Dear Dr. Fulp:

Metropolitan Storage of Unused Nevada Apportionment in 2013

In its October 30, 2013, letter, the Southern Nevada Water Authority (SNWA) notified The Metropolitan Water District of Southern California (Metropolitan) that it would like to pursue making 70,000 to 75,000 acre-feet of unused Nevada basic apportionment available for storage by Metropolitan in 2013. This letter confirms that Metropolitan has agreed to divert up to 75,000 acre-feet, consistent with the terms of the Second Amended Operational Agreement among SNWA, Metropolitan, and the Colorado River Commission of Nevada, and the Storage and Interstate Release Agreement among those parties and the Secretary of the Interior.

With your approval, Metropolitan will divert the additional water from Nevada in 2013, and will submit a revised water order request to add this water to our approved 2012 Colorado River supplies. If you have any questions regarding these matters, please contact me at (213) 217-6520.

With best regards,
