

Dam-Mohave Road Link to Be Let

10-27-34
A contract for construction of another nine miles of the Kingman Boulder Dam highway will be let October 30, according to word received here today.

This section of highway will be from the bridge recently constructed by the All-Arizona Engineering and Construction company over the White Hills wash toward Chloride.

It will extend to within about ten miles of Chloride. Budget figures call for about \$98,000 for the project and work should start before the end of November.
