SEP 22 2005

Interested Parties

Subject: Public Process – Methods to Recover or Replace the Bypass Flow, including the Yuma Desalting Plant

Dear Ladies and Gentlemen:

The Bureau of Reclamation is initiating a public process to solicit information about potential methods to recover or replace the bypass flow. The bypass flow is the agricultural return flow from the Wellton-Mohawk Irrigation and Drainage District (WMIDD) that bypasses the Colorado River and is discharged to the Cienega de Santa Clara in Mexico. This public process is an opportunity for all interested parties to provide relevant information to Reclamation to be used in formulating future decisions relating to recovery or replacement of the bypass flow. We invite you to participate in a way that is most convenient and meaningful to you.

Excluding WMIDD return flows from the Colorado River has been an important method for meeting U.S. salinity control obligations to Mexico under Minute 242 of the Treaty of 1944. However, the bypass flow is not included in the 1.5 million acre-feet of water that the U.S. is required to deliver annually to Mexico. Consequently, system storage from the Colorado River has been used to make up for the bypass flow. The current drought and projected long-term water demands have heightened concern about this demand on the river system.

The Yuma Desalting Plant was originally constructed to recover part of the bypass flow and return it to the river. Various other methods for recovering or replacing the bypass flow have been proposed including proposals that address potential impacts to the wetlands in the Cienega de Santa Clara.

Reclamation will host two public meetings to solicit and collect information and feedback about all potential recovery or replacement opportunities. To date, no federal action has been proposed. The public meetings are scheduled as follows:

October 5, 2005, 9 a.m. to 11 a.m., at the Yuma Crossing State Historic Park, 201 North 4th Avenue, Yuma, Arizona 85364. (Take I-8 to Yuma/Winterhaven 4th Avenue exit, then south on 4th Avenue half a mile. The Park is located on the east side of 4th Avenue.)

October 5, 2005, 6 p.m. to 8 p.m., at the Arizona Department of Water Resources, 500 North Third Street, Phoenix, Arizona 85004. (Conference Room on the 3rd floor.)

In addition to these meetings, Reclamation will accept written input pertaining to this topic through November 15, 2005. Information can be provided to:

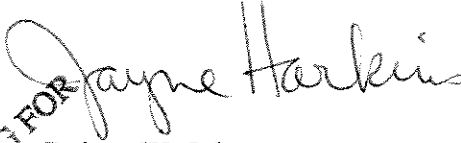

Mr. John A. Johnson
Bureau of Reclamation
P.O. Box 61470
Boulder City, Nevada 89006-1470
Phone: 702-293-8509
Fax: 702-293-8023

Comments can also be submitted by e-mail to bypass@lc.usbr.gov. For further information, please contact Mr. John Johnson through one of the methods noted above.

Reclamation will establish a web site to provide information about the bypass flows, concepts for bypass flow recovery or replacement that have already been suggested, and facts about the Yuma Desalting Plant. The web site will also include all comments received during this public process. We anticipate that the web site will be functional prior to the first public meeting.

Thank you for your interest and participation.

Sincerely,

ACTING FOR
Robert W. Johnson
Regional Director
