Phoenix Area Office
6150 West Thunderbird Road
Glendale AZ 85306-4001

Subject: Environmental Assessment for the CWC CAP WDS project
Recharge facility site change

Dear Mr. Ellis:

This letter is to provide notice that Community Water plans to establish an alternate recharge site for completion of the subject Environmental Assessment (EA). It is Community Water's judgment that the cost to develop and operate the recharge facility proposed in the subject EA will not be supportable by Community Water over the long haul. This change of plan has been reviewed with the owner of the original site and enables that site to be considered for other uses.

A revised set of criteria to use in evaluating an alternate recharge site is being developed and Community Water plans to share these criteria with you. As part of the search for an alternative recharge site Community Water may examine candidate sites that had previously been rejected.

Community Water understands that this decision will delay the completion of the subject EA, but believes that it is in the best interest of all parties in our community.

Sincerely,

A handwritten signature in black ink, appearing to read "Virgil W. Davis". The signature is written in a cursive, flowing style.

Virgil W Davis
Secretary

Cc: Mr. Ken Taylor, Chairman, Community Water
