Subject: Approval of Calendar Year 2016 Colorado River Diversion for the Yuma County Water Users' Association (Association)

Dear Mr. Davis:

In accordance with Title 43, Code of Federal Regulations Part 417 (Part 417), this letter provides the Association with notice of my determination regarding the Association's proposed diversion and beneficial use of Colorado River water for calendar year 2016.

Water rights for lands within the Association are based on water right certificates which provide for delivery of the quantity of water which can be beneficially used for irrigation of individual lands covered by the water right certificate.

Based upon a review of the calendar year 2016 diversion estimate provided by the Association, and the information gathered during the Bureau of Reclamation's annual Part 417 consultation process, I approve the diversion of up to 386,000 acre-feet (AF) of Colorado River water during calendar year 2016 for use in the Association's service area. This approved diversion results in an estimated consumptive use of 250,443 AF.

Reclamation will monitor and project diversions and consumptive use of Colorado River water during calendar year 2016 in an effort to ensure each entitlement holder's annual approval amount is not exceeded. Beginning in January 2016, these projections will be available to water users on a daily basis on Reclamation's website: www.usbr.gov/lc/region/g4000/hourly/forecast16.pdf. It is expected that entitlement holders within the state of Arizona will use this information to adjust diversions to remain within approved annual quantities or, as appropriate, seek modification of the approval.

Thank you for submitting the Association's diversion estimate for calendar year 2016. If you have questions, please contact Mr. Paul Matuska, Water Accounting and Verification Group Manager, at 702-293-8164 or pmatuska@usbr.gov.

Sincerely,

Terrance J. Fulp, Ph.D.
