
William M. Bickell & Co., Builders of Terminal Bldg., Say Contract Let

Construction of a 34 - room dormitory for government employes will be commenced in the near future, upon receipt of notice of award of the contract.

To be located on Arizona street just east of the municipal building, the structure will be of frame and stucco construction, two stories in height, and 42 by 88 in size.

William M. Bickell, of William M. Bickell & Co., Las Vegas contractors who built the Terminal building in Boulder City, states he has received word that he has been awarded the contract by the chief engineer's office in Denver.

The building will have a partial basement, calling for an excavation for space for furnace room.

The building will have gypsum wall board interior finishing, and asphalt composition shingles.
