

Power Line Work Will Start Soon

2 - 3 - 39

With work on the third power line of the Los Angeles bureau of power and light from Boulder dam to the coast expected to get under way by the first of April, plans are being made in Boulder City for the new project, it is reported.

The bureau of power and light has taken over eight lots in block 121, facing north on Fifth street and bordered on the west by B street, for a storage yard for equipment and miscellaneous uses while the work on the power line is in progress.

Bids are expected to be advertised on the project in the near future, with work to be started in April, according to present plans.
