

State Officials In Vegas Today

Governor Fred B. Balzar, together with State Controller Ed Peterson, Attorney-General Gray Mashburn and State Highway Engineer S. C. Durkee, will arrive in Las Vegas tonight on a two-day inspection of the highways in this area, according to word received by C. C. Boyer, division highway engineer.

The three state officials first named comprise the state highway commission, whose duty it is, under the state law, to make an annual trip of inspection over all of the highways in the state.

The four officials are expected to be in Las Vegas for two days or more, Boyer said.
