

# Power to Be Off In Boulder Saturday

12/21/32

Power in Boulder City will be off for several hours Saturday morning, it was announced today by Six Companies officials, who said that work on the power line would necessitate a shut-off from 9:30 for at least two hours.

Six Companies is installing a new breaker unit at the substation for Babcock-Wilcox in preparation for a power line to be built from the substation to the Babcock-Wilcox plant.

The Six Companies is also planning to install a disconnect panel at the substation and do work on the circuit breaker during the shut-down.
