1) The District has brought 656 acres into the district service area the water use on this land cannot be quantified because of lack of historic data. The district shall monitor the usage on this farm with heightened diligence allowing a determination of projected needs by mid year. In which case an adjustment to the district's estimated use will be required.

2) The district is negotiating a pilot fallowing agreement which if concluded will reduce district deliveries which will be revised for at the time the negotiations are completed.

Sincerely:

Patrick L. Morgan
