

# *Insurance Plan Puzzles Boulder Dam Builders*

---

CARSON CITY, Nev., March 18. (UP)—A conference between Governor Fred B. Balzar of Nevada and W. A. Betchel, vice president of Six Companies, Inc., the syndicate which will build Boulder dam, regarding the problem of insurance, ended in a deadlock today.

Attorneys for the syndicate oppose placing all Boulder dam insurance with the Nevada State Industrial Insurance commission. They say 50 per cent of the workers on the project will be used on the Arizona side, although living in Nevada, and the company would have to insure these men under Arizona law.
