*All quantities in acre-feet.

†The Consolidated Decree entered March 27, 2006, in Arizona v. California allocates 71,616 acre-feet for lands within the boundaries of the Fort Yuma Indian Reservation in the State of California.

By settlement agreement executed February 14, 2005, by the United States, the State of California, and several Colorado River water users; including the Quechan Tribe (Tribe) and the Metropolitan Water District (MWD): (1) only 64,616 acre-feet are immediately available to the Tribe; (2) the full 71,616 acre-feet will become available to the Tribe in Year 2035; and (3) 13,000 acre-feet immediately available to the Tribe are available for diversion to the MWD through Year 2035 contingent upon conditions set forth in the 2005 settlement agreement and a forbearance agreement between the parties. Under the settlement agreement, beginning in 2035, certain other conditions may occur between MWD and the Tribe affecting the use of the Tribe's supplemental decree entitlement by MWD.
