

# Plane Service to Hoover Dam Area Planned

LAS VEGAS (Nev.) March 5. (Exclusive)—If plans materialize, passengers on the Verde Valley Air Lines, Ltd., will fly over Black Canyon and the Hoover Dam project daily in regularly established service in the very near future.

Legal notice of application for a certificate authorizing operating of aircraft vehicles along this route has just been served on the State of Arizona and the United States government.

This city will be northern terminus of the line, which will be the first to traverse Arizona from north to south. Douglas, Ariz., will be the other end of the line.
