

Fox Films to Have Dam Background

According to information received this morning by the Las Vegas chamber of commerce from Fox picture studios, their picture "I Loved You Wednesday," soon to be released, will have Boulder dam construction scenes in one sequence when Warner Baxter appears in the lead as an engineer.

It is thought that this will be the first time that the dam will appear in a dramatic picture, however, it is known that two or three other pictures will carry scenes of the dam.

Henry King, of Fox studios, is director of the picture. Elissa Landi, as a ballet dancer and actress, has the feminine lead. Victor Jay, Mariam Jordan, and Laura Hope Crews are also in the cast.
