From: Carol Lynn Erwin
Acting For Area Manager

Subject: Findings of No Significant Impact (FONSI) and Final Environmental Assessment (EA)
for Proposed Ground-Water Recharge Project on the San Xavier District of the Tohono
O'odham Nation

The Bureau of Reclamation has determined that the proposed ground-water recharge project in the Arroyos Area of the San Xavier District will not be a major Federal action significantly affecting the quality of the human environment. A copy of the final EA and FONSI are provided on the attached CD-R. Paper copies of these documents are available upon request. The final EA and FONSI can also be viewed at <http://www.usbr.gov/lc/phoenix>.

The pre-decisional draft EA was mailed to potentially affected or interested individuals, organizations, and agencies for public comment on March 12, 2009. The draft EA was also available on Reclamation's Phoenix Area Office Web site. One letter of comment was received by Reclamation (see Appendix D of the final EA).
