will be announced.
