

Baker May Be Aide On Public Works

7/19/33
That assistants to the regional directors of public works, will be appointed in each state, is indicated by receipt here this morning by C. D. Baker of a wire from Congressman James G. Scrugham requesting him to forward all data concerning himself for submission to Secretary of Interior Harold Ickes.

Baker was originally slated for the position of director of public works for Nevada when the administration was to be by states. He is now, according to Scrugham's wire, in line for the post of assistant to the director to handle the Nevada project.
