# Home Being Built For Power Chief

12/29/31

Construction of a home for H. O. Watts, superintendent of the Hoover dam sub-station, will be well under way soon in Boulder City by Fred C. Snell, of the Boulder City Building Supply company.

One and one half lots in block seven, on the northeast side of Utah street north of Park place have been leased by the reclamation bureau to the Nevada-California Power company superintendent. The site is between the hospital and the government dormitory.
