

Water Body Ready For Aqueduct Bid

LOS ANGELES, Oct. 20. (UP) —The Metropolitan Water district prepared today to advertise for bids for 5,000,000 barrels of cement, believed to be the greatest single order ever placed.

The supply would be sufficient to build a broad highway from Los Angeles to New York, and will be used in the construction of 110 miles of the Colorado River aqueduct project.

Contracts for the start of construction were awarded yesterday.
