

volume of up to 46,000 acre-feet of ICS. Pending approval of those plans by Reclamation and appropriately accounting for the 5 percent system assessment, Nevada currently anticipates storing up to 43,700 acre-feet of ICS credits in Lake Mead during calendar year 2014. The above volumes may be modified during the year in accordance with Sections XI.G.3.B.1 and XI.G.3.C.9 of the Guidelines.

Unforeseen conditions make it difficult to estimate monthly water use needs a year in advance. With this in mind, please note that this request may be amended during calendar year 2014 as additional information becomes available, and that Nevada will submit a revised water order to reflect such modifications.

If you have any questions, please feel free to contact McClain Peterson at (702) 486-2672.

Sincerely,

Jayne Harkins, P.E.
Executive Director
