

Dam Worker's Wife Nabbed With Booze

7/16/32
One-half a gallon of whiskey and a quart of gin was the cargo of a car driven by Mrs. John Walker, wife of a Six Companies Inc. employee, and searched by reservation police last night, the officers revealed today.

Mrs. Walker was returning to Boulder City after mid-night last night. Following the custom she was stopped at the reservation gate and her car subject to search by the rangers at the post.

The officers said liquor was found in the car and Mrs. Walker was brought into Boulder City. She spent the night in the Boulder City jail.

This morning City Manager Sims Ely conducted a hearing on the case.
