Mr. Ron Derma
General Manager
Bard Water District
1473 Ross Road
Winterhaven, CA 92283-9715

Subject: Approval of Calendar Year 2013 Diversion Estimate for the Bard Water District
(District)

Dear Mr. Derma:

In accordance with Title 43, Code of Federal Regulations Part 417 (Part 417), this letter provides the District with notice of my determination regarding the District's proposed diversion and beneficial use of Colorado River water for calendar year 2013.

Water rights for lands within the District are based on water right certificates that provide for delivery of the quantity of water which can be beneficially used for irrigation of individual lands covered by the water right certificate.

Based upon a review of the calendar year 2013 diversion estimate provided by the District, and the information gathered during the Bureau of Reclamation's annual Part 417 consultation process, I approve the diversion of up to 51,300 acre-feet of Colorado River water during calendar year 2013 for use in the District's service area. This approved diversion results in an estimated consumptive use of 23,913 acre-feet for calendar year 2013.

Reclamation will monitor and project diversions and consumptive use of Colorado River water during calendar year 2013 in an effort to ensure each entitlement holder's annual approval is not exceeded. Beginning in February 2013, these projections will be available to water users on a daily basis on Reclamation's website: www.usbr.gov/lc/region/g4000/hourly/forecast13.pdf. It is expected that California entitlement holders will use this information to adjust diversions to remain within approved annual quantities or, as appropriate, seek modification of the approval.

Thank you for submitting the District's diversion estimate for 2013. If you have questions, please contact Mr. Paul Matuska, Water Accounting and Verification Group Manager, at 702-293-8164.

Sincerely,

Terrance J. Fulp, Ph.D.
Regional Director
