MEMORANDUM

To: All Interested Persons, Organizations and Agencies

From: Leslie A. Meyers
Area Manager

Subject: Notice of Availability of Environmental Assessment (EA) on an Exchange Agreement between the Tohono O'odham Nation (Nation) and New Magma Irrigation and Drainage District (NMIDD) (Action 14 days from date of this memorandum)

The Bureau of Reclamation has prepared the subject EA to disclose the potential environmental impacts that may result from the approval of an Exchange Agreement between the Nation and the NMIDD.

The EA evaluates the delivery of the Nation's Central Arizona Project (CAP) water for Storage at a Ground Water Savings Facility (GSF). A copy of this document is enclosed for your information. The amount of water delivered ranges from zero to 25,000 acre-feet of the Nation's CAP allocation. The EA also evaluates a 'No Action Alternative' in accordance with the National Environmental Policy Act (Public Law 91-190) and Council on Environmental Quality Regulations (40 Code of Federal Regulations 1500-1508). Pursuant to the provisions of the Arizona Water Settlements Act (AWSA) (P.L. 108-451) the United States considers the agreement to be an exchange and requires the approval of the Secretary of the Interior in accordance with Section 309(c)(4)(C) of the AWSA.

We have made a preliminary determination that a Finding of No Significant Impact (FONSI) is appropriate for the action and that preparation of an Environmental Impact Statement is not warranted. However, we will consider all comments on the EA prior to making a final decision on the application of a FONSI. The EA and draft FONSI may be viewed on the Phoenix Area Office Web site at www.usbr.gov/lc/phoenix.

Comments should be submitted to at United States Bureau of Reclamation, 6150 West Thunderbird Road, Attn: 1500 Ms. Kimberly Musser, Glendale, AZ 85306; faxed to 623-773-6486; or emailed to kmusser@usbr.gov no later than 14 Days from the date of this letter.
