

# Markey's Body Is Sent to California

3-4-33  
The body of Tom Markey, high scaler who was killed Sunday in a fall from the railroad tunnel, was shipped last night to San Francisco, the home of relatives, where funeral services will be held.

Markey was killed when the valve blew off the end of an air hose, striking him and knocking him off the ledge for a fall of about sixty feet to the bottom of the canyon.
